There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- *The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion* of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur

early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies

- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- *Produced a map for the filter distribution locations*
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were *notified via our notification system with additional* information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.

- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/17/2016 08:00:00
Operational Period End:	01/19/2016 08:00:00
Situation Report No.	12
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/17/2016 08:00:00
SEOC Hours of Operation End:	01/17/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 17):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Working on securing vehicles for additional teams for Monday, January 18th.
o Procured 2 additional vans from DOC to shuttle additional teams next week.
o Obtaining armed security for warehouse between the hours of 7:00 pm and 7:00 am.
o Requested expedited delivery of DEQ water testing kits.
o 20 ft. trailer has been procured from the DOC for use by ARC to store assembled water test kits.
o Verizon Booster and wireless will be provided to warehouse for internet connectivity and improved cellular reception.
o POD trash issue is being resolved and new removal system is in place.
o Submitted a request to MDOT for reflective vests for volunteers.
o Submitted request for hand warmers for volunteers.
- JIC
o Governor's office issued a news release announcing the presidential emergency declaration approval.
o Answered media calls about the state's resource distribution and activity efforts to date.
o Updated daily talking points to include the state's activity efforts to date and the Presidential emergency declaration.
o Coordinating with FEMA External Affairs to plan a Congressional call on January 17, in additional to a legislative call regarding the Presidential emergency declaration. Preparing talking points for the Congressional and legislative conference calls.
o Issued a news release with today's activity for the water resource sites and water distribution teams, as well as the increase in National Guard personnel.
- Recovery Branch
o Worked to ramp up team activities for tomorrow.
o Continued coordination with Red Cross on volunteers for Monday.
o Data is for 1/17/16 as of 5:00 pm.
Water Response Teams TOTALS 1/17/2016
Occupied Homes 8,871 2799
Vacant Homes 2,954 790
Unknown 4,523 1374
Total Homes Visited 16,348 4963
Resources Provided
Door Hangers 6,369 1982
Water - Cases 3,595 1510
Water - Gallons (Jugs) 98 1
Filters-Faucet 4,572 1558
Replacement Filter 2,938 897
Filter Pitchers 35 6
Water test kits 854 434
Total Resources Dispersed 18,461
Future sample test site 914 460

- Planning Section
o Lead morning and afternoon state agency conference call.
o Coordinated logistics of resource tracking.
o Developed projections based off of reporting and trend analysis.
o Published Sit Rep # 12.
o Participated in distribution process meetings.

- Operations Section
o Conducted SEOC Briefings.
o Worked with local EOC to fix trash issue at the stations.
o 89 American Red Cross volunteers are active across operation today.

o Warehouse Numbers:
ℑ Clio St Warehouse (approximate current stock)
• Replacement Cartridges.
o 62,048
• Filters (faucet)
o 57,097
• Water (cases)
o 31,920
• Testing Kits
o 11,053
o Point of Distribution (as of 7 pm)
ℑ Contacts
• 741
ℑ Water (cases)
• 4809
ℑ Filters (faucet)
• 938
ℑ Replacement Cartridges
• 306
ℑ Filters (pitcher)
• 10
ℑ Test kits
• 1105
• Finance Section.
o Working on verifying correct entry of EMHSD staff overtime in DCDS.
o Continuing to work on developing spend plan.

• GIS Branch Updates.
o Determined that 40% of the registered 29,994 active water subscribers have received filters.
o Developed a Flint Water Response Team progress map for public distribution.
o Produced a city of Flint infrastructure map for FEMA IMAT.
o Developed planning maps for the Recovery Branch.

DTMB:
• Clio Rd Warehouse security setup today.
• Warehouse technology issues addressed and resources will be supplied by tomorrow.
• DTMB, DSEMIC, and NC3 are monitoring social media for information on cyber-attack.

DHHS-CH
• Put together a timeline of activities for DHHS response.
• Letter sent to JIC on blood lead analyzers for pediatricians.
• Coordinated with DOE on potential grant for children impacted by traumatic events.

DEQ
• Working on the test kit production.
• Working to transition ordering to FEMA if needed.

Local EOC Update:
• Facilitated activation of Genesee County/Genesee Health System MOU for mental health services.
• *Coordinated supplies for U of M flint Distribution.*
• Coordinated trash pickup at Fire Station PODs with Liaison Officer.
• Developed Sit Rep #7.
• Coordinated hotshot deliveries of supplies to special locations.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was operational in Flint from 8 a.m. to 10 p.m. on Jan. 17.

State agencies at the JIC included the Governor's Office, Departments of Health and Human Services, Agriculture and Rural Development, and Technology and Management and Budget, Natural Resources, Environmental Quality, Licensing and Regulatory Affairs, Military and Veterans Affairs and Michigan State Police. The Genesee County Sheriff's Office was also present.

Tasks accomplished:

- Helped arrange a legislative and congressional conference call to give updates on state and FEMA efforts.
- Provided talking points for Captain Kelenske for the legislative and congressional phone call.
- Provided talking points for attendees on congressional/legislative call so they can share updates with their constituents.
- Arranged a media availability at the Clio Road warehouse for media to have the opportunity to tour the warehouse to get photos and video of where water resources for Flint residents are being housed and distributed. Event attended by F/Lt. Dave Kaiser,

ARC Warehouse Manager, and Capt. Tafoya of GCSD.
• Provided printed instructions to 211 for installing a water filter.
• Created a section called Federal Declaration Requests on the Flint Water Website to house the emergency declaration and associated letters.
• Updated the Lead in the Body FAQ/fact sheet on the website to focus more on lead in the water.
• Planning to send out nightly news release with updated information about today's activity.
• At the request of 211, arranged for a PIO from the Community Service Commission to be in the JIC this week.

Agriculture and Rural Development (MDARD)

Saturday Jan 16th update:

Primary activities today: coordination with FDA Detroit District on their and MDARD's upcoming activities related to food, inquiry into a possible animal facility requiring follow up; draft of a document outlining federal resources that may be available to assist with broader recovery issues.

American Red Cross (ARC)

Today was the last day the American Red Cross supplied staffing at the fire station POD's supporting the National Guard mission.
The assembly of water test kits at ARC headquarters was postponed until product is available.
We deployed and supported 10 teams (30 volunteers) for neighborhood canvassing (Water Response). 10-14 teams are planned for tomorrow.
We supplied lunches for all 20 of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation today. 42 volunteers were processed today. The VRC will be in operation on Monday.
We continued warehouse and inventory management efforts.
A total of 89 Red Cross volunteers were active in today's efforts.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC activities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

To support and provide information to the CHECC Disaster Behavioral Health planning lead, MDE was inquired regarding potential application for the "Project School Emergency Response to Violence," (SERV) grant. Follow-up was received from Louis Burgess who indicated that information will be gathered by MDE regarding this grant to determine the applicability and feasibility.

Provided MDHHS PIOs with drafted letter developed by the CHECC and reviewed/approved by Dr. Wells, Dr. Johnson, and April Swartout, for approval from the JIC to be signed and sent to GCHD. This letter serves to encourage Genesee County pediatricians to accept and use portable lead analyzers being offered to them by the GCHD. This letter was approved by the JIC this afternoon, pending minor edits. The final version of the letter will be provided to the SEOC State Director for approval before sending to GCHD.

Provided a MDHHS timeline of Flint Water-related activities, to date, to the Operations Section Chief as requested. This timeline included both health and human services statistics such as water and filter orders, number of blood lead tests conducted, and data on the number of elevated blood lead levels reported in children (categorized by age) in Flint.

Coordinated with the JIC and CHECC on nutritional information available online, as well as the possibility of activating the Disaster Distress 24/7 helpline through SAMHSA. These two projects are a work-in-progress to be further facilitated by the subject matter experts working on them later in the week.

Corrections (MDOC)

Brent Travelbee and Todd Bechler on duty SEOC today. All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution; additional request's today for re-allocation of hand jacks, a replacement electric jack, an additional box truck and 2 more transportation vans have either been filled or are in progress set for Monday morning delivery. MDOC Director Heidi Washington is providing full support to our assistance efforts. We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources will be reporting tomorrow Sunday January 17, 2016 as requested.

MDOC RESOURCES PENDING DEPLOYMENT: Monday, January 18, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(2) - 24' Box Trucks
(1) - 30' Box Truck (Lift gate broken but truck still on site, DTMB repairing)

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap
(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer
(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(5) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 24 staff members on site 23 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
- Identified MDEQ employee George Krisztian to attend the Tuesday Flint health briefing.
- Coordinated one 24' trailer or truck to be delivered to the ARC HQ in Flint. This will be used to store water test kits once assembled by the ARC. Duration of request was 7 days.
- Participated in SEOC activities to include the daily state agency briefing and the Distribution Process meetings.
- Provided support for possible transition of test-kit provision to FEMA
- Initiated expedited delivery of sample bottles already on order.

Human Services (MDHS)

Updated MDHHS Budget / Finance of FEMA intention of assuming water filter device procurement.

Provided FEMA OPs and Logs requested information on current water filtration device orders and inventories.

Met with FEMA VAL. Exchanged contact information, provided some SA and supplied contact information between FEMA VAL and MCSC in Flint.

Staying in communication with 211, addressing human service concerns and delivery of resources to the elderly and disabled.

Review and provide regular 211 updates to SEOC Ops.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Two bubblers that were supposed to be overnighted and delivered to a Flint area Home Depot did not arrive. Without these bubblers the Freeman School faucet replacement pilot cannot be completed; Install could possibly be finished on 1/18 if parts arrive.

LARA is currently working with DEQ to create a schedule for LARA's Plumbing Division to help DEQ with testing of additional schools in the Flint area.

LARA Bureau of Community and Health Services is in contact with licensed facilities to ensure they are receiving appropriate assistance if needed. LARA is continuing to receive information on the facilities to determine the appropriate actions needed.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of 6 Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of 7 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings in planned only if significant changes in the forecast occur.

NWS support beyond this weekend being coordinated between NWS Grand Rapids and NWS Detroit. Hand off to NWS Detroit for morning conference call weather forecast likely before the end of January.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the Genesee County Health Department and MDHHS, has helped organize local meetings and distribute water and water filters. VAAA is an access point for receiving calls from homebound seniors who are not able to pick up water filters or need assistance installing water filters. VAAA reports they continue to receive calls from seniors who need assistance.

Contact info for VAAA Executive Director is:

Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

VAAA has distributed 2 bottles of water with each home delivered meal to each HDM client within the City of Flint. Water. VAAA also provided water to homebound seniors who needed water to prepare food as they had limited support to pick up bottled water. Congregate meal participants also have access to water and filters as needed. Once water filters were installed, VAAA discontinued including water with home delivered meals.

VAAA also contacted the Grandparents Raising Grandchildren program to ensure that they were aware of educational efforts and confirm the program had received water filters to distribute to program participants.

On 1/11/16 AASA forwarded to MSP/GIS over 1,400+ NAPIS addresses of Flint seniors who received in-home services in FY15. The NAPIS file was sent encrypted and did not include client names. The NAPIS file included 1,029 HDM, 138 CM, and 30 CCS clients.

VAAA continues to operate as a call center and referral point for area seniors concerned about their drinking water. They've noticed this week that seniors who've had filters installed are beginning to request bottled water again.

AASA's State LTC Ombudsman has checked in with the local Ombudsman in Flint. Local Ombudsman reports Flint area nursing homes have been taking precautions using bottled water for cooking and drinking. The local Ombudsman remains concern about Nursing Homes' long term need to replace old facility plumbing that may be leaching lead.

State Police (MSP)

Teams have been distributing water all day. 4968 homes have been visited today.

2:59 p.m. - I

5:59 p.m. Lt. Young advised today, Sunday, Jan 17, 2016 - 173 total team members made up 11 teams which consisted of 104 volunteers to include 22 DHHS, 69 Non volunteers (Paid Personnel) which included 11 drivers from Dean Trailways, 12 MDOC personnel, 17 MSP and 29 GCSO.

We have 114 state of Michigan employee volunteers scheduled for Sunday Jan 17th and 139 scheduled for Monday Jan 18th.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Provided management briefing and information on emergency declaration.

DTMB Mail Services has seven drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Drivers have agreed to work through the end of day Tuesday, January 19.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Verizon Wireless booster will be onsite at Clio Rd. warehouse on Monday, January 18 by 2:00pm.
Procuring hand warmers for Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Subject:	SEOC Update 1/19/16 - Flint Water - Limited Distribution
Attachments:	SitRep14 Flint Water.pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.

- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

    1. 22,129 homes visited by the FWRTs to date.

    2. *Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.*
       a. Number of cases of water 77,794
       b. Filters 69,730
       c. Filter cartridges 184,457
       d. Test kits 16,671

    3. *Total number of customers on the Flint water system*
       a. 29,944 paying customers
       b. 45,000 hookups (This is our high end target #)
       c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
       a. Cases of water 95,760 (additional 16,056 donated)
       b. Filters 115,700
       c. Filter cartridges 243,200
       d. Test kits 61,161

    5. Teams going out tomorrow:
       a. National Guard type 3 teams---Goal tomorrow 300 homes per team
       b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- *Receive, store and increase quantities of supplies*

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system

a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams l), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:
    - <u>As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 27,195
        b. Filters 50,432
        c. Filter cartridges 168,605
        d. Test kits 4,861

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. Test kits 28,901

    5. Teams going out tomorrow:
        a. State type 3 teams---Goal tomorrow 300 homes per team
        b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - *We will have state agency, type 3 teams , with a goal of 300 homes per team.*
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.

- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - <u>As of 1/16/16 7pm (start date was Tuesday, 1/12/16)</u>

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

   2. Distributed:
      a. Number of cases of water 20,876
      b. Filters 47,935
      c. Filter cartridges 167,401
      d. Test kits 3,322

   3. Total number of customers on the Flint water system
      a. 29,944 paying customers
      b. 45,000 hookups (This is our high end target #)
      c. 39,000 includes apartment complexes (The is the low end target #)

   4. Resources purchased:
      a. Cases of water 57,456 (additional 12,884 donated)
      b. Filters 108,520
      c. Filter cartridges 239,081
      d. Test kits 28,901

   5. Teams going out tomorrow:
      a. *State type 3 teams---Goal tomorrow 300 homes per team*
      b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have) state agency, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)

c. 39,000 includes apartment complexes (The is the low end target #)

4. *Resources purchased:*
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
   a. tate ;) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613

Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- *SitRep 8*

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- *If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could* still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:

- Mission – A filter in every home ASAP.
- 4 Distribution Methods
  - PODs (5)
  - Water Response Teams (20 effective tomorrow and this will increase)
  - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
  - Local EOC support for other local requests (Faith based for distribution, etc.)
- Three warehouse locations at this time
- How to better leverage ARC resources

- Supplies – Daily Numbers
  - Replacement Cartridges - 30,700 delivered.
  - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
  - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
  - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
  - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

<u>Attached Documents:</u>

- SitRep 7
- Executive Order Activating the National Guard

<u>Key items for tomorrow to note are:</u>

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be

dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.

- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- *Door to Door Numbers*
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

<u>Update 1/11/16</u>

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

<u>Attached Documents:</u>
- SitRep 6

<u>Key items for tomorrow to note are:</u>
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.

- State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
- The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

   - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
   - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
   - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
     - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
   - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
   - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
     - Debris Removal = ***self-explanatory and we do not have this***
     - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
     - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
  1. Ensure all households within impacted community have required resources.
  2. Ensure accurate tracking and accounting of all commodities.
  3. Improve and maintain public information strategy.
  4. Develop a long term public health and services plan.
  5. Ensure adequate staffing to support operational requirements.
  6. Identify possible assistance programs.
  7. Develop an approved GIS strategy.
  8. Maintain coordination between partner agencies and organizations.
  9. Enhance situational awareness and common operating picture of all activities.

10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and

they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- *Reports received that the last couple of hours were slow.*
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.

- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver

these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to

Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.

- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - *Michigan Department of Health and Human Services office*, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- *Set goals for SEOC and identified response/recovery emphasis*
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been *specifically tasked with this mission.* **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
  - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
  - ***MDHHS – Elevated Blood Lead Levels***
    - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
  - ***MDEQ – Water Testing Protocols***
    - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the *federal Lead Pipe Replacement Program.*
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.

10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	14
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/19/2016 08:00:00
SEOC Hours of Operation End:	01/19/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 19):

The SEOC continues to provide:
• Situational awareness.
• Common operating picture/objectives.
• Coordination with city/county.
• Potential coordination with federal agencies.
• Incident prioritization.
• Coordination of life/health safety measures.
• Resources.
• Public Information Control.

• Logistics
o Worked with FEMA to order water and filter cartridges.
o Worked with DHHS to order filter pitchers for distribution.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide relief teams for warehouse manager.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.

• JIC
o Shared water activity map with Media last night and this evening.
o Issued news release concerning donations.
o Worked with FEMA external affairs to schedule Legislative and Congressional call for tomorrow.
o Comcast has put filter installation video on the On Demand section.

• Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Wednesday and Thursday.
o Confirmed team typing for Flint Water Resource Teams.
o Sent out 5 type 3 and 10 types 5 teams to canvass today.

o Data is for 1/19/16 as of 5:00 pm:
o Total homes visited.
□ 22,129 (total).
□ 2,715 (today).
o Door Hangers.
□ 9,851 (total).
□ 1,163 (today).
o Water Cases.
□ 6,103 (total).
□ 789 (today).
o Replacement Cartridges.
□ 3,795 (total).
□ 322 (today).
o Faucet Filters.
□ 7,394 (total).
□ 730 (today).

• Planning Section.
o Published Sit Rep #14.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Updated staff assignments for the Planning group.
o Identified staff to assist with data entry of daily Red Cross field team worksheets.
o Worked with FEMA to clarify data reporting method and schedule.
o Participated in daily SEOC briefings and distribution process conference calls.

• Operations Section
o Facilitated daily SEOC briefing calls.
o Held logistics meeting with FEMA in reference to resources available and need for ordering.
o Held logistics meeting in reference to National Guard deployment.
o 71 American Red Cross Volunteer active across incident today.

o Warehouse Numbers:
□ Whole warehouse being inventoried, numbers will be available at 0800 tomorrow morning.
o Point of Distribution (as of 6 pm)
□ Contacts.
• 1,822.
□ Water (cases)
• 9,559.
□ Filters (faucet)
• 1,409.
□ Replacement Cartridges
• 534.
□ Filters (pitcher)
• 89.
□ Test kits
• 1,127.

• Finance Section.
o Continue to revamp spending plan and cost tracking.
o Work with FEMA to determine costs for possible reimbursement for Flint emergency.
o Meet with FEMA IMAT about Public Assistance.

• GIS Branch Updates.
• Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
• Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
• Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
• Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
• Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
• Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
• Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
• Received tasker for updating app for Phase II of team deployments.
• Fixed accounts for iPad's that were failing in the field and brought them back online.
• Coordination continued with U of M Flint.

DTMB:
• Drivers have been extended through Saturday to support the canvassing efforts.
• Working on securing space in the flint office building for FEMA staff.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint.
• Discussed with SAMSA to talk about grants available and the DBH hotline.
• Ordered EPA pamphlets concerning nutrition plan for distribution.

DEQ
• 7,200 sample bottles delivered today and 7,200 more coming in tomorrow.
• 14,000 sample bottles will be delivered tomorrow.

Local EOC Update:
• Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
• Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
• Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
• Developed SitRep #9.
• Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 19.

State agencies at the JIC today included the Michigan State Police, and Departments of Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Michigan Economic Development Corporation, and Michigan Community Service Commission. The Genesee County Sheriff's Office was also present.

Tasks accomplished:
- Pushed the 1/18 water activity map on social media.
- Issued news release #09 regarding donations.
- Posted social media content regarding donations.
- Worked with FEMA External Affairs to organize a congressional/legislative conference call for tomorrow at 2:30 p.m.

• Updated daily internal talking points and general talking points.
• Confirmed the water filter video is now on available on Comcast On-Demand. The public service announcement began running Monday, Jan. 18., although it may take a couple of days for all cable boxes to receive the updated content.
• Monitored news media and social media for trends and misinformation. No corrections to news stories were required.
o Topics being covered included:
□ Democratic debate mention by Hillary Clinton
□ Flint as Governor Snyder's Hurricane Katrina
□ Class-action lawsuits filed today against the state
□ State of the State speculation – Flint water plan
□ President Obama possibly meeting with Flint Mayor in D.C. today

• Drafted a news release with the nightly water activity numbers – however, a decision was made in consultation with the Governor's Communications Office that this release will be held until 8:30 a.m. tomorrow (1/20) so as not to conflict with the numbers the Governor gives during his 7 p.m. State of the State address tonight.

Agriculture and Rural Development (MDARD)

Tuesday Jan 19, updated and planned for MDARD FDD ICS sampling team and environmental assessment of the food and food service establishments in the Flint water distribution zone. Including location of training for the team and staging area for the sampling supplies and return of collected samples collocated at the Genesee Co. EOC. MDARD FDD ICS sampling team will be starting to do evaluations Wednesday afternoon. Additionally, we may start collecting water samples Thursday morning depending upon requests for samples from Food and Food Service establishments.

Resolved question about one of the locations in USA Herds with a Flint address appears to be in an area served by City water; though the premise is listed as inactive in our database, the firm was visited and found to inactive with no animals on site.

Continued coordination with the FDA Detroit District office for food establishments with joint jurisdiction in the Flint water distribution area.

American Red Cross (ARC)

The American Red Cross resumed assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Tuesday. 31 volunteers were processed today. The VRC will be in operation on Wednesday.
We continued warehouse and inventory management efforts.
A total of 71 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

White House press release identified the Department of Health and Human Services (DHHS) as the lead for the federal government response to the public health crisis in Flint. This means that HHS will, in collaboration with FEMA, will identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), and the Departments of Housing and Urban Development (HUD), Education and Agriculture (USDA) – that are already working to help residents in Flint.

The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure. HHS will have a team on the ground in Flint this week. The team will be led by Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR). Dr. Lurie will begin engaging with state and local officials today and will travel to Flint tomorrow (1/20/16).

In order to fully leverage the Department's strengths, the HHS team will include HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, whose office manages the President's Task Force on Environmental Health and Safety Risks to Children, and who will be the primary interface with state and local public health officials. Two U.S. Public Health Service Commissioned Corps officers will also help with the day-to-day responsibilities in Flint.

Confirmed with MDHHS PIO and Tom Page (Executive Director for 2-1-1) that two new websites (helpforflint.com and Flintkids.org) will be announced during the State of the State Address this evening, instructing individuals interested in volunteering or making a donation to go to those links to do so. Also, confirmed that the Governor's Office and 2-1-1 are prepared to accept an influx of calls as a result of the Governor's State of the State Address.

Updated resource request for EPA pamphlets, to include an order for an additional 3,000 in Spanish. Communicated this with logistics. Shipment locations and POC were confirmed with SEOC logistics. EPA confirmed that the shipment would be sent ASAP.

Commander Seligman, from SAMHSA, contacted MDHHS and confirmed the establishment of a Disaster Distress Helpline, which has been approved by the JIC. SAMHSA will issue the press release. This was communicated to the JIC and MDHHS PIOs. A conference call was held this afternoon with SAMHSA, CHECC DBH SMEs, and MDHHS EMCs to discuss getting the Disaster Distress Hotline up and running. Another call will be scheduled before the end of the week to discuss additional details before going "live." Genesee County Community Mental Health will also participate in this call.

The CHECC provided statistics depicting that the WebMD Medscape communication sent last week reached +64,000 healthcare providers in addition to +16,000 medical doctors, for a total of +80,000 recipients. This information was also provided to the MDHHS PIO.

Followed-up with LHD EPC regarding an inquiry received from the LEOC indicating that a family had been evicted from their home due to the children having high blood lead levels. The GCHD EPC was instructed to reach-out to the family in order to ensure, first and foremost, that if the children do have high blood lead levels that they receive the care and case management that is required. Secondly, to work with the local Health and Human Services office for housing assistance. The EPC was asked to contact the MDHHS EMC if this approach is unsuccessful, in order to close the loop.

CHECC provided a message on the MI-Volunteer Registry website that encourages registrants to volunteer to support Flint Water Response efforts taking place this week and into the weekend.

Corrections (MDOC)

Brent Travelbee, Mike Farmer and Todd Bechler on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All previous requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Tuesday, January 19, 2016 as requested.

We are building up additional resources for Wednesday, January, 20, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

MDOC RESOURCES DEPLOYED: Tuesday, January 19, 2016

Vehicles with Drivers

(2) – 18' Box Trucks
(4) – 20' Box Trucks
(1) - 24' Box Trucks

Box Trucks have power lift gates

(1) – F250 Pick Up Quad Cab with Cap

(1) – 5 Passenger Handicapped Capable Van

(1) – 15 Passenger Van with 10' Enclosed Trailer

(1) – Pick-up Truck

(6) – 10/15 Passenger Vans

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks (This includes one that is broken and will be returning to Ionia tomorrow night for repair)

(7) – Hand Pallet Jacks

(6) 6-10 Passenger Vans

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Staffing

There will be 22 staff members on site 21 drivers and an assistant for the Red Cross Transportation Van (w/trailer).

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

English Language Learners report from Flint Public School District (Flint Community Schools). Results show 338 total with 83% Spanish speakers; 6% Arabic; all others report less than 1%.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:
• Facilitated logistics for Michigan Department of Agriculture and Rural Development food establishment inspectors to meet at the

local Emergency Operations Center and provide for water test kits for their use.
• Facilitated logistics for bottle delivery and water test kit assembly.
• Coordination with ZeroWater, the Joint Information Center, State Emergency Operations Center staff and Michigan 2-1-1 for clarification for on Total Dissolved Solids meters.
• Coordinated sampling plan with local Emergency Operations Center and DEQ Drinking Water Laboratory for donated drinking water testing.
• Provided write up for definition of NSF/ANSI 53 certification and process to Operations Section Chief and Planning Section.

Human Services (MDHS)

Assist Logistics on obtaining model numbers and additional information regarding the Zero brand 23 cup and 8 cup water pitchers.
Zero 23 cup pitcher-- Model #ZD-018
Zero 8 cup pitcher-- Model #ZD-013D

Completed the delivery of two cell phones for MCSC to assist with their donation management processes.

Identified 2 conference rooms at Flint Stat Office Building for FEMA to use if they wish.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team.

The final two bubblers arrived at a Flint area Home Depot. They were picked up by LARA staff and successfully installed at the Freeman School today (1/19/16). LARA will now coordinate with DEQ to conduct water re-testing at Freeman Elementary.

LARA is continuing to work with DEQ to establish a schedule, for the next several weekends, to complete school water testing.

LARA / MIOSHA communicating with DEQ on possible use of MIOSHA lab and staffing.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT IN USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

We had police agency teams that were deployed today with 11 Red Cross teams. 2770 homes have been visited today.

National Guard members will be at the Warehouse at 0830 on 1/20/16. Contact was made with Lt. Dehner with the request to have patrol cars with troopers or deputies report to the Warehouse at 4315 N. Clio Road, Flint, at 0830 on 1/26/16.

Lt. Dehner has been advised that the SEOC is considering changing the hours of operation for the Water Resource Teams to 1000-1800 beginning on 1/21/16. Working with the recovery branch to coordinate logistics for this adjustment.

**MSP-SEOC-MDSP has submitted a MiCIMS resource request to GIS for this. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies for volunteers to distribute to city residents.
Provided armed security for Clio Rd. warehouse.
Providing server monitoring of MiCIMS servers.
Provided wireless router and printer for FEMA staff at SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse.
Procured hand warmers for Water Response Teams.
Provided 2 cell phones to DHHS Michigan Community Service Commission to your for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirecTV in the Flint State Office Building for the Joint Information Center.
Met with FEMA Logistics Chief to identify office space in Flint State Office Building. Waiting on confirmation from FEMA.
Provided 13 passenger vans for transporting Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

MDOT deployed 12 drivers to assist with door-to-door distribution for Tuesday, 1/19.

Subject:	SEOC Update 1/20/16 - Flint Water - Limited Distribution
Attachments:	SitRep15.pdf

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard (MSP supported), type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.

- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional person NG team for warehouse support approved.
- Information reported to the JIC:

  - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

    1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
       a. Number of cases of water 90,337
       b. Filters 73,229
       c. Filter cartridges 185,852
       d. Test kits 19,866

    3. Total number of customers on the Flint water system
       a. 29,944 paying customers
       b. 45,000 hookups (This is our high end target #)
       c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
       a. Cases of water 111,630 (additional 18,502 donated)
       b. Filters 115,700
       c. Filter cartridges 243,200
       d. Test kits 61,161

    5. Teams going out tomorrow:
       a. National Guard type 3 teams---Goal tomorrow 300 homes per team
       b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.

- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams (, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:
  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed ! state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200

d. Test kits 61,161

5. Teams going out tomorrow:
   a. State (;) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:
    - <u>As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 27,195
        b. Filters 50,432
        c. Filter cartridges 168,605
        d. Test kits 4,861

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. Test kits 28,901

    5. Teams going out tomorrow:
        a. State I ype 3 teams---Goal tomorrow 300 homes per team
        b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State (:ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed

- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:,
    a. State (;) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.

        - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

<u>Attached Documents:</u>
- SitRep 7
- Executive Order Activating the National Guard

<u>Key items for tomorrow to note are:</u>
- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support

- The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

<u>Update 1/11/16</u>

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

<u>Attached Documents:</u>
- SitRep 6

<u>Key items for tomorrow to note are:</u>
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities

to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.

- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice *(Staffing is in place until Saturday). ARC is staffing these locations.*
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>
Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

<u>MSP/EMHSD GIS Section Updates</u>

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

<u>Local Emergency Operations Center</u>

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

<u>Update 1/8/16</u>

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

  - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
  - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
  - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur

early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies

- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.

- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	15
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/20/2016 08:00:00
SEOC Hours of Operation End:	01/20/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 20):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA/DHHS on filter tracking status/strategy.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide food bank delivery resources.
o Continuing inventory monitoring and hot shots tracking.
o Projecting future orders of water resources and commodities.
o Worked with MDARD for approval to move their food establishment water testing/staging/sampling to Flint water plant from DHHS facility.
o Worked with JIC and Governors office to establish a business resource submission tab on www.helpforflint.com

- JIC
o News release sent from Governor's office about the appeal to the President of the disaster declaration.
o SEOC media advisory sent about additional National Guard presence.
o Congressional call was held today at 1430.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Thursday and Friday.
o Confirmed team typing for Flint Water Resource Teams.
o Data is for 1/20/16 as of 5:00 pm:
o Total homes visited.
- 29,317 (total).
- 3,395 (today).
o Door Hangers.
- 11,333 (total).
- 1,482 (today).
o Water Cases.
- 7,162 (total).
- 1,059 (today).
o Replacement Cartridges.
- 4,084 (total).
- 289 (today).
o Faucet Filters.
- 8,467 (total).
- 1,073 (today).

- Planning Section.
o Published Sit Rep #15.
o Incorporated outstanding data from Red Cross, warehouse, and hotshots into daily total.
o Worked with the Red Cross to get them online version of data reporting.
o Participated in daily SEOC briefings and distribution process conference call.

- Operations Section
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop and finalize Phase 2 canvassing roll out.
o Held logistics meeting in reference to National Guard deployment.

o Warehouse Numbers as of 1800 (new inventory system in place at 0800):
- Water (cases).
- 49,716.
- Filters (faucet).
- 35,505.

❑ Replacement cartridges.
• 141,562.
❑ Filters (pitcher).
• 0.
❑ Test Kits.
• 744.

o PODs (1700 1/19 – 1600 1/20)
❑ Water (cases)
• 9598.
❑ Filters (faucet)
• 1566.
❑ Replacement Cartridges
• 555.
❑ Filters (pitcher)
• 14.
❑ Test kits
• 857.

• Finance Section.
o Provided information requested from Donations Management regarding the treatment of donations made to the donor – tax receipts.
o Conference call with DEQ and DTMB to discuss items procured for the City of Flint.
o Request financial information from MDOC and MDHHS.
o Continued to work on and revise the spend plan for the incident.
• GIS Branch Updates.
• Revamped daily planning maps for Field Teams to refine operational areas and begin preparations for phase II team deployments.
• Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
• Configured an interface with AGOL to allow MDARD to live update food and water establishment statuses as it relates to the incident.
• Coordinated with Flint City GIS to gather total counts for buildings and units per parcel.
• Built a data entry tool and deployed to the documentation unit for paper forms from field teams.
• Met with FEMA GIS Coordinator, Scott Bailey. He will be granted access to the GIS viewers to prepare maps for federal partners.
• Built plan to revamp dashboards used in SEOC to accommodate large volumes of traffic and ensure stability.
• Received task for updating app for Phase II of team deployments.
• Fixed accounts for iPad's that were failing in the field and brought them back online.
• Coordination continued with U of M Flint.

DTMB:
• Process additional resource requests for warehouse commodities, workspace for FEMA in Flint, space for water samples.
• Working on securing space in the flint office building for FEMA staff.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Dr. Nicole Lurie from HHS ASPR was in Flint this afternoon and will be at the CHECC and SEOC tomorrow.
• Volunteer Reception Center was highlighted on the MI Volunteer Registry page.
• Conference call held with the CHECC, SAMHSA, and local HD on DBH hotline.

DEQ
• Bottles for test kits delivered today and transferred to ARC for assembly.
• Issue with TDS meter being resolved and bottled water has been tested to confirm there is no lead in water.

MDOE
• The State of Michigan operated School of the Blind water tested 28 ppb for lead.
o The DOE has installed filters and has distributed bottled water.
o The DOE is working to replace fixtures in the facility.

Local EOC Update:
• Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
• Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
• Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
• Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
• Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Developed SitRep #10.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Emergency Declarations

Local Declarations

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 20.

State agencies at the JIC included the Governor's Office, Michigan State Police, and Departments of Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Insurance and Financial Services, Agriculture and Rural Development, Military and Veterans Affairs, and Michigan Community Service Commission. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Issued a news release with updated water resource activity at 8:30 a.m.
• Issued media advisory and news release at 11 a.m. about the Michigan National Guard's increase in support and change in mission.
• Held a media availability as National Guard members began going door-to-door. NBC 25, ABC 12, and WOOD 8 attended.
• Drafted talking points for Captain Kelenske for the 2:30 p.m. Congressional/Legislative briefing conference call.
• Created media monitoring report and looked for misinformation, especially about donations as we had heard there was incorrect information being reported. No misinformation was found.
• Media hotline staff answered over 20 emails and phone calls. Received three calls from individuals offering products or services.
• Drafted guidelines for water donation drives.
• Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, LARA, and MDHHS.
• Asked MDCR PIO to determine if messaging is needed regarding concerns from undocumented citizens; this was an issue raised by MDCR in morning SEOC briefing. They are reviewing it internally and will contact the JIC if messaging is needed.
• Governor's Communications Office issued a news release at 2:30 p.m. regarding the federal disaster appeal letter.
• JIC is planning to issue the nightly activity news release around 6 p.m., and will include the activity map if previous issues are sorted out.
• MSP F/Lt. Dave Kaiser will do an in-studio interview with NBC 25 tonight to share tonight's activity news release. It is expected to *air during 11 p.m. newscast and again during tomorrow's morning newscast.*
• For situational awareness only – The JIC was made aware that Sanjay Goupta of CNN will be conducting an interview tomorrow with Dr. Mona Hanna-Attisha at the Flint Farmers Market. We are not coordinating this interview and we are unsure of the time.

Agriculture and Rural Development (MDARD)

Wednesday, Jan. 20, provided Recovery Branch Director (Brianna Briggs at EMHSD) background on possible state and federal programs related to supporting the food and agriculture system and nutrition to assist with long term recovery.

MDARD staff has been working with GIS to develop a map overlay of the restaurants in the Flint area with a list received from Genesee County.

Per MDARD Ops Chief we have asked to move water sample staging location because current location does not offer security for supplies. Requesting same location as the sample drop off location (Flint Water Plant, 4500 N Dort Hwy, 48505 (810) 787-6538)

The FDA Detroit District Office Emergency Management Coordinator Lisa Joseph has contacted MDARD asking for whatever materials, flyers, etc. that have been sent out to day care providers/schools regarding preparing food safely and mixing formula for infants. Spoke with DHHS, Education, and LARA reps. and provided the referral websites included on a draft flyer being prepared for distribution.

MDARD Veterinarian Dr. Schalow is updating the veterinary spreadsheet to include all (as many as we can find) veterinary clinics in Genesee County. She will call additional clinics to update them on AID activities and provide basic information about the Flint water situation and resources for filters and water testing. So far, we have determined only one veterinary clinic on Flint water (Eascor Animal Hospital). Dr. Schalow also contacted Genesee County Animal Control Officer Paul Wallace for an update. Per Dr. Schalow, "Director Wallace states that, to the best of his knowledge there are no doggy daycares, dog parks, pet shops, kennel licensees, animal shelters, or animal rescues in the City of Flint (that would be on Flint water) so he is not conducting any activities at this time."

Livestock – to date we have found no livestock in Flint.

Discussion with LARA SEOC rep regarding locations for MDARD Sample Collection and questions being asked to establishments

Talked with MDEQ SEOC rep regarding disposal of any bottled water that would require disposal if it tests positive for lead.

Spoke with Michelle Kuzera working from the Genesee County EOC asking if MDARD was going to provide something to the restaurants to display after they have been assessed by MDARD. Spoke to Sandra Walker MDARD Food & Dairy Division. She indicated they have been in discussions with Genesee County Health Department to develop a list or something like that to be posted on the Flint water website to indicate those restaurants that have been assessed and found in licensing compliance. Still working on the issue of providing them something that declares them "safe." Shared that back with Michelle at Genesee County EOC.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits today at ARC headquarters.
We deployed and supported 11 teams for neighborhood canvassing (Water Response).
We supplied lunches for all of the Water Response Teams today, and will feed all of the teams again tomorrow.
The volunteer reception center (VRC) was in full operation Wednesday. 69 volunteers were processed today. The VRC will be in operation on Thursday.
We continued to support the warehouse efforts.
A total of 75 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events.

Community Health (MDCH)

The CHECC remains activated at level 2, and communications have been maintained between the SEOC and CHECC.

Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response, US DHHS has arrived in MI and is meeting with the Governor this afternoon. Dr. Lurie will be meeting with the MDHHS Director, Nick Lyon; MDHHS Chief Medical Executive, Dr. Eden Wells, and other MDHHS leaders tomorrow morning. She will then meet with the CHECC and will follow with a briefing at the SEOC by Captain Kelenske. Following the SEOC briefing, she will be escorted to Flint. It is anticipated that she will provide some local one on one media interviews as she tours various sites in Flint.

Additional Federal partners have also arrived in MI, including Anthony Voirin, the Region V ASPR representative for MI; CDC representatives from the Agency for Toxic Substances and Disease Registry (ATSDR) and National Center for Environmental Health (NCEH).

The National Disaster Distress Helpline has been activated to support the Disaster Behavioral Health response. A phone conference was conducted today to connect Genesee County Community Mental Health with the helpline.

The CHECC continues to operate a phone bank to answer questions related to lead or legionella referred from 2-1-1. This is in response to a request from Genesee County Health Department.

Addresses for individuals who are dependent on medical equipment in the home, were provided to the SEOC GIS section to ensure that all of the at-risk individuals in this population have received the resources that are being provided by the Flint Water Response Teams in the door to door campaign.

Corrections (MDOC)

Good Evening All,

The efforts continue to ramp up, we are carrying all of our current resources forward through Sunday, January 24, 2016 at 1700 hours.

If you have been extended through Tuesday, January 26, 2016 please continue to provide requested resources through that date. Additionally, we have added an SAI prisoner work crew to the efforts. I will contact all of the stakeholders tomorrow and confirm resources for the upcoming weekend.

The National Guard have multiplied the force in this effort and will increase our ability to carry the mission forward.

Please do not share this information outside of our department. Thank you again for all of your help and efforts, you are making a difference!

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

(23) - MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

(24) - MDOC employees

(7) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability (

If you have any questions regarding this evenings report, please contact Mike Farmer at 517-614-6902.

Mike Farmer on duty at the SEOC today.

OPERATIONAL PERIOD UPDATE: The new operational period is extended through Tuesday, January 26, 2016 at 0800 hours.

All Requests for vehicles, personnel and warehouse equipment have been filled and continue to be on site to assist with water distribution. Director Washington is providing full support to our assistance efforts.

We will continue to staff the SEOC as a full-time partner as we have assets deployed into the field. All resources are documented on the appropriate forms and shared with the SEOC staff. Additional resource requests are coming in frequently and we are working hard to locate the requested resources while still maintaining minimal local facility operational requirements from the providing facility.

The MDOC is dedicating a considerable amount of resources and staff to this effort. We are working closely with the Logistics Chief to locate needed resources and fulfill resource requests in a timely manner. All MDOC resources have reported today, Wednesday, *January 20, 2016 as requested.*

We are building up additional resources for Thursday, January, 21, 2016. Additional vans will be needed for Water Resource Teams. We are working with DTMB to secure additional Fleet vehicles as well as reach out to facilities and parole/probation offices.

The MDOC has the following resources dedicated to the Flint Water Response Team on Wednesday, January 20, 2016:

(23) - MDOC employees

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

2 – 6 passenger vans

1- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

(24) - MDOC employees

(7) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Stevens Hall, a residential dormitory for the Michigan School for the Deaf, showed a level of 28 parts per billion in a water analysis. Limit is 15 parts per billion. The dormitory is a leased facility. Water testing results were reported to the administration on 1/19/16. . Test result is in MiCIMS.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

• Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

• Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.

• Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.

• Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.

• Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

Human Services (MDHS)

Had conference call with local MDHHS Director for Genesee Co. Genesee Co MDHHS is taking a targeted approach for their foster care and adult foster care homes. They are calling every single one, inquiring if they have water and filter, then following up with an actual home visit to verify. All this gets documented in the case file.

Arranged for inventory to be taken between GCCARD and warehouse.
Provided donated goods resource contact info to several requesters.
Confirmed single point of contact back to 211 with information requests from them.
Updated resource request for pitchers.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Freeman School testing will occur this weekend with DEQ and LARA staff. Additional mapping at schools has continued with scheduling of facilities.

LARA Bureau of Community and Health Services has completed surveys for Child Care, Adult Foster Care, and Health facilities. Verification of responses by GIS is ongoing. Assessment of needs will begin.

Executive Team participated in various meetings regarding funding and has been updated.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed 33 Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers In-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. *Relieve Red Cross at PODS, assuming their role of distributing* filters. Total of 7 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of *homebound, frail, or otherwise at-risk seniors living in Flint.* AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

MSP and GCSD supported National Guard staffed teams that were out today and there were 10 Red Cross teams. 3,372 homes were visited today.

A request has been submitted to logistics for 200 newspaper delivery bags to assist the water response teams in carrying packages.

Lt. Dehner has requested to get the target maps for the next day before 6:00 pm each day. This will give the field team leadership time to get the maps printed and coordinated and make assignments. This request has been submitted to GIS for action.

Water Resource Teams hours of operations will change to 1000-1800 beginning on 1/21/16.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Five (5) drivers on are available on Wednesday, January 20, six (6) drivers on Thursday, January 21 & Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
91 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers.
Four temporary fuel cards were provided to the MSP officers driving rented U-Haul trucks obtained to assist water response teams.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers hand warmers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies on water related material as needed.
Providing server monitoring of MiCIMS servers.
Wireless router and printer was provided for FEMA staff at the SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse as well as an armed security officer.
Provided 2 cell phones to DHHS Michigan Community Service Commission for donation management.
Contacted Penske Truck Rental and acquired 23 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirectTV in the Flint State Office Building for the Joint Information Center.
Working to set up 3 rooms in the Flint State Office Building for FEMA to use.
Provided 13 passenger vans to assist with transporting of Water Response Teams.

Transportation (MDOT)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval -- "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be *huge if we land this.*

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard/state/local agency, type 3 teams), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- *Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and* Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. *VAAA is providing this information to the local EOC each afternoon for follow-up.*
- Information reported to the JIC:

  - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700

c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
   a. National Guard type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 95,760 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a.) National Guard (ype 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.

- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams (, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the

companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 6 State) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.

- Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.

- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed __ state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system

a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. State) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.

- We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
- We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. State (type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.

- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 18,576
        b. Filters 45,916
        c. Filter cartridges 165,382
        d. Test kits 3,217

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 44,688 (additional 12,884 donated)
        b. Filters 78,520
        c. Filter cartridges 163,081
        d. Test kits 18,761

    5. Teams going out tomorrow:
        a. State type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.

- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256

Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)

        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

<u>Update 1/10/16</u>

<u>Attached Documents:</u>

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"<u>nature catastrophe</u> (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to <u>supplement</u> State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is <u>beyond the capability the state and affected local governments,</u> and that the state requires <u>supplementary</u> federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters

        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving

them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to

these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department

- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination,**

command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.

- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Chris

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:13 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY."

D-R-A-F-T

Flint Water Operations Plan

Phase 1 – Initial distribution

- Canvassing teams initiated by sheriff; fleshed out by MSP, ARC, NG, and volunteers.
- Goal – Touch every residence with water, filters, filter cartridges, and test kits to demonstrate we have attempted to supply all residences with potable water.
- Canvassing based on geographic areas.
- Points of Distribution (PODS) established at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits; initially ARC staffed, then replaced by NG.
- 2-1-1 used to address all questions and serve as POC for all special needs requests (hot shots).
- Phase 1 "complete" the morning of January 21 based on feedback from local EOC.

Phase 2 – Saturation

- A second round of canvassing teams begins January 21 using NG (MSP/Sheriff Dept over watch) and ARC personnel augmented by volunteers as judged appropriate.
- Goal – Re-touch every residence with water, filters, filter cartridges, and test kits to demonstrate we made every effort to supply all residences with potable water
- Canvassing based on geographic areas.
- Points of Distribution (PODS) staffed by NG continue at 5 Flint fire stations to distribute water, filters, filter cartridges, and test kits.
- 2-1-1 addressing all questions and serve as POC for all special needs requests (hot shots).
- Phase 2 "completion" planned for COB January 24; any remainder to be addressed by ARC teams/Hot shots.

Phase 3 – Transition

- Goal – Move from manual distribution mechanism to less labor intensive processes.
- Develop messaging for implementation of this phase and transition to next phase (phase out of distribution of water, filters, cartridges, and test kits noting PODS to cease operation on January 31).
- Identify new water only distribution sites operated by faith-based or other volunteer groups.
- Determine and implement best methodology for long-term distribution of filters and filter cartridges.
- Phase 3 complete with close of PODS COB January 31.

Phase 4 – Long Term Support

- Goal – Establish long-term, workable processes to sustain provision of potable water to residents.
- Develop messaging for implementation of this phase and transition to next phase.
- Water distribution by the city or faith-based/other volunteer groups.
- Establish long-term filter distribution process using USPS, vouchers, or other measureable program.

Phase 5 – Normal Operations

- Goal – Resume normal operations.
- Develop messaging for implementation of this phase and transition to next phase.
- Analysis complete, solutions implemented and public trust in Flint water reestablished.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	16
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/21/2016 08:00:00
SEOC Hours of Operation End:	01/21/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 21):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics
o Worked with FEMA/DHHS on warehouse tracking status/strategy.
o Coordinated resources and needs with donations management.
o Coordinated additional resources and tasks for new weekend volunteers (500 each day).
o Working with Red Cross to provide food bank delivery resources.
o Ordering and projecting future orders of water resources and commodities.
o Working on local business commodity supply plan.
o Coordinated filter/cartridge donation list.
o Worked with MDTMB for more iPads, more vests, and more door hangers for weekend volunteer surge.
o Worked with the JIC and GOV to establish a business resource submission tab on www.helpforflint.com
o Worked with MDOT to resolve safety issues at PODs

- JIC
o Media requests today concerning where the state is with its mission to provide water filters and resources to citizens.
o JIC messaging will be that we have geographically covered the entire city once and are working to double back and make contact with all missed residents.

- Recovery Branch
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday
o Confirmed team typing for Flint Water Resource Teams

o Data is for 1/21/16 as of 5:00 pm:
o Total homes visited.
- 36,179 (total).
- 5,409 (today).
o Water Cases.
- 105,091 (total).
- 10,403 (today).
o Replacement Cartridges.
- 189,428 (total).
- 1,039 (today).
o Faucet Filters.
- 79,571 (total).
- 2,356 (today).

- Planning Section.
o Published Sit Rep # 16.
o Worked with GIS to roll out updated map, created coordinated revised script for field teams.
o Participated in daily SEOC briefings and distribution process conference call.
o Participated in development of phase strategy roll out.

- Operations Section.
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop phased canvassing roll out.
o Request put in for MDOT to address traffic issues at POD Fire Station's #6 and #3.

o Warehouse Numbers as of 1800:
- Water (cases).
- 94,500.
- Filters (faucet).

• 34,284.
❑ Replacement cartridges.
• 141,562.
❑ Filters (pitcher).
• 0.
❑ Test Kits.
• 0.

o PODs (1700 1/20 – 1600 1/21)
❑ Water (cases).
• 10,978.
❑ Filters (faucet).
• 1,153.
❑ Replacement Cartridges.
• 445.
❑ Filters (pitcher).
• 0.
❑ Test kits.
• 801.

• Finance Section.
o Working with state agencies and local EM to obtain category B costs incurred since April 25, 2014.
o Continuing to compile costs incurred by state agencies for all activities related to event since activation.
o Meet with FEMA Public Assistance staff to discuss current status.
o Work on reference document for state agency financial staff for reporting of related incident costs.

• GIS Branch Updates.
• Updated the Field Team Support maps to develop grid system.
• Provided updated map of vulnerable populations for the MDCH.
• Provided list of vulnerable individuals to local EOC through local EOC situation unit leader.
• Released V3 of the field data collection app with new form data for second round of home visits.
• Updated Flint Water Response Team activity map for distribution by the JIC.
• Provided data for the Recovery Branch on the Field Teams Activity.
• Cross referenced health facilities and adult foster care to identify facilities in the affected area.
• Provided list of franchise customers beyond City of Flint limits to Public Safety Branch.
• MSHDA was provided a map of active water subscribers in the area.
• Provided updated lead data to U of M Flint and coordinated with FEMA GIS to complete lead service line mapping.
• Updated operational dashboard for field team activity (still need to provide updated dashboard for PODS).
• FEMA Logistics recommended inventory management be integrated into the dashboards and GIS web-developers are actively researching a strategy to accomplish this.

DTMB:
• Process additional resource requests for warehouse commodities, supplies for volunteer teams for the weekend, and space for water samples.
• Provided FEMA staff with access cards, office space, and parking for Flint office building.
• Additional vehicles being delivered to support the canvassing effort.

DHHS-CH
• Dr. Nicole Lurie from HHS was at the CHECC and SEOC today to explain the US DHHS transition.
• Disaster distress helpline is up and running this afternoon, messaging will be going out through JIC.
• Worked with GIS to map the medically dependent persons.
• Conference call held with the CHECC, SAMHSA, and local HD on DBH.

DEQ
• Working to increase staffing levels at the DEQ testing lab to process samples more efficiently.
• Working on increasing resources for testing kits.

Local EOC Update:
• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
• Developed SitRep #10.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Emergency Declarations

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 21.

State agencies at the JIC included the Governor's Office, Michigan State Police, Michigan Economic Development Corporation, Michigan Community Service Commission and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, Military and Veterans Affairs, and Treasury. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Finalized an Official Statement about testing bottled water for lead. Recently, there were concerns raised about the possibility of lead being in the bottled water that is being given to residents of Flint. The statement was provided to ABC12 who contacted the JIC and also to 211 to use when asked.
• Created a media monitoring report and looked for misinformation. Called to request a correction to a Detroit Free Press headline that included WRTs were completing their work; headline was amended to indicate the mission is ongoing. Several media calls on this topic were received and answered today.
• Added the following content to www.michigan.gov/flintwater: link to www.helpforflint.com; water donation drive guidelines; Disaster Distress Helpline; and photos from National Guard door-to-door teams.
• Media hotline staff answered over 30 emails and phone calls.
• Updated internal and general talking points about the ongoing Flint water emergency.
• Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, and MDHHS.
• JIC is planning to issue the nightly activity news release with water activity map around 6 p.m.
• MSP F/Lt. Dave Kaiser is scheduled for in-studio interview with ABC 12 tonight to share tonight's activity news release. It is expected to air during 11 p.m. newscast and again during tomorrow's morning newscast.
• MSP Sgt. Bruce Payne assisted the Detroit Free Press and Fox 2 Detroit in obtaining B-roll of the water response teams. F/Lt. Kaiser did a standup with WXYZ about water response team progress.

Agriculture and Rural Development (MDARD)

Thursday, Jan. 21 - MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and we have scheduled 28 appointments to collect water samples.

Additional activities today: 1) completed Resource Request for MDARD to send two laboratory personnel to help out at the MDEQ Laboratory. 2). working on inquiry that came through OPS regarding messages for what to do if you have pets. Existing documents on the flintwater website contain guidance; we are evaluating need for a stand alone document.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits today at ARC headquarters. More than 10,000 water test kits were assembled over the last 2 days.
We deployed and supported 11 teams for neighborhood canvassing (Water Response). We expect to field 15 teams on Friday.
We supplied lunches for all of the event-based volunteers.
The volunteer reception center (VRC) was in full operation Thursday. 59 volunteers were processed today. The VRC will be in operation on Friday from 9am to 4pm.
We continued to provide warehouse and inventory management.
A total of 93 Red Cross volunteers were active on this operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Also monitoring media and coverage of rallies and events. Have briefed senior leadership and are working to assist JIC with messaging/engagement in underserved communities.

Community Health (MDCH)

The CHECC remains activated at Level 2, and communications have been maintained between the SEOC and CHECC.

RADM Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

Held a conference call this morning with SAMHSA and the local Community Mental Health agency to discuss coordination. Technical assistance from SAMSHA was offered to CMH if requested. The National Disaster Distress Hotline is operational and listed on the Flint Water website.

Addresses for medically dependent individuals was provided to GIS and maps were produced indicating whether or not they have been reached by the Water Response Teams. Additional information from logistics is necessary to determine whether these individuals were contacted by the "hot shot" operations for special requests to receive assets.

Contacted the GCHD regarding the status of reaching-out to restaurants in the affected area. Coordination was discussed with MDARD as to the plan or process for ensuring that restaurants receive the resources that they may potentially need (i.e. filters, filter cartridges, etc.). Additional coordination and planning is necessary. GCHD Emergency Preparedness Coordinator provided a point of contact from their Environmental Health Division for MDARD to reach out to.

Corrections (MDOC)

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Thursday, January 21, 2016:

(26) - MDOC employees

(6) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

The MDOC has scheduled the following resources to be dedicated to the Flint Water Response Team on Friday, January 22, 2016:

(25) - MDOC employees

(6) - MDOC SAI prisoners

(3) - 15 passenger vans

(2) - 12 passenger vans

(4) – 10 passenger vans

(1) – 8 passenger van

(2) – 6 passenger vans

(1)- Regular Cab Pickup

(1) – F-250 Pickup

(5) – Box Trucks

(1) – 20 Person Shuttle Bus (Sent to Red Cross Volunteer Sight)

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

All vehicles drivers have 800 MHz Radio Operability

You will be receiving updated information as we progress with the operation.

Please feel free to contact Brent Travelbee, Mike Farmer or Todd Bechler with specific questions or concerns regarding SEOC operations.

Education (MDE)

MDE is monitoring the situation and coordinating as necessary with other state agencies.

Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

The State Superintendent sent notice to school districts, public school academies, and non-public schools on donation and volunteer opportunities related to the Flint water crises.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

• Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

• Commercial drinking water samples related to the total dissolved solids meter concern were analyzed with a non-detect result for Lead and Copper. We transmitted results to Joint Information Center and Genesee County Emergency Operations Center.

• Conducted conference call with MDEQ, Department of Technology, Management and Budget, and Emergency Management and Homeland Security Division (EMHSD) finance and discussed documentation needed, and develop more efficient ordering process for laboratory supplies.

• Coordinated plan for pickup of samples by the Department of Corrections at Points of Distribution, City Hall and Water Treatment Plant and delivery to the DEQ Lab. This plan will commence tomorrow, January 21.

• Requested updated sample results from DEQ lab for plotting on map by EMHSD Geographic Information System staff.

Human Services (MDHS)

Completed a request that was transferred to us from DTMB to secure a conference room on 2nd floor of Flint State Office building to be used by the JIC on Friday, January 22nd from 13:00-15:00. Point of Contact will be Ms. Mel Brown from the JIC.

Made contact with the MDHHS Points of Distribution sites for status on their inventory of supplies. Confirmed their plan to replenish their supplies.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

LARA has provided 2 MIOSHA employee's to help DEQ with laboratory analysis of incoming water samples.

Freeman School testing will occur this weekend with DEQ and LARA staff. Additional mapping at schools has continued with scheduling of facilities.

LARA Bureau of Community and Health Services has completed surveys for Child Care, Adult Foster Care, and Health facilities. Verification of responses by GIS has been completed. Assessment of needs will begin.

LARA Executive Team has been updated.

Military and Veterans Affairs (DMVA)

Last 24 hours:
Distributed water, water filters, water test kits and collected water samples for analysis at five points of distribution. Coordinated efforts with Genesee County EOC and Joint Information Center. In-Processed Soldiers to augment distribution operations at 1800 S. outer Dirve, Saginaw, MI on 17 January 2016 at 1300. Conducted lodging and operations orientation following in-processing. Total of 67 Soldiers on State Active Duty on 17 January 2016. All PODS received pallet jacks for off-loading water pallets. Coordination between FEMA and Selfridge Air Base (SANGB) taking place. Exact terms of agreement of FEMA using SANGB for staging operations have not been identified at this time.

Total of Soldiers on State Active Duty:
at Genesee County EOC
at Joint Information Center
at PODS
Soldiers in-processing

Next 48 hours:
Distribute water, water filters, and water test kits and collect water samples for analysis at five points of distribution. Coordinate efforts with Genesee County EOC and Joint Information Center. Relieve Red Cross at PODS, assuming their role of distributing filters. Total of 67 Soldiers on State Active Duty on 17 January 2016. Additional Soldiers will conduct first full day of distribution operation on 18 January 2016. Continue coordination between FEMA and SANGB, a 0800 meeting will be conducted on 18JAN16.

Micheal Shook
CPT, IN, USA

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac. Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Hand off to NWS Detroit for morning conference call weather forecast in progress. Estimated date when NWS Detroit will begin morning SEOC briefings and MICIMS posts is Tuesday, January 26.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

As of Friday, January 15th, VAAA and MDHHS-Adult Protective Services (APS) has provided AASA with over 2,000 addresses of homebound, frail, or otherwise at-risk seniors living in Flint. AASA has in turn forward these addresses to MSP-GIS to overlay their heat map and for local follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

Prior to the State Declaration of Emergency, Valley Area Agency on Aging - Region 5 (VAAA), in partnership with other local community agencies such as the GCARD, Genesee County Health Department and MDHHS, participated in the local ad-hoc response by helping organize local meetings and distributed water and water filters to VAAA Home Delivered Meal recipients. VAAA was also an I&A access point for receiving calls from homebound seniors who are not able to pick up water filters or needed assistance installing water filters. VAAA referred seniors needing filters to GCARD for follow-up. Because VAAA is a known and trusted local resource for older adults in Genesee County, they continues to receive calls from seniors needing access to water and filters.

State Police (MSP)

MSP and GCSD supported 18 National Guard staffed teams that were out today and there were 10 Red Cross teams. 6353 homes were visited today.

The MSP/National Guard teams are not currently tooled to conduct on-demand services and are singularly focused on reaching all areas of the City of Flint with our Water Response Team assets for phase 2 operations by Sunday, January 24th.

The Genesee County Emergency Manager is able to intake all on-demand requests and forward them to the appropriate personnel for response.
Chris DeVriendt
Genesee County Emergency Management
cdevriendt@co.genesee.mi.us
810-627-8893

Further, we are not currently equipped to take in volunteers to work on our teams. All volunteers should be directed to the American Red Cross.

MSP SEOC staff submitted a request to logistics for asking for MING to provide cyber trained personnel to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters beginning on 1/21/16 for 30 days with possibility of extension, or until mission complete. Mission is to coordinate, advise, and assist with cyber defense efforts related to the Flint water crisis.

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Six (6) drivers on Friday, January 22 and three (3) drivers on Saturday, January 23.

DTMB assisted in procuring 72 truck loads of water, 8 trucks per day until Wednesday, January 20.
121 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
Provided 650 credentialing badges for volunteers.
Four temporary fuel cards were provided to the MSP officers driving rented U-Haul trucks obtained to assist water response teams.
Warehouse space was procured for 80,000 square feet to hold water, water filters, cartridges and water test kits.
Procured 500 rain ponchos for volunteers hand warmers and a 40 yard dumpster for use at the warehouse.
Providing printing needs for agencies on water related material as needed.
Providing server monitoring of MiCIMS servers.
Wireless router and printer was provided for FEMA staff at the SEOC.
Acquired a Verizon Wireless booster for the Clio Road warehouse as well as an armed security officer.
Provided 2 cell phones to DHHS Michigan Community Service Commission for donation management.

Contacted Penske Truck Rental and acquired 30 donated trucks for use through Friday for water response teams.
Provided 2 portable bathrooms for use at the Clio warehouse.
Coordinated installation of DirectTV in the Flint State Office Building for the Joint Information Center.
Working to set up 3 rooms in the Flint State Office Building for FEMA to use.
Provided 13 passenger vans to assist with transporting of Water Response Teams.
Procured 200 safety vests for water response teams.
Provided office space and parking to FEMA staff on the Flint State Office Building 5th Floor.
Provided 10 contractor access cards for FEMA staff.

Transportation (MDOT)

MDOT is providing traffic measures at Pierson Rd. Fire Station 6:
-2 portable changeable message boards on eastbound and westbound Pierson Rd.
-50 grabbers traffic cones (narrow reflective cones)

We do have a spare box truck to get that water. We also have a couple drivers that could help as well. I can have them meet you at the location with the truck. We can have them there whenever you need them.

Thanks,
Anthony

Subject: Truck to assist with moving water?

Good Morning,

Today is looking like it may be a slow day for rapid response requests. Lt Roach and myself were thinking we could organize an operation using a DTMB or DOC box truck and some red cross volunteers to help remove some water from a location where we temporarily stored it.

Do you know of a time that would be better for us to get a truck to the site?

Thanks,

Jay

Could you please send a truck and at least two people to MMR 3434 South Dort Hwy, Burton, MI. If they could get there around noon today someone will be there to open the doors. There are cases and gallon jugs of water there that we want to get to the warehouse. They can be dropped at the Kroger building if there are people still there assembling pallets.

If there are additional people who need a task they could be used there to help get the water loaded.

Thank you
-Jay

> I believe they said that SBA could use a conference room in the Business Incubator which is part of the Oak Business Center in Flint. I was taking notes so may have some particulars confused. However, I believe I could resolve everything in an hour which would allow SBA to proceed.

If you have no objection I would like to speak with them and setup the BRC with them. Again, I would keep you in the loop. Please advise ASAP.

Thanks...bob

Subject: RE: BRC

Wendy...we are traveling our Business Recovery Center staff to MI today with the hope of opening a BRC tomorrow. I would like to ship supplies and equipment (2 computers, a printer and support material) directly to the BRC facility. Is there a location and could you share with me a facility contact with phone number and email? Also I will need the days and hours of operation. We will work weekdays up to 9 hours a day. Finally, we will need our No Cost Space Agreement signed at some point. I have included one so you know what it looks like. I can fill in the blanks once a location contact is identified or you can. SBA will sign the agreement after I receive a scanned and emailed copy from the Landlord (which for our purposes is the person who can authorize us to use the space for free) or contact. I will email the final copy to the Landlord or contact and the "email version" rather than a paper hard copy is all we require.

If you have not had success with a location, prior to me receiving your direction not "reach out", I had spoken to people in SBDC/Chamber of Commerce. They were aware of you and your counterpart in Flint so understand the nature of a disaster response. It seemed they had a possible location. Please let me know if I can explore that option as soon as possible as that might allow us to staff a BRC and open perhaps mid-day tomorrow (soft opening). Also, the sooner a facility is identified the earlier I can provide it to our Public Affairs section so they can issue press information to the public.

Thanks for the help and let me know....bob

Eickholt, Jay (MSP)

From: Eickholt, Jay (MSP)
Sent: Monday, February 08, 2016 4:00 PM
To: MSP-SEOCOPSC
Subject: FW: Flint PODS Evaluation

Flint Community Center PODs:

After visiting and speaking with the directors at both Hasselbring and Brennan Senior Centers directors, the property is owned by the city but is leased by the Senior Centers through a grant from the county. This grant pays for the staffing at the centers and is not to be utilized for anything beyond serving the senior populations.

No personnel were present at Berston Field House, no double exterior doors were present on side streets. Only potential double doors are facing Saginaw St and trucks would have to be perpendicular to traffic, blocking all north bound lanes.

None of the three sites have the capability to receive palletized water; only single doors access the outside.

Hasselbring Community Center parking lot is at capacity for normal operations during the week and adding major traffic for large scale water distribution would not be feasible.

Lt. Roach and Jay Eickholt conclude that the community centers are capable of providing water for their respective populations, but anything beyond that would not be recommended.

Jay,

I'm not sure who is there today, but can you please get someone over to the Kroger warehouse ASAP and identify a space for SBA that works with their criteria? Please see below and attached. If they want to move in on Wednesday, we have to move quickly to get them set up. Thanks so much!

Thank you so much!

Hi Wendy,

We will need space that will allow us to assist Businesses with completing the SBA disaster loan application, so yes business that seek assistance will visit the office. The space should also accommodate 3 Customer Service Representatives (CSR) and allow some degree of privacy between each CSR. We also need space that is convenient to the public and allow easy access for business owners seeking assistance. See attached for a basic layout and requirements of a DLOC. We would like to have office open by Wednesday of this week to provide disaster assistance.

Audrey Binns will coordinate directly with you to establish office.

Good morning Kem,

Tony Katarsky forwarded me your contact information to discuss the office space in Flint you are requesting. I think we may have a location, but I need a better idea of what would be needed and what the space will be used for.

We are opening a 2nd warehouse in an old Kroger store. In the upstairs of this location is empty office space. We were going to put you in here if that works for you? Of course we will have it cleaned and stocked with desks and whatever else is needed. Please let me know what you will need from us to be operational and what date/time you expect to arrive.

Also, because this will be used as a warehouse and maybe at some point a point of distribution, I was wondering if the space was just for your staff, or you were going to have outside businesses meet you there?

Please let me know what you need and what I can do to help.

Hi all

I am not sure who would have this, so I am asking the group. We are trying to understand the decline in water cases being distributed, which can have many reasons, so that we can forecast the future need of bottle water. One of the questions is whether people are using the city water more. Is there a contact person with the water department or are there new meter readings to see if there is an increase in the citizens using the city water now that there are faucet filters being distributed throughout the city?

Thanks
Sam

INTERNATIONAL ACADEMY OF
PRECISION MEDICINE

To all concerned about Lead Poisoning from Flint, Michigan Water,

Many reports about the effects of Flint's Toxic Water have stated that Lead Poisoning and its effects are irreversible. I want to assure you and your loved ones that Lead Poisoning and the disabilities it causes ARE Treatable AND Reversible. There IS hope.

I am an MD who routinely assists patients and clinicians in understanding how to detoxify lead and other heavy metals from the body. I have seen great successes in my patients, including children and adults, and I want to assure that you have some information that enables you and your loved ones to heal from this tragedy.

I created a **free** Video Series for the residents of Flint called "You CAN Heal from Lead Poisoning". These videos will begin to inform you about what you can do, and why you may not be hearing about these options. You can freely access the Videos online at **LeadPoisoning.solutions**.

Please share this life changing information with everyone.

Sincerely,

Charles Gant, MD, PhD

Director of Education and Training
International Academy of Precision Medicine

Hi team,

Can we send someone out to home to test his water- check out the water coming out of his faucet?

Thank you,

Laura Stoken
Manager, Constituent Relations
Executive Office of the Governor, Rick Snyder
517.335.7858

3rd call to the Governor's Office

Disabled, can't drive
Black stuff coming out of faucet
Needs a pitcher filter, regular filter won't attach to his faucet . says:
says he just got water two days ago He thinks it is racial because no white people are getting help His water has NOT been tested

Subject: Pamphlet Pick-up at Genesee County Building

Good Morning Bonnie or Anthony,

We have a pallet of pamphlets for PUR filters here at the county admin building (1101 Beach St) at the loading dock on the south side of the building. Could we get a box truck over here this morning to pick it up? These pamphlets are the ones (two boxes at each drop off) for the PUR drop offs that are getting delivered today. If the timing doesn't work out I will keep for boxes and deliver them tomorrow before the event.

THanks, I'll call in a bit for any Q&A.

Have a great day!

Wendy told me she has the same problem finding them. We were able to borrow one for Warehouse 2 from DOC and the only reason we could is because DOC at the warehouse can operate it. She will talk to Capt tomorrow. She thought the Food Bank received a grant to stand up that warehouse and they said the space was donated. She is working on it and will update you tomorrow. Thanks

Cindy

Following up at the request of Capt. Tafoya on a conversation with Food Bank regarding their additional warehouse across the street and a request the Food Bank has for 2 fork trucks or something equivalent. I don't have any background besides what I've already said and that maybe Wendy was working on this?

Let me know if you know anything and if not Wendy will hopefully know something.

Thanks,
-J

Subject: LE Presence for Home Sampling Teams

Jay,

The request below came into MICIMS from DEQ but hey said BJ was aware of it and thought maybe they wanted to handle it a different way. Can you check and see if that's the case or do you want me to assign the request to MSP?

"Home sampling teams will be begin visiting Flint resident's homes on Wednesday, February 10, 2016 in an attempt to establish sentinel water sampling sites. There are going to be 10 teams of 3-4 people. This is the request for a LE officer to be assigned to each sampling team to provide a safety presence in the immediate area. The LE presence will need to be available for several days until sampling is completed in 200+ homes."

>
> Today is the official roll-out of the AIA Flint Safe Water Storage Guideline Campaign!

Board members will be dropping flyers off at key water resource centers around the city including; City of Flint fire stations 1, 3, 5, 6, & 8; Red Cross; select township fire stations.

News media was notified yesterday via press release of the campaign and the distribution that will begin today. Later this morning, an email will be sent to the AIA Flint membership inviting them to help distribute flyers to their contacts via email and dropping off at any water resource centers they are familiar with.

Remember, the campaign is not just today. So if you cannot participate in helping distribute flyers today, no worries. Feel free to email and drop flyers to anyone in the next week or two.

Please find attached the final single version of the flyer for email and final printable version with two flyers to an 8.5x11 sheet.

Thanks!

Best, Amanda

Hey there- this is an odd one.....

Would you mind having someone look at this one for us OR would someone be able to provide her a water test kit?

Riverview Subdivision, across from McClaren Hospital

When they first turn on water has a strong odor of chlorine Four large breed dogs displaying unexplainable symptoms Vet's name is Farm & Pet Vet Care, Whittemore MI Ph. They have been refused water test kit because they live in the township In their subdivision some people are on township water and some on city She would really like her water tested

Please advise

Good morning Tina and Bill,

I want to thank you again for all of your advice and guidance on the warehouse operational times. It's so helpful! Can you tell me what your hours are? We are just about there in finalizing our plans. Please see the attached plan that we have drafted up. Let me know your thoughts and also edit your hours as well if I have them incorrect. We have room to be open more often as well, but I didn't want to immediately start off with too many hours until we got a feel for how busy we would be.

Tomorrow we are going to be open from 12-6, but we are not publicizing it just yet as we do not have all the equipment and supplies we need to run a warehouse. But we wanted to be open to receive only, just to give you and us a little relief as Saturday's tend to be our busiest times for the loose donations.

Lastly, your trucks have been extended for a couple of weeks. Please keep us posted if you experience any difficulties with them or you no longer need them.

Thanks again for your help.

Hi Wendy,

The Saturday set up sounds great. Mondays and Fridays from 1:00 p.m. to 4:30 p.m. would work for us. Our trucks all leave out in the morning so we have an opportunity to take in trucks really up until 1:00 then in afternoons we have a store pick up program and orders to pull. 4:30 p.m. is when we close you could certainly extend that if you need to.

Let me know what you think.

Thanks

Hello –

I just received a call from the office of State Senator Dale Zorn. The call was from Angela (517-373-3543), stating that the Senator would like to attend the MCCERCC meeting. He has a keen interest in radio communications and the impacts that solar/geomagnetic events can have upon communication systems. The senator is related to the speaker I had lined up for that meeting (Dr. Daniel Welling) – I believe she said that Dr. Welling is the Senator's nephew.

Please share this information *internally* with any who may be involved in making arrangements for the meeting. The information might also be of interest to any of our staff who are weighing their attendance at the MCCERCC meeting against other activities that day.

Thanks very much,

Subject: RE: SEOC EMHSD Staff Schedule week of Feb 8-14.xlsx

There are several issues with staffing here in the Local EOC.

I will not be able to be in the county EOC past normal work hours (would have to leave EOC by 4pm) next week and have to be off Sunday. You may want to get with DEQ on the possibility of one of their IMT members (Scott Scheafer) may be coming back if it is approved, Mark Ducharme was talking about Scott was waiting to hear approval.

Henrik will need a few days off and needs to get caught up on a few outstanding issues in the office. Not sure if there is another DEQ planning person that would be available or EMHSD member that could assist. Henrik hasn't had a full day off since two weeks ago.

Lt. deCastro has prior commitments back home over the weekend, but would be available and willing to come back Monday morning.

Michelle has been busy with the UCG and has not had much time to stop in and visit with the EOC. She has been able to help direct info via email and phone as needed.

Lt. Roach will need to be out again at some time next week. She will be coordinating this.

Unsure if state director position needs to pressure county officials to assign other personnel to the EOC to get the state employees out. Lt. Roland is on active duty with the National Guard till the 18th after that he would be able to assist in the EOC as he works for the sheriff's department.

To: MSP-seoclgc
Subject: Language for Bus Passes

If an individual being visited by a High Lead Homes MDEQ Team would like to get blood lead level testing, but indicates that they cannot or have not done so due to a lack of transportation, a bus pas will be provided.
The plan we discussed this morning for this project is summarized below:

- Each pass would cover 4 trips. The first trip would be to and from a location where the initial test is done. If the test is high, they would need to go back or to another location for an additional test.

- A pass should be provided for each person in residence at the affected location

- A note could be supplied with the pass stating that the resident should only use this pass for blood testing (however, there really is no way to enforce that). The local EOC can provide the language for the note about the passes

- Each team would be supplied with 50 passes

- The initial order for passes would be 200

I have not received any requests for transportation yesterday or yet today.

Thank you – I will connect the pieces!

- The second location is slated to be the Vernon Chapel AME Church, 5802 Dupont St., Flint. I have two contacts there I've reached out to, but we have to confirm some details. I will plug them in when it is 100%. We've also ID'ed the City Hall as a back-up location, should we need it.

Chad

Hi Chad,

Thanks for sharing the community center details! We're connecting with Debra at 4:30 today to discuss logistics. We'll wait to hear from you on the church address. Please see below for answers to your questions.

1. How many filters would you need at each place? The Brennan Center sees around 200-250 people/day. Please send 2 pallets of the faucet mounts and 1 pallet of the replacement filters to each location. Also, can you make sure we have 500 pamphlets at each location as well?

2. The point of contact at each location (this is who would take the filters – I assume the PUR people would want to receipt them. Otherwise, we can work with the location PoC)? Please work with the community center/church to coordinate delivery. If there are any issues you can contact Sharon ( ) or Erin

3. When do you want them (Monday or Tuesday, and at what time)? Please deliver to each location by 4pm on Monday (2/8).

4. And finally, the attached sheet is to track how many are given away at each location. – Thanks! We'll keep track of product distributed at each location.

Let us know if you need anything else.
Thanks!
Ashley

Subject: RE: PUR Volunteering Follow-Up

I am going to group this in to one email. We have the one location confirmed (community center). Lt. Roach has contacted her for the confirmation, I have left a message for follow-up, and you may proceed to call her (see below). I

leave the set-up and fine detail to you and her. Please let me know the exact times we agree upon for the team's activities with the public, as we would like to have the Joint Information Center send out a media release or communications update.

We should have the details for the church today, as well. Lt. Roach has a meeting with them later today if they do not call back before (but it may not be in time for your meeting). When I have that detail I will update you.

- Location 1: Brennan Senior Community Center, 1301 Pingree Ave, Flint. The contact there is Debra: 1
- Location 2: Church ID'ed but not confirmed

I have cc'ed Jay Eickholt, and have even attached a form from him. He works in logistics, and he will arrange the delivery of the filters (we can arrange to bring over some of the handouts, as well). He will need to know:

1. How many filters would you need at each place? The Brennan Center sees around 200-250 people/day.
2. The point of contact at each location (this is who would take the filters – I assume the PUR people would want to receipt them. Otherwise, we can work with the location PoC)?
3. When do you want them (Monday or Tuesday, and at what time)?
4. And finally, the attached sheet is to track how many are given away at each location.

Thank you!
Chad

Subject: RE: PUR Volunteering Follow-Up

Hi Chad,

Just checking in to see if you have the contacts and addresses for the two locations yet. Our teams are hard at work getting prepared for next week and we need to share this info as soon as possible.

Also a few quick follow-ups:

- In addition to the products, can we also have some of the PUR handouts we shipped to the EOC brought to the locations?
- We definitely want to do a quick site check on Monday afternoon/evening so that we are familiar with the space on Tuesday. We will work with the contacts at each location to confirm. Would it be possible to have the product delivered that evening so that we're ready to go on Tuesday morning?

Thanks!
Erin

I just wanted to touch base with you on the two main points we discussed yesterday:

1. Lt. Roach is working with her contacts. We have ID'ed a community center and a church. I will pass along the detail when she has touched base with those two places, and we will have you talk with each point of contact directly to coordinate the logistics with them (at their respective location).

2. I will confirm with our own logistics team to make sure that PUR filters and replacement cartridges will be delivered to the locations.

Also, I have asked DEQ for details (and information sheet) re: the testing kits (and not having the kits on hand themselves).

Thank you,
Chad

Good evening MCCERCC members,

The Monday, February 22, 2016 MCCERCC meeting will be held at 2:00pm. The meeting location will be the Emergency Management and Homeland Security Training Center, 7426 North Canal Rd, Dimondale, MI 48821. (Located behind the Michigan State Police Training Academy building, call 517-322-5519 for assistance).

If there are any agenda items the three committees need to bring before the full MCCERCC, please route these items through the appropriate MSP/EMHSD staff member. If there are any items from other members please forward them to myself. I will get the agenda out as soon as possible. There may also be a tour of the new State Emergency Operations Center prior to the meeting for council members, more information on this will be forwarded at a later date.

Thank you,

Been talking to him off and on. They will get back in touch with me tomorrow on more of the logistics. Very pleasant people, will be sad to say we can't help them with an offsite forklift if they do not want to just send the water to the warehouse for our distribution efforts.

I replied to the SEOC on staffing saying basically we need more people to rotate out you, Henrik, DCs, and me (I have to be home at my normal time next week, have a boat load of appointments). Will see what they come back with. Asked if SEOC command would be open to asking county officials to assign more local's to the SEOC to cover logs, ops, and planning. So we'll see what they say.

Been talking to him off and on. They will get back in touch with me tomorrow on more of the logistics. Very pleasant people, will be sad to say we can't help them with an offsite forklift if they do not want to just send the water to the warehouse for our distribution efforts.

I replied to the SEOC on staffing saying basically we need more people to rotate out you, Henrik, DCs, and me (I have to be home at my normal time next week, have a boat load of appointments). Will see what they come back with. Asked if SEOC command would be open to asking county officials to assign more local's to the SEOC to cover logs, ops, and planning. So we'll see what they say.

Subject: RE: MSHDA test kits

Thanks, Jay. We'll look at the options for tenants taking the samples, certainly the lack of an acid preservative helps make that more doable. We're also looking at options to have them collected by several trained people with scheduled visits rather than the tenants. That way we know the filter's installed and installed correctly, sampling procedures were followed, contamination concerns minimized, etc.

I'd just rather take a little more time and have data that we know is solid then to get a result back and have to wonder whether something irregular occurred, which you'll just never really know unless you do it yourself.

I was at a Flint home yesterday, auditing to make sure the Pur filters had been installed in some of our units, where an older tenant had two 1-liter bottles with DEQ stickers on the counter. They were filled. One was marked "filtered" in sharpie and the other "unfiltered". We all noticed that the flow was really good through the cartridge, which was surprising since the flow is usually pretty reduced, so we checked and discovered there was no cartridge installed. Yet these two bottles had been filled, "filtered" and "unfiltered". I told the lady about the mistake and advised her to not submit the filtered once since it hadn't actually been filtered, but whether she followed up on that or not, I can't say. It's that kind of experience that makes me cautious about having the tenants do it.

Do you know who at DEQ is overseeing this initiative? I'd be curious how their QA/QC looks.

They are 1 Liter bottles, mo preservatives inside. The DEQ Lab is doing the processing. Samples can be taken back to fire stations if possible by residents.

And you're probably correct. My day job is hazmat safety planning.

Hi, Jay. I am the environmental review manager for MSHDA and I just wanted to touch base with you about the test kits you have been talking to Mike Witt about.

Can you give me an idea of the sampling media (plastic 1 liter bottles?) and whether there is a preservative inside? Also, will these be going to the DEQ water lab? I'm just trying to get an idea of what's involved. 2,000 samples is going to involve some real planning and effort.

BTW, your name sounds familiar. I believe we've worked together before back when I was with Community Health, during my several months with the chemical release unit. Or perhaps it was mercury spills, not sure anymore, or I could be wrong.

Anyway, I'll probably be overseeing some of the logistics for MSHDA and I wanted to get a handle more precisely on what we're looking at. Please call me if you want to discuss. Otherwise, any info you have would be more than I currently have. Thanks.

Subject: RE: PUR Volunteering Follow-Up

I am going to group this in to one email. We have the one location confirmed (community center). Lt. Roach has contacted her for the confirmation, I have left a message for follow-up, and you may proceed to call her (see below). I leave the set-up and fine detail to you and her. Please let me know the exact times we agree upon for the team's activities with the public, as we would like to have the Joint Information Center send out a media release or communications update.

We should have the details for the church today, as well. Lt. Roach has a meeting with them later today if they do not call back before (but it may not be in time for your meeting). When I have that detail I will update you.

- Location 1: **Brennan Senior Community Center**, 1301 Pingree Ave, Flint. **The contact there is Debra:**
- Location 2: **Church ID'ed but not confirmed**

I have cc'ed Jay Eickholt, and have even attached a form from him. He works in logistics, and he will arrange the delivery of the filters (we can arrange to bring over some of the handouts, as well). He will need to know:

1. How many filters would you need at each place? The Brennan Center sees around 200-250 people/day.
2. The point of contact at each location (this is who would take the filters – I assume the PUR people would want to receipt them. Otherwise, we can work with the location PoC)?
3. When do you want them (Monday or Tuesday, and at what time)?
4. And finally, the attached sheet is to track how many are given away at each location.

Thank you!
Chad

Hi Chad,

Just checking in to see if you have the contacts and addresses for the two locations yet. Our teams are hard at work getting prepared for next week and we need to share this info as soon as possible.

Also a few quick follow-ups:

- In addition to the products, can we also have some of the PUR handouts we shipped to the EOC brought to the locations?

- We definitely want to do a quick site check on Monday afternoon/evening so that we are familiar with the space on Tuesday. We will work with the contacts at each location to confirm. Would it be possible to have the product delivered that evening so that we're ready to go on Tuesday morning?

Thanks!
Erin

Subject: PUR Volunteering Follow-Up
Importance: High

I just wanted to touch base with you on the two main points we discussed yesterday:

1. Lt. Roach is working with her contacts. We have ID'ed a community center and a church. I will pass along the detail when she has touched base with those two places, and we will have you talk with each point of contact directly to coordinate the logistics with them (at their respective location).
2. I will confirm with our own logistics team to make sure that PUR filters and replacement cartridges will be delivered to the locations.

Also, I have asked DEQ for details (and information sheet) re: the testing kits (and not having the kits on hand themselves).

Thank you,
Chad

Hmmm - figures it would be broken down politically, not geographically - is there a map overlay that we could access, something that we could use to extrapolate a number? What is Dept. of Ag using, have you any idea?

Question, Jay: Does the EOC have the "hot zones" broken out by Zip code? We're trying to correlate licensed dogs in the city to the areas with highest reported lead content. Please advise... thanks

Michelle:
What's the chance we can get a skid of water delivered to the Animal Shelter, to be given to people living in the City who adopt an animal? I think it would be a good start. Please advise...

Thanks

To: Witt, Michael (MSHDA); Wildman, Michele (MSHDA)
Subject: RE: MHSDA Test Kit Pick-up

For 2,000 test kites you would need the semi-trailer to pick them up. If you pick a time you would be able to get your truck there I can put in the order.

You'd be looking at about 30 cases (4'x3'x3')

-Jay

To: Wildman, Michele (MSHDA); Eickholt, Jay (MSP)
Subject: RE: MHSDA Test Kit Pick-up

Jay,
I work with Michele here at MSHDA and have been coordinating our multifamily need. Based on our feedback from DEQ to test each unit we would need 2,000 water test kits. From a logistics standpoint, we were wondering how big that would be? We have access to a full size truck that we could use to come pick them up and then distribute them to our properties but I wasn't sure what 2,000 water test kits looks like from a size standpoint. If they are bigger than that we can figure out an alternate plan to get them and distribute to our properties.

Mike Witt

Subject: February 22, 2016 Meeting Notification and Location.

Good evening MCCERCC members,

The Monday, February 22, 2016 MCCERCC meeting will be held at 2:00pm. The meeting location will be the Emergency Management and Homeland Security Training Center, 7426 North Canal Rd, Dimondale, MI 48821. (Located behind the Michigan State Police Training Academy building, call 517-322-5519 for assistance).

If there are any agenda items the three committees need to bring before the full MCCERCC, please route these items through the appropriate MSP/EMHSD staff member. If there are any items from other members please forward them to myself. I will get the agenda out as soon as possible. There may also be a tour of the new State Emergency Operations Center prior to the meeting for council members, more information on this will be forwarded at a later date.

Thank you,

Jay A. Eickholt, PEM
Planning Analyst 12

Would someone mind reaching out and addressing concerns?

Thanks,

Laura

(81 on Feb 12)

She has gone to several water locations and can't find a "pitcher filter". The filter she has is designed to attach to a faucet, but she doesn't have the right kind of faucet.
She dropped off her water sample two weeks ago but has not received any results yet.
She is a crossing guard so is gone twice a day, and her daughter just had surgery so she is trying to help her as well. If someone can find a pitcher filter for her they could call or drop it off and leave on patio if she isn't home.

Subject: RE: Crossing Water

Been talking to him off and on. They will get back in touch with me tomorrow on more of the logistics. Very pleasant people, will be sad to say we can't help them with an offsite forklift if they do not want to just send the water to the warehouse for our distribution efforts.

I replied to the SEOC on staffing saying basically we need more people to rotate out you, Henrik, DCs, and me (I have to be home at my normal time next week, have a boat load of appointments). Will see what they come back with. Asked if SEOC command would be open to asking county officials to assign more local's to the SEOC to cover logs, ops, and planning. So we'll see what they say.

To: MSP-seoclgc
Subject: RE: SEOC EMHSD Staff Schedule week of Feb 8-14.xlsx

There are several issues with staffing here in the Local EOC.

I will not be able to be in the county EOC past normal work hours (would have to leave EOC by 4pm) next week and have to be off Sunday. You may want to get with DEQ on the possibility of one of their IMT members (Scott Scheafer) may be coming back if it is approved, Mark Ducharme was talking about Scott was waiting to hear approval.

Henrik will need a few days off and needs to get caught up on a few outstanding issues in the office. Not sure if there is another DEQ planning person that would be available or EMHSD member that could assist. Henrik hasn't had a full day off since two weeks ago.

Lt. deCastro has prior commitments back home over the weekend, but would be available and willing to come back Monday morning.

Michelle has been busy with the UCG and has not had much time to stop in and visit with the EOC. She has been able to help direct info via email and phone as needed.

Lt. Roach will need to be out again at some time next week. She will be coordinating this.

Unsure if state director position needs to pressure county officials to assign other personnel to the EOC to get the state employees out. Lt. Roland is on active duty with the National Guard till the 18th after that he would be able to assist in the EOC as he works for the sheriff's department.

Subject: RE: Final Hot shot form

Richard,

Michigan 2-1-1 is moving forward to develop an electronic version of the hot shot form that will automatically generate a referral as calls are completed.

Can you verify the following:

- Hot shot v.2 (attached) is the approved form without any further edits

- Can you provide the email address for the primary recipient of the water resource referrals and anyone additional emails to copy on the referrals.

ETA for the electronic form is 8-10 days. Once it is active, we will be able to make simple modifications as needed (e.g. add/change resources available for delivery)

Thanks,

Tom Page | Executive Director

Subject: PUR Filters

Jay, Chad here. I wanted to give you a heads up... The PUR corporation will be here next week, and we'll need to arrange delivery of some PUR filters to two locations next week (a church and a community center - we're confirming the exact details on location and amount needed). They will be handing them out, with literature, and I wanted to prompt you on the situation. I'm making sure on who to confirm with (and how) to arrange making this happen?

Thanks!
Chad

Hello, Jay how are you?
I know you are very busy however, I have two questions.

1) Have you had conversations with our two facilities representatives relative to the warehousing space? Do you need anything additional I can help with. Again, I just ask to be kept in the loop as I coordinate our organizational response.

2) Finally, our R&D team has some interest around assisting with water filters, not necessarily acqurining them, but, they have ideas around the quality and performance and may be able to offer support. Is there a contact on the Emergency Operations Team that you could connect me with?

Thank you!
Karen

Subject: GM Warehousing Space

Hello Karen,

Jamie Gaskin looped me into an email from you on warehouse space in the Flint area that we may be able to use.

I have some background questions I need answers to. Are you available to talk sometime this afternoon? I am able to accommodate any time.

Thank you,

Jay Eickholt
MSP/EMHSD

Subject: RE: Space

Good Afternoon,

The state of Michigan thanks you for the generosity and reaching out to us on the possible warehousing space. We discussed the specifics of this space with our team and we unfortunately do not think this will be a feasible option for our operation. The main issue we found was the access and work environment issue. Not being able to get volunteers or state of Michigan employees into the space could pose an issue.

We thank you again for your offer.

Subject: Space

Hello to both,

I would like to introduce the three of you to begin discussion relative to the space available at the Flint Complex.

Paul and George, Jay is leading the search for the local Emergency Operations Team. I have share the detailed specs that you provided, however, of course, Jay would like to ask further questions and begin talks to utilize the space. Please feel free to discuss directly. For your information Jay will also be looking at space we have identified at the Grand Blanc Center.

While I would like to remain in the loop and be aware of our support and any additional needs, I do not want to delay anything. I am traveling the next few days, but, available by phone: 586-864-5681 or thru this email. Thank you. Karen

Subject: FW: Request for space

Hi Karen,
Following up on your questions below.
The address is:
GM Flint Metal Center
G2238 W. Bristol Rd.
Flint, MI 48553

Our west rail dock well area is 20' wide x 375' in length, approximately 7,500 sq. ft.
Access to the rail dock well area is through a large overhead door on the very end.
Trucks delivering water would need to be unloaded outside the building near the overhead access door to the train well dock area since the closest truck docks are clear on the other end of the building opposite the trail well access door.
Please see attached file for visuals of the train well area and overhead access door.
Feel free to contact me if you have any questions or further clarification is needed.
Thank you,

Paul Fryzel

Subject: RE: Request for space

Thanks Tom.

Jeff, As I am sure Tom shared, their needs have been met currently, but in order to be armed with the basic detail behind our options, I will ask the same questions and appreciate your response:
Can you please share the address/location of the center and confirm an approximate amount of space? Also, I assume it has access for delivery/loading docks/etc. I imagine we can have discussions around visitors/volunteers/non-union if the need arises, please just let me know if there are obvious restrictions.
Thank you!

Subject: RE: Request for space

Karen

I spoke with Jeff this morning about the space we have at the Flint complex. It turns out this location could also serve as a storage area as it is in an idle part of the marshalling building near the stamping plant. There is a large door to accommodate trucks.

I just spoke with Diana McKittrick. She represents an advocacy group, Communication Access Center that works with the deaf and hard of hearing community in Flint. She is interested in assisting in ensuring that this community has access to the resources being distributed (water, water fliters/cartridges, test kits, etc.) as well as accurate and timely information on what is taking place to address the lead water crisis. Could you please forward this on to the proper people in the SEOC to see about providing commodities as well as information. Thanks

<earl.zuelke@fema.dhs.gov<mailto:earl.zuelke@fema.dhs.gov>>
Subject: Deaf and Hard of Hearing Community Contact

Ms. McKittrick (CAC) and Mr. Zuelke (FEMA)

I am connecting you two in order to evaluate the request for the CAC (Communication Access Center) to be a distribution site.

I know the State Patrol and National Guard has knocked on each household door at least twice trying to get the supplies to each home. It is possible that the SP/NG has already reached the deaf community.

Ms. McKittrick - if you have any demographic information on the locations of the clients your serve, Mr. Zuelke can have his staff check on whether they have been reached with all the supplies.

If they have not, we can look into your site as a distribution site.

Please work with Mr. Zuelke as we ensure the deaf and hard of hearing community have received all the widely distributed supplies.

Thank you so much for meeting today.

Best,

Jamal

Subject: Filter delivery request

Jay,

I'm requesting a delivery of filters and replacement cartridges to Summerfield Elementary School, 1360 Milbourne Ave., Flint, MI. Contact is Lauren Chom, 810-223-5638.

They would like 350 Brita and 350 Pur filters and 400 Brita and 400 Pur replacement cartridges. These are for Head Start Families.

Subject: RE: Toledo Semi Truck Water Delivery

Jamie please forward to Nathan.

Here are the answers.

Yes, as long as it's palleted, we'll take it! I've provided answers below.

1. A location to house the water. 4135 N. Clio Road, Flint 2. Will that location have the ability to unload with pallet jacks and a fork lift? Yes Or 3. Will that location have volunteers to unload? There are workers to unload palleted water, but NOT loose water.
4. What time that afternoon the best for dock time (consider it's a 2 hour drive to Flint, from Toledo). Anytime before 6 p.m.
5. What is the location address? Same as above 6. Who is the on-site location contact and what is their cell phone number? Bonnie

Thank you,

Jay Eickholt

Hello Jamie,

We will be filling a semi-truck full of bottled water on pallets this Friday in Toledo. Our plan is to get on the road by 2pm this Friday to deliver water to you.
I'll need a few questions answered to better serve you guys on the delivery end.

1. A location to house the water.
2. Will that location have the ability to unload with pallet jacks and a fork lift?
Or

3. Will that location have volunteers to unload?
4. What time that afternoon the best for dock time (consider it's a 2 hour drive to Flint, from Toledo).
5. What is the location address?
6. Who is the on-site location contact and what is their cell phone number?

Thanks again for helping to coordinate this!

Cheryl, Thank you for your time on the phone. Matrix is a Flint based trucking company located near I 75 and Bristol Road. We have a Fleet of tractor's and 53' trailers, 22', 24' and 28' box trucks. We are a 24 hour 7 day a week operation

In speaking with Kyle this am the need is not for water but transportation services. Kyle also mentioned a website where donations can be made, www.flintkids.org. in lieu of water. I have copied a few others who have expressed interest in helping with the Flint water crisis.

Please let me know where Matrix can be of assistance.

From: Eickholt, Jay (MSP)
Sent: Monday, February 01, 2016 4:56 PM
To: MSP-seoclgc
Subject: Recycling

At the Kroger location a 53' Schupan Recycling trailer would be parked for the on-going recycling program. This trailer would function the same as the others at the PODs where residents bring their recyclables in clear plastic bags and deposit them inside the trailer.

> > We are tracking 38,831 residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- 37,628 (97.0%) of the parcels have been engaged as part of response efforts

- 28,081 (72.3%) of the parcels have been confirmed have some form of filter

- 12,712 (32.7%) of the parcels have volunteered for water testing

- 2243 (5.8%) of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are 26,673 residential parcels that have the ability to use the Flint Water System. Of these:

- 26,395 (99%) of the parcels have been engaged as part of response efforts

- 22,334 (83.7%) of the parcels have been confirmed have some form of filter

- 11,169 (41.8%) of the parcels have volunteered for water testing

- 1635 (6.1%) of the parcels have not had personal contact (not home or did not visit a POD)

Please let me know if you need anything else.

>
> I do not know if there is anyone else with him. He has a list of homes that people have sent him that they said they needed water and his intent is to go to those homes. I am having the water delivered to the Trinty Church. This will allow them a place to go back and forth and fill up their van when needed and so they do not cause a challenge at the warehouse. Plus, we are not providing a list of homes to deliver the water - this will allow them to operate organically.

Bullet Points on Long Term Distribution Course of Action

Direct Delivery and PODs Approach

Scope

- Direct delivery of filters, cartridges, and pitchers to residences.
- DTMB will go through an RFP process to secure contractor for direct deliveries.
- Utilize PODs for primarily water distribution and recycling, will have all supplies in stock initially.
- Designated officials will coordinate pickup for franchise customers.

Assumption

- Faith and community based members are not involved directly but may supplement through community based distribution centers (POD locations, volunteers).

Strengths

- Tracking and protection of personally identifiable information is the contractors responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen/survivor centric solution.
- This COA may be supplemented by faith and community based distribution centers at their discretion (account for undocumented workers).
- Allows a phased approach transition to community pods for water distribution.
- Scalable PODs operations based on the overall demand for water.
- Follows FEMA approved guidelines for operation a POD.
- PODs are Ward based, giving local government more visibility or the operation.

Weaknesses

- Increases the cost of the response at least initially.
- Burn rates and other data will not be readily available.
- May require an MOU for the PODs locations.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

Genesee County EOC – 2015-10-01-City of Flint-Water Contamination / Shortage Situation Report #34, 02/14/2016

Operational Period:

Operational Period Begin:	02/08/2016 08:00:00
Operational Period End:	02/12/2016 08:00:00
EOC Status:	Full
EOC Hours of Operation Begin:	08:00:00
EOC Hours of Operation End:	21:00:00

Situational Awareness:

After switch of primary water sources, the different characteristics of the water resulted in leaching of lead from pipes into the water supply. Subsequently, elevated blood levels exceeding past seasonal levels were observed in City of Flint children. Elevation of blood lead levels can cause immediate and long-term negative health effects, especially in children. Local residents in impacted area are in need of assistance regarding availability of potable water, filtering equipment, nutritional assistance and test kits as a result of the infrastructure failure.

The Genesee County EOC was activated following a declaration of a Local State of Emergency on January 4, 2016. The City of Flint declared a Local State of Emergency on December 15, 2015. Governor Snyder declared a State of Emergency for Genesee County and the City of Flint on January 5, 2016. On January 14, 2016, President Obama declared a Federal State of Emergency for the State of Michigan and Genesee County.

Objectives:

Objectives for next operational period, 02/08/2016 to 02/12/2016:

- Ensure safety of responders and the public for the duration of the incident.
- Ensure appropriate resources (water, filters, water sample kits) and information materials are available to affected populations.
- Evaluate need to include animal populations, including companion animals, in response efforts.
- Maintain adequate staffing to support operational requirements. Identify local staffing for positions in Genesee County EOC.
- Improve communications with local, state and federal partners, including City of Flint, county departments, MSP/EMHSD, MDEQ, MDHHS, FEMA, EPA, SEOC, UCG, etc.

Summary of Response Activities:

Incident Command/Operations Section:

- Sentinel Site Monitoring Teams completed their mission today (2/14/16).
- Southern Baptist will be in town Monday for initial IPad training.
- Elevated Lead and Copper Initial Assessment Task Force out in the field.
    - On 2/14/16 12 homes visited, all were revisits
        - 6 homeowners present.
- Sentinel outreach campaign statistics
    - 402 homes were initially contacted for the program.
    - 241 households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
- First test bottle collection will occur Monday 2/15/16. Operation will continue for the next 6 weeks.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper initial Assessment Task Force.
- Will start development of work assignments for sample pick up and long-term monitoring at sentinel monitoring points on 02/14/2016.

American Red Cross:

- Mobile distribution teams comprised of event based and ARC volunteers along with NCCC group distributed bulk items.
- VRC open and placing volunteers in work groups.
- Processed 104 event based volunteers on 2/13/16.
- Visited 515 homes on 2/13/16.

United Way of Genesee County:

- Receive and manage donations (cash and supplies).
- Soliciting large volume donations. Network with and engage large volume-donors.
- Provide information updates to 211 hotline staff.
- Receive information from affected populations through 211 hotline.
- VRC open and placing volunteers in work groups.
- NCCC teams are distributing supplies with ARC teams.
- NCCC teams will complete their mission on Sunday 2/14/16.

Weather:

Tuesday

Partly sunny, with a high near 36. South southwest wind around 6 mph.

Tuesday Night

A chance of snow showers. Mostly cloudy, with a low around 21. Chance of precipitation is 30%.

Wednesday

Partly sunny, with a high near 29.

Wednesday Night

Partly cloudy, with a low around 10.

Damage Assessment:

Infrastructure Damage Assessment

Preliminary estimates for damages in City of Flint:

Private Damage	$ 54,619,500
Public Damage	$712,800,000
Total Damage	**$767,419,500**

Health Damage Assessment

TBD

Paden Stalter

Leadership Theory and Practice

Assignment #1

Evaluation Tool

On January 14th, I arranged a meeting with the building special education teacher to observe and discuss the evaluation tool. He services most of his case load in the traditional classroom setting alongside the classroom teacher. I observed him in a pull out session with a group of five students. It was comprised of 1st and 2nd grade students. This particular lesson he was working on literacy skills. I can statements were on his board and mentioned throughout the lesson. Although he works with a unique subgroup of students he has great classroom management.

After the lesson we were able to have a conversation about the district's evaluation tool and how effective it works for his particular field of teaching. It was very evident that he is passionate about teaching special education. We had a general discussion about some sections on the evaluation rubric such as student achievement data, physical space and instructional balance. He stated that because of him often going into other teacher's classrooms he does not have complete control over certain aspects of creating the learning environment. Even after discussing how certain sections do not evaluate him effectively, he said he would not change the evaluation tool. As long as all special education teachers are evaluated on the same criteria it would accurately measure his effectiveness in comparison of others. This particular district ranks evaluations by the number of points earned on the rubric and he felt this would secure his position.

Elevation of blood lead levels can cause immediate and long-term negative health effects, especially in children. Local residents in impacted area are in need of assistance regarding availability of potable water, filtering equipment, nutritional assistance and test kits as a result of the infrastructure failure.

The Genesee County EOC was activated following a declaration of a Local State of Emergency on January 4, 2016. The City of Flint declared a Local State of Emergency on December 15, 2015. Governor Snyder declared a State of Emergency for Genesee County and the City of Flint on January 5, 2016. On January 14, 2016, President Obama declared a Federal State of Emergency for the State of Michigan and Genesee County.

Objectives:

Objectives for next operational period, 02/08/2016 to 02/12/2016:

- Ensure safety of responders and the public for the duration of the incident.
- Establish better coordination between local, state and federal partners, including City of Flint, county departments, MSP/EMHSD, MDEQ, MDHHS, FEMA, EPA, SEOC, UCG, etc.
- Continue to maintain adequate staffing to support operational requirements.
- Identify local staffing for positions in Genesee County EOC. Maintain adequate staffing to support operational requirements.
- Ensure all households within impacted community have required resources, including water, filters and water sample kits.

Summary of Response Activities:

Incident Command/Operations Section:

- Established objectives for next operational period, 02/08/2016 – 02/12/2016.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Coordinated with GCHD and UA370 for staffing on Elevated Copper Initial Assessment Task Force and elevated water lead level teams starting on 02/10/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Command emphasis:
    - Provide additional outreach, information materials and appropriate resources to residents in homes with severely elevated water lead and copper levels.

Planning Section:

- Track levels and distribution of supplies at Fire Station PODs.
- Implementing recycling program with Community Recycling Coalition. Requested volunteers for assembly of recycling bag kits. Requested update of recycling door hanger from JIC.

- Developing SOP's, Hand Receipts for battalions All Hazards Plan for easy battle handoff for new unit. No new unit at current time
- Recycle bags are at POD stations with recycle trailers
- Consolidated reporting system needed to be adjusted to maintain accuracy of accountability

American Red Cross:

- Mobile distribution teams comprised of event based and ARC volunteers along with NCCC group distributed bulk items.
- VRC open and placing volunteers in work groups.

United Way of Genesee County:

- Receive and manage donations (cash and supplies).
- Soliciting large volume donations. Network with and engage large volume-donors.
- Provide information updates to 211 hotline staff.
- Receive information from affected populations through 211 hotline.
- VRC open and placing volunteers in work groups.
- NCCC teams are distributing supplies with ARC teams.
- 2 NCCC personnel will support Elevated Copper Initial Assessment Task Force on 02/08/2016.

Weather:

Monday

Cloudy, with a high near 39. Light and variable wind becoming southwest around 5 mph in the afternoon.

Monday Night

A chance of snow showers. Cloudy, with a low around 26. West northwest wind 3 to 8 mph. Chance of precipitation is 30%.

Tuesday

A chance of snow showers. Cloudy, with a high near 34. West northwest wind 10 to 15 mph, with gusts as high as 23 mph. Chance of precipitation is 50%.

Damage Assessment:

Infrastructure Damage Assessment

Preliminary estimates for damages in City of Flint:

Private Damage	$ 54,619,500
Public Damage	$712,800,000
Total Damage	**$767,419,500**

Health Damage Assessment

TBD

Guidance on Treatment of Adult Blood Lead Levels

The adult action blood lead level is 40ug/dL.

BLL of <40ug/dL. Remove the person from the lead exposure. Repeat blood lead testing in 1 month.

BLL of 40-59ug/dL. Remove the person from the lead exposure and repeat blood lead testing in 2 weeks.

Person needs a complete medical evaluation with attention to exposure history, work or home environment, and hobbies and alternative and complementary medications and supplements. Findings including hypertension, cardiovascular risk factors, renal abnormalities and malaise, gout, arthralgias and myalgias and recent emotional lability should trigger lead specific questions. Specific lab work should include CBC with differential, LFT's (liver function tests), BUN, creatinine, urinalysis, uric acid, FEP (free erythrocyte protoporphyrin), or zinc protoporphyrin, pregnancy test or if requested sperm count or sperm motility.

For BLL ≥60ug/dL, consult a medical toxicologist/Poison Center. Chelation may be indicated if symptoms present

Symptoms and signs include:

- Neuropathy not attributable to other causes (including carpal tunnel)
- Nerve damage resulting in wrist or ankle drop
- New constipation
- Lead colic (severe abdominal pain not referable to another diagnosis)
- Severe lead related anemia
- Fanconi syndrome or new glycosuria (not related to diabetes), aminoaciduria and/or proteinuria
- Planning or unable to become pregnant (male or female partners)
- New emotional lability, mood swings, and memory/attention deficits
- Changes in the person's mental status such as coma or seizures

Any adult with signs or symptoms of lead toxicity or a level >45ug/dL be immediately referred to a primary care provider.

Pregnant women with BLL >10ug/dL are at high risk because of the developing fetus and need to be followed by their obstetrician in conjunction with a medical toxicologist/Poison Control Center.

Breastfeeding women who have a BLL>40ug/dL or a level of >20ug/dL and one's infant has a level of >5ug/dL should consult with her doctor about continuing to breastfeed.

One can also contact the Poison Control Center 800-222-1222 to discuss this on a case-by-case basis.

Please also see attached "Management Guidelines for Blood Lead Levels in Adults." These categories represent general guidelines.

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

Flint, MI 48507

USE FILTERED TAP WATER

- Drinking, cooking
- Washing fruits and vegetables
- Brushing teeth
- Pet water bowls

USE UNFILTERED TAP WATER

- Cleaning
- Bathing

BLOOD LEAD LEVEL TESTING

All Flint children less than six years of age should have their blood lead levels tested. Contact your primary care provider or call 2-1-1.

NUTRITION

Did you know that some foods will help keep lead from being stored in a child's body? These are foods with a lot of calcium, vitamin C and iron.

FREE WATER TESTING

Flint residents who are concerned about their water can obtain free water testing kits at the water resource sites.

USE WATER FILTERS & CARTRIDGES

Water filters can reduce lead and other contaminants by 99 percent when installed correctly. Free water filters are available at the water resource sites.

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.
- Drain and flush your water heater tanks regularly to remove any lead that has accumulated. Follow manufacturers instructions for maintenance or contact a licensed professional for assistance.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

Eickholt, Jay (MSP)

From: Eickholt, Jay (MSP)
Sent: Saturday, January 30, 2016 1:30 PM
To: MSP-seoclgc; MSP-SEOC5
Subject: RE: Teams/Volunteer Coordination

For the rapid response teams the local EOC has no plans for anything past Sunday. We have been hearing that there is a plan at the state and SEOC for getting the NGO's and volunteer groups to complete. Chris expressed this concern on the morning calls. I don't see a possible solution that doesn't include red cross on some level.

For the Local EOC we only have a few plumbers and pipe fitters may be active tomorrow and Team Rubicon is working through the vulnerable populations areas. Team Rubicon has five trucks that are being stocked in the evening at the warehouse.

-Jay

Cc: Kuzera, Michelle (MSP); Holmes, Virginia (DHHS); MSP-SEOCOPSC; MSP-seoclgc
Subject: Teams/Volunteer Coordination

Good morning (almost afternoon) everyone,

There has been some confusion with all the teams/volunteers out today. I just want to make sure going forward that we coordinate these a little better. Not to approve or deny, but just to ensure there is no overlap and everyone is on the same page.

I was just told that the ARC groups that are resupplying from the Home Depot have no standards on what they are distributing and to whom, Dave, can you clarify? For instance, is it one case per person or multiple? And where are they distributing? What's the strategy?

Also, I'm told that citizens are treating the Home Depot as a POD and just picking up their water from there. True? I was under the impression the volunteers were loading their trucks from there but not citizens. We went through 2 semi loads in an hour.

Again, it is my job to ensure there are enough supplies, if there isn't a plan in place then I have no way of anticipating needs and supplies.

For the local EOC teams/volunteers, what is the strategy for those? I'm told they aren't doing distribution but going in and installing filters in homes, is this correct? Are there any needs from them other than the 5 trucks that were requested this morning?

Again, I don't want to control your teams, the SEOC does not need to approve or deny them, but we are asked questions by command that we need to answer. I also need to ensure there are enough supplies. I know that we all get a lot of pressure from the Governor and others to put volunteers to work, but we need it to be coordinated.

For Carly and Jay, what is the plan for the Rapid Request teams next week? Do we have one? Will ARC be needed? What resources will you need? I.e., trucks, drivers?

May I get a list of all the volunteers/teams out there today and tomorrow and what they will need? You can use the below template if you wish. Please have this to me by 4 p.m. today.

Team (ARC/EOC)

Group

# of volunteers

Commodities Needed

Resources needed (Vehicle? Driver? Pallet Jack?)

Date needed

Thanks so much everyone.

Subject: FW: Would someone be able to address this concern?

Richard,
Are these types of circumstances addressed by 211, or forwarded on? She wants any future folks whose faucet doesn't fit the filter (or vice versa) to be able to get a different faucet. Your thoughts?
Gabe

From: Cheryl Vincent [mailto:cherylvincent1966@yahoo.com]
Sent: Thursday, January 28, 2016 12:23 PM
To: MSP-SEOCOPSC
Subject: Re: Would someone be able to address this concern?

I did contact 211 regarding this issue when I ran into it. They were unable to help me acquire a new faucet. The plumbers union will help install the faucet that a family member purchased for me, and attach the filter to it.
I feel that this set of circumstances needs to be addressed by those who are coordinating the relief efforts.
Thank you again for your time and I look forward to your response

Ms. Vincent,

Thank you for the email and for bringing your concern to our attention. Any individual with similar circumstances should contact 2-1-1 and each unique circumstance will be addressed on a case by case basis.

Thank you.

Subject: Would someone be able to address this concern?

I have received filters and and replacement cartridges, which I greatly appreciate. However, my kitchen faucet is not compatible with these filters and I have had to replace it.
My concern is for the residents of Flint facing similar difficulties who are unable to afford replacement faucets in order to utilize the filters you are providing.
Is anyone looking into this aspect of the problem? If there is assistance available we are not being made aware of it.
The pitchers that are being given out are sufficient for drinking water, but are not practical for cooking.
Thank you for taking the time to read this.

Chris, BJ, and Jay:

One of our most active partners the UAW Region 1 D has received numerous requests from home bound UAW members. The UAW members would like to provide some door to door service for their own members. They are willing and able to keep a list of the addresses and required information. I am requesting the availability of 200 PUR faucet systems and 200 replacement filters for the Region 1 D office to distribute to members living in the City of Flint.

Teresa McGinnis is one of my United Way team members and is our UAW Labor Liason. We can coordinate directly with Theresa for the pick-up and she will be responsible for working with the UAW to track information.

Please let me know if we can approve this request and get processed asap. Again I can't express enough that many UAW members have provided hundreds of hours of volunteer work in the canvasing work in partnership with the Sheriff's Department as well as dozens of trucks of water and tens of thousands of dollars to support relief work.

Subject: FW: Bluewater water purifiers help Flint

Jeanette

As we previously discussed, you are my contact to triage and route external inquiries. Bluewater called me this morning, and I requested an email with more information.

It is unclear to me whether this unit meets the standards used for the faucet water filter sourcing. Can a resource be identified to check? If not, someone may want to consider reaching out to the two locations that received donated units.

Thanks for routing this into the correct hands.

Rebecca

Subject: Bluewater water purifiers help Flint

Hi Rebecca,

It was nice talking to you this morning, we will appreciate if you can read this email and forward to related team who in charge of procurement for Flint water crisis.

Bluewater is a Swedish company that has innovated a patented second-generation reverse osmosis technology which turns tap water into healthier drinking water by removing up to 99% of almost all known water-borne contaminants; plus, cuts the water wastage common to traditional reverse osmosis systems by up to 82%.

Bluewater has been selling in the USA for the past 18 months, based out of Overland Park, Kansas, where we also have our warehouse that serves customers across the United States. We are a sister company to Blueair, which is one of the major air purifier companies in the United States, based out of Chicago.

Last week saw us donate and install two of our high performance water purifiers in Flint, Michigan, in response to their crisis as our water purifiers excel at removing lead and other toxic metals from residential drinking water. While we

applaud people donating water bottles, it is only a short term solution, whereas as water purifiers are both a short-term and a long term solution.

One Bluewater Pro machine was installed at the Community Center at Catholic Charities of Shiawassee and Genesee Counties, where they serve 1,000 meals every day to local residents. The other unit was installed at Shelter of Flint, the largest shelter at Flint.

Both units were installed by Bluewater's Product Manager who traveled to Flint personally. FYI, many bottled water brands in the USA use reverse osmosis to purify their water. Using a Bluewater unit is a cheaper long-term option that also contributes to a better environment because they negate the need for plastic bottles as they deliver purifier water 'on demand'. (a side note, as you may already know, "Pepsi Admits That Its Aquafina Bottled Water is Just Tap Water, Coca-Cola's Dasani Is Next" see news of today http://healthycures.org/pepsi-admits-that-its-aquafina-bottled-water-is-just-tap-water-coca-colas-dasani-is-next

The Bluewater Pro400 reverse osmosis water purifiers we donated to Flint can produce 52 gallons of purified water per hour, which means we can supply 2,700 people a total of two liters of clean water free of lead and other toxic metals every day. This translates into saving 4,800 one-liter bottles being put into the environment every day!

The compact Pro is designed for professional use, in restaurants, hotels, schools, hospitals and laboratories. Installing just 38 of our units in Flint would deliver the 100,000 residents two liters of totally clean water every day - meeting their basic daily human health need for drinking water.

Bluewater harnesses our own patented second-generation reverse osmosis technology, which removes practically all toxic contamination from tap drinking water including lead. The other contaminates we remove include other heavy metals, pesticides, medical residues, and dioxins and petro chemicals.

What also makes our water purifiers unique is that our unique technology ALSO radically increases the efficiency of water treatment, which translates into a Bluewater unit using 82% less water to generate clean water than a traditional reverse osmosis unit.

Reverse osmosis technology purifies water by forcing untreated water through a semi-permeable filter or 'membrane'. Bluewater membranes will block toxic metals and chemicals down to 0.0001 micron (that's 500,000 times smaller than a human hair). Our technology also delivers water 'on-demand', which means no need for a holding tank

As a business, we cannot afford to donate an endless number of units free to Flint, but due to the special nature of the situation (and the fact that most of us are parents of small children and have huge sympathy for those impacted by the crisis) we want to step up even more by offering Michigan State prices that are very substantially discounted. In fact, we want to offer you a one-off purchase opportunity that sees us offering you our products at the manufacturing price (i.e. we make no margin on the deal).

This would see the products we recommend you consider coming in at:

Pro 400C-HF(high flow) (this is the model we donated to Flint) $1920 + shipping
(suitable for professional use, hospitals, labs, restaurant, coffee shop, office building)
- Superior Osmosis Technology
- Direct flow, no need of tank
- Capacity up to 52 gallon per hour
- Clean water delivery rate of 52 gallon per hour
- Cleaning brackish water, up to 7500 ppm
- water quality monitor

- Calibration of cleanliness
- Advanced leak protection system
-Clean water per kWh: 433L/kWh (114.3gallon/kWh)

-Clean water rate: 222L/hour (58.6 gallons/hour)

-Dimensions: 225 x 466 x 460mm (8.9 x 18.3 x 18.10 inch)

-Weight: 29kgs (64lb)

-Water recovery rate: 60-70%

The other two models we could consider as an alternative (the only difference is that the water flow is less powerful) are:

Spirit 300-HF(high flow) $1350 + shipping
Compact design that fits into any contemporary kitchen
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Spirit 300Cp-HR(high rejection) $1500 + shipping Compact design that fits into any contemporary kitchen, can connect to dish washer, coffee maker, ice machine/refrigerator
- Designed for Municipal water
- Superior Osmosis Technology
- Capacity up to 43.2 gallon per hour
- Director Flow, no need of tank
- Extra compact Design
- Advanced leak protection system
- Clean water per KWh: 377L/kWh (99.5 gallons/kWh)
- Clean water rate: of 99L/hour (26.2 gallons/hour)
- Dimensions: 150 x 462 x 365 mm(5.9 x 18.2 x 14.4 inches)
- Weight: 15 kgs (33lb)
- Water recovery rate: 40-60%

Please do not hesitate to get back if there is anything additional information you need from us. Attached is our catalog and photo how it looks in the kitchen.

Here are two reference you can contact at Flint, they are using our donated water purifiers now for producing pure water

Good afternoon.

Jay,
Are there any other locations we need to know about to secure our pallets?

5 Fire stations
GCCard
Bell Warehouse
Flint School Warehouse

Those are the locations we are aware of.

Thank you sir and have a great weekend.

Oh yes. I didn't think of that. There are pallets that go to the GCCard, which is at 2727 Lippincott. I'm not sure if any of your pallets have went there. We are trying to keep all of the big corporate water at our warehouse as it is easier to distribute from there. I've cc'd Jay Eickholt at the local EOC to see if he knows of any other places these pallets could be going.

Hello Wendy.

We are aware of the 5 Fire station water supply points and of course the Bell warehouse.
Are there any other locations the water is going we need to secure ?

Thanks

Thanks again Norwood. I forwarded this information to our warehouse manager, Bonnie. She now is up-to-speed on how the CHEP pallets work. Her cell number is . Please feel free to reach out to her now that "introductions" have been made. Let me know if you experience any problems.

Subject: CHEP Pallet Collection FLint, MI

Hello Wendy,

Thank you very much for your call. Please thank Maureen too. It has been difficult getting in contact with the correct person.

Per our phone conversation:

Many of our customers ship water on our CHEP Pallet platform.

Walmart, Coca-Cola, Nestlé, PepsiCo, SAMS, COSTCO, Aquahydrate etc.

They will be coming to your storage location 4315 Clio Rd, Flint, MI. Once empty we would like to collect the blue CHEP pallets and get them back into our system. It is much more environmentally friendly and a lower cost for all. If you separate the blue CHEP Pallets out at the warehouse, you can call or email me directly and we will collect at no cost to you. We can have a carrier at your location in about 2-3 days of your request for collection. We just need you to load them on the trailer.

There is a process in place if they cannot be separated. Dan Isaacs of D.I . Enterprises is currently collecting the whitewood pallets from the warehouse. He will bring the CHEPs and whitewood pallets back to his yard in Flint. He will separate them out and we will collect the CHEPs at his location. (The same process as if they were separated at Bell warehouse.) He is working with Matt Fletcher of DEQ.

The CHEP pallets are painted blue and marked CHEP with an 800 number on them. I also left a flyer with Bonnie Angel at the Bell warehouse.
Please do not buy or the sell the CHEPS as they are our private assets.

If you have any questions or concerns, feel free to call or email me.

Great talking with you.

Thanks again and take care.

Norwood

Spoke with the EM and these are more along the line of citizen welfare checks that the city should be completing. We don't want to get in the business of checking on each person who may call. If they have a specific request we can work from that.

I will see if the city or the EM can get this taken care of by the FD or PD.

Hi Jay,

May I get contact information for Mike Yankowski? We do not have an application on file for him.

Thank you!

Hi Liz,

For the MCCERCC we have a new person in mind for replacing Mr. Caris. The Lansing Chief of Police, Mike Yankowski will be completing the online application. The MCCERCC Chair Capt. Kelenske was the one who solicited Chief Yankowski to join.

Thanks,
-Jay Eickholt

Subject: Stocking PODs

After our call, Brent came up with a solution to re-stocking PODs that are low from other PODs with more supply. He has a few drivers assigned to Rapid Response and is not always busy. Therefore, we could consider this a Rapid Response request and have the POD report to the local EOC that they are low on supplies. The local EOC could put in a Rapid Response request to these drivers and they can deliver to that POD. How does this sound?

Hello Karen,

Jamie Gaskin looped me into an email from you on warehouse space in the Flint area that we may be able to use.

I have some background questions I need answers to. Are you available to talk sometime this afternoon? I am able to accommodate any time.

Thank you,

Jay Eickholt
MSP/EMHSD

To: MSP-seoclgc
Subject: RE: GCCARD refill

I just spoke with Matt at GCCARD and they are tracking who gets filters and route that info to DHHS for inclusion in the data. He is ok with us piecing this together around our inventory.

Will the SEOC be submitting this order? If so let me know we have a donated flatbed truck we can utilize for this shipment since everything is pallets and GCCARD has forklifts to be able to unload.

Subject: GCCARD refill

Hi Jay,

I just got a resource request to refill GCCard with:

2 pallets of Brita faucet filters,
1 pallet of Brita replacement filters
2 pallets of Zero Water pitchers. (8 cup if available, 23 cup if not)

I'm concerned at the quantity. Is he tracking who is getting the filters? I'm not sure I have all of this right now, can he do with less for now and we can do what we can? I'm not sure how much 2 pallets is, so if he could give specifics, that would be great.

Thanks.

Subject: RE: Water Tests

Good afternoon,

In light of the current water situation, Uptown has been proactive in testing and informing to the best of our ability. We have also directed tenants to the public information line so that they have the means necessary to obtain filters and water if they feel necessary. When the issue with legionella came about, I requested permission to order enough filters for one shower in each residential unit. However, after many calls and quite a bit of research, I found that the only system that can eliminate that particular bacteria is a reverse osmosis system. I felt ordering all of the shower filters may be a waste so I did not proceed. If you would like me to do otherwise please advise. I have been in contact with the public info line, "211" and was informed that we can get filters for all units, but have been unsuccessful so far. I am concerned that if we are the ones to install filters we would also be the ones liable if a filter fails someone. If you would like me to bypass the filters that are donated and order our own, please let me know, otherwise I will keep directing tenants to the distribution centers.

I have asked Tim Knecht to direct me in verbiage when addressing tenants and answering questions so that people are well informed, but we are also protected. There are a couple of questions I would like to be able to answer for Mr. Knecht so that he can direct me accordingly. 1. Should we organize regular testing, possibly monthly? 2. Is the plumbing in each building new or old predating the ban on lead solder? (1986)?

For your review I have attached a report including each building's testing dates, results, preventative measures and tenant interaction such as notices/memos. Also attached is the memo sent out by the Market staff, an estimate for FFM Filtration and the Chamber FAQ that I have forwarded to several people.

Please let me know if you feel there is anything else that needs to be done. Thank you!!

Kristy,

Out of curiosity will you please create a report that outlines any items that have been completed as it relates to the Flint Water. This should include on a building by building basis any water tests including dates and results, any preventative measures and all notices that have been provided to tenants.

Thanks

Subject: RE: Single Family filter needs

Thank you Mary. I will defer to MSP and I am looping them into this email.

MSP Team: MSHDA contacted 437 single family household in Flint yesterday that have a MSHDA financed mortgages to determine if they needed filters. Below is a list of 24 households that didn't have filters (pay no attention to the color differential) that would like them.

I wanted to share this list with your team before proceeding any further in order to get direction on how to best proceed. Your team was most helpful last Friday in getting the additional filters out to our two larger rental units and if you can do the same here, we would be most appreciative. If not, we are happy to deliver.

Brian.

Matt,

We are being asked to find out the following information for GCCARD.

Current inventory of water at GCCARD:
How much water has been donated so far at GCCARD:
Overall burn rate at GCCARD:
What has been distributed so far:

Do happen to know this information? If you don't please let me know that too and I will pass it along.

Thanks,

Jay Eickholt

Send to: Planning, Michelle Kuzera (to find out the Food bank info), Pam/Mary K. Thanks!

Captain Kelenske has a Senate Appropriations Committee meeting tomorrow. So by 10 a.m. we need the following:

Current water inventory in our warehouse:
How much water has been donated so far at the warehouse:
Overall warehouse burn rates:
What has been distributed so far:

How much water is at the Food Bank:
How much water has been donated so far at the Food Bank:
Overall burn rate at the Food bank:
What has been distributed so far:

Current inventory of water at GCCARD:
How much water has been donated so far at GCCARD:
Overall burn rate at GCCARD:
What has been distributed so far:

Matt,

We are being asked to find out the following information for GCCARD.

Current inventory of water at GCCARD:

How much water has been donated so far at GCCARD:

Overall burn rate at GCCARD:

What has been distributed so far:

Do happen to know this information? If you don't please let me know that too and I will pass it along.

Thanks,

Jay Eickholt
MSP/EMHSD

They are offering part of their warehouse that has a loading dock and is staffed with equipment from 8-5. It is located at 10132 N. Holly Rd, Holly. South of town but very close proximity to I-75.

Subject: RE: Businesses- chamber?

Carol,

I have a representative from the Chambers of Commerce in the Local EOC, however not today.

The Chamber is extremely in the loop and I'm hoping to have a representative from the Chamber in the JIC as well.

They are working on identifying a location where we can drop off water that restaurants can access.

Please let everyone asking that I am in constant contact with the Chambers, have met with multiple members, and am working with them to get whatever they need.

We are set.

> Shanon and my understanding is that businesses won't be turned away for resources. But you saw the earlier email that we're really encouraging people to take only one case of water per day. So they shouldn't expect that the water resource sites are going to become their source for customer water – but we realize staffers need water.
>
> Does that make sense? Anyone else, please weigh in if you believe we should answer differently.

> **Importance:** High

Hi Team,

If someone owns a business in flint- can they go to the fire station and get water/ water filters for their business?

If they own a home and a business- what is the protocol if they want resources for both locations?

Has anyone worked with the Chamber in Genesee County? Just had someone say that 2-1-1 referred them to the Chamber. They happened to be good friends with the President and the President was "out of the loop".

Dave,

Would the Red Cross be able to add the 24 homes listed below to the existing Red Cross deliveries?

Let me know.

Thanks,

Jay Eickholt

Thank you Mary. I will defer to MSP and I am looping them into this email.

MSP Team: MSHDA contacted 437 single family household in Flint yesterday that have a MSHDA financed mortgages to determine if they needed filters. Below is a list of 24 households that didn't have filters (pay no attention to the color differential) that would like them.

I wanted to share this list with your team before proceeding any further in order to get direction on how to best proceed. Your team was most helpful last Friday in getting the additional filters out to our two larger rental units and if you can do the same here, we would be most appreciative. If not, we are happy to deliver.

Brian.

Brian- The Homeownership Division has completed calls to 437 residents, asking if they need filters. This is a list of the only residents that still need them. Do you have a contact that will deliver these or do you want us to do this?

Hi Chrissy,

I am in the EOC with Janet and we have a solution to help remove some of the loose cases of water from your facility and transport them. Mobile Medical Response (MMR) will be sending a truck and volunteers to load the water. I will send them with your contact information so they can be in touch once they arrive on site.

Jay

Hi Janet,

We're currently overloaded, especially with regular (almost daily) donations coming in from ArtVan. If we could get some help moving the water out to other locations, we'd be happy to continue accepting donations.
One problem we're running into is that somehow word is being spread that we're accepting semi-trailers. WE ARE NOT! We don't have the capacity or ability or anything to unload them.

Thanks,

Chrissy Cooper

We do have a spare box truck to get that water. We also have a couple drivers that could help as well. I can have them meet you at the location with the truck. We can have them there whenever you need them.

Thanks,
Anthony

Subject: Truck to assist with moving water?

Good Morning,

Today is looking like it may be a slow day for rapid response requests. Lt Roach and myself were thinking we could organize an operation using a DTMB or DOC box truck and some red cross volunteers to help remove some water from a location where we temporarily stored it.

Do you know of a time that would be better for us to get a truck to the site?

Thanks,

Jay

Subject: Fw: Water bottle recycling for Flint

Mel,
Nice to meet you by email. I'm Matt Flechter, Recycling Market Development Specilist working primarily on implementing the Governor's Recycling Plan of Action. Bryce asked me to forward this information to you with the goal of identifying steps to take to facilitate a partnership to set up a collection program for water bottles in Flint.

As you can see below Shupan Recycling is interesting in donating resources to help set up the collection infrastructure to help manage the used water bottles.

This morning Amcor, a Michigan based plastic product manufacturer active in supporting the development of successful recycling programs, offered financial support to expand the collection network to all water distribution centers.

Bryce spoke to Director Creagh this morning and he requested we work through next steps with you. Please let us know how we can help move this forward.

Matt Flechter

From: Roger Cargill <rcargill@schupan.com>
Sent: Tuesday, January 12, 2016 4:52:22 PM
To: Flechter, Matt (DEQ)
Subject: Water bottle recycling for Flint

Matt,
Here is our proposal:

> Schupan Recycling would deliver two trailers to selected distribution centers. The distribution center staff would supply a recycling bag with each case of water given to a citizen. Each bag would have a flyer with instructions on how to recycle your water bottle and the expectation when the citizen returned for another case of water they would bring back a bag full of empties. Schupan Recycling will provide up to 70 cases of bags and the printed instruction guide. Schupan Recycling would need the distribution staff to attach the guide to the bag with a stapler insuring proper delivery of the educational message and place the full bags in the trailer provided.

Schupan Recycling would also produce a press release announcing the services provided for DEQ and the City of Flint.

Hope this is what you need.

thanks

Spoke with the EM and Lt. Roach they believe that getting water delivered around the city would not be an issue with the current distribution points. If it expands to more sites there may be a stretch for local resources and additional trucks/drivers may be needed. Getting water into the area would require outside transportation support.

Subject: Re: FD Address

We are waiting for the Flint fire chief to OK this plan. The fire stations would only be for the general public to drop off water they purchased and would like to donate. This came from people dropping off their donations to many spots. We want to get a few central sites for the donations so we can easily collect and distribute as needed.

The idea of using the fire stations for filter, water, testing kit distribution didn't come from the Genesee EOC.

Subject: Status Update

The Flint Fire Department, Chief Cox, has been contacted by Lt. Roach to confirm they are willing to be a "drop off AND distribution" site for filters, replacement cartridges, water and water testing kits. They are NOT, however, prepared to start today. They can accept all items and begin distribution tomorrow provided we supply volunteers.

We have

- Identified 5 Fire Station locations and received authorization to use these sites
- Identified 3 locations of resources (water, filters/cartridges, testing kits) to gather for delivery to fire stations
- Identified need for volunteers at fire stations, **DHHS are securing them to report tomorrow**
- Identified need for transportation of supplies - **DTMB has secured**

We have also begun the process for securing a single warehousing site to accommodate all items for donation and distribution to various locations around the city of Flint. – **THIS HAS BEEN PUT ON HOLD AT THIS TIME, HOWEVER A SITE HAS BEEN DETERMINED IF DEEMED NECESSARY**

Informational sheet is being developed to provide to the public as items are picked up and/or distributed by canvasing teams. **(Mr. Katarsky is working with Brianna)**

Teams are being assembled (as a PDA team would be) to **begin canvasing on Tuesday.**

Attachments: SEOC Schedule.xlsx

Importance: High

Good afternoon,

If you are receiving this email, it is because you have been assigned to work in the SEOC this week for the Flint Water Emergency. Attached is the staff assignment list. Please find your name and report to your assignment at 8 a.m. tomorrow (1/11) morning. The hours are 8 a.m. to 5 p.m. Lunch will be provided.

My cell number is

Thank you,

Wendy

Subject: Local Health Dept.

Michelle,

I just spoke to Jen Lixey, she indicated that she spoke to April Swartout, the local Health Dept Emergency Preparedness Coordinator, has the staff and ability to activate her local resources to do warehousing, inventory, transportation and distribution of all the supplies at the GCCard. April was going to either call Chris today or show up to the EOC to talk about what her capabilities are. If for some reason she does not have all the needed resources, she only needs to activate her state resource plan and DHHS will then send in a strike team to do it. When they do inventory, we can see it live here! They enter into a database that Jen can see here.

Obviously this is not a long-term plan, but it can help for a month or two at least. So get with April when she gets there or calls in and see what she can do.

Thanks! Good luck today ☺
Wendy

Subject: ACTION ITEMS

ACTION ITEMS:
1. PSA: Comcast will put a PSA on cable TV in Flint. Governor's Comms office to record PSA today in Flint and deliver to Comcast tomorrow. We need JIC to develop an approved script.

> **JIC Manager**, Nicole Lisabeth, understands this is tasked to her for your State Director approval.

2. Logistics:
- Need to get flyers, water, filters, refill cartridges and water testing kits to the comcast office in Flint. The comcast trucks can have the materials in them while they make service calls to customers in Flint. In addition to the materials, need to send someone to train comcast workers on filter installation. Will also need a way for them to let us know who they give filers too.
NEED: who is your lead? Let's put them in contact with Comcast ASAP
- Comcast has said they can have employees who can go door to door on the weekend

> This will be handled through the **local EOC logistics**. As we are currently combining all incoming commodities to one location, we will be able to deploy to Comcast through that process. Along with the commodities will be tracking cards to be completed to include addresses and items given.

3. Additional Public Info:
- Comcast can put up a video on On Demand with how to install water filters. Need to have a video for that. Perhaps the video that is on the mi.gov/flintwater website. Can we ask whoever made that video to add a graphic overlay that says: Call 211 for water resource center locations

> **DHHS** is researching the developer of this video, and we will learn capabilities to overlay with 211 information.

- Comcast Call: We have asked comcast to look into calling their customers with a PSA on where water resource centers are
- After these are implemented need a press release saying the partners who have helped us and what they have done

> **JIC Manager**, Nicole Lisabeth, will coordinate this message and press release.

OTHER ITEMS TO CONSIDER
- Do we need assistance coordinating the logistics? (Volunteers, water distribution, and partnering/tracking how outside groups are helping. i.e Comcast)

> This will be coordinated through the **local EOC Logistics**, Jay Eickholt

Thank you so much for volunteering to help take vehicles to Flint.

You will all take one car to the training center to pick up the keys to 2 Suburbans and 2 Crew Cab Trucks. The car that drives to the Training Center will follow the 4 vehicles to Flint and bring everyone back...hopefully you can trust that person not to leave you in Flint ☺...select your trusted person wisely.

The address is 2727 Lippincott Blvd., Flint, MI Attached are the directions from the Training Center.
It is the Genesee County Community Action Resource Department location.

Sam, please grab the keys from Joyce and meet everyone else in the lobby.

Please notify your supervisor upon your return.

Thanks,
Carly and Kristi

that process. Along with the commodities will be tracking cards to be completed to include addresses and items given.

Gabe, this is the plan for church delivery tomorrow: DTMB delivery of filters to Christ Fellowship Baptist Church, Deacon Gilcrest, 317 E. Hamilton Ave., Flint, MI. at 8:30pm. ARC volunteers will be there at that time. After that delivery, I would like DTMB to take the filters to the ARC facility located at 1401 S. Grand Traverse, Flint, and off load the filters into 7 ARC vehs. ARC will deliver them at the determined delivery times with the Pastors. ARC volunteers will stay on scene of all churches to help with distribution. This is due to the later delivery times requested by the 7 churches. I have talked to the Pastors direct ref deliveries tomorrow. Please let me know if you have any questions. BJ

Station #6 716 West Pierson Road

v. Fire Station #8 202 East Atherton Road

vi. Foss Avenue 1159 E Foss Ave

vii. Greater Flint Outreach 1114 University Drive

viii. Salvation Army- Beecher 1475 Coldwater Rd

ix. St Luke's Catholic Church 3115 Lawndale

3. The contact person for this at the Food Bank is ___Tina Martinez_

4. As of 01/11/16 The Food Bank is capable of distributing to these sights estimated 18 Semi-truck loads of water per week, or an average daily distribution of 41 pallets of water per day.

Small Water Donations from the Public

1. Household and individual donations should be directed to any City of Flint Fire Stations, Catholic Charites Center for Hope (downtown Flint), or Michigan State Police Post.
2. Once received donations should be arraigned through the Genesee County EOC Logistics or Donations Management for delivery and storage at the G-Card warehouse. They may need to be delivered by the donations sites.

EOC/SEOC Assistance

1. Work through possible in-kind donations or volunteers to provide Hi-Lo (electric fork truck) to assist the Food Bank with unloading and loading or donated water shipments.
2. Rent or secure trucks with lift gate or capability of unloading on –site
3. Provide certified Class A or B licensed drivers for trucks provided. The Food Bank will establish the coordination and shipment logistics for the deliveries.
    a. Trucks should have a "Food Bank of Eastern Michigan" sign or decal this will help with community recognition.
    b. If manpower is needed contact the SEOC for volunteers to be secured.

Subject: Food Bank EM Emergency Water Distribution 1/11/2016

Chris, Scott and Jay.

The follow outlines our discussion this morning. Provided we can maintain a consistent flow of water into the Food Bank this distribution plan could be achieved at minimal costs. Please review and let me now your thoughts and time table if you would like us to proceed. I will be meeting with my Executive Committee on Wednesday and would like to share your response.

Thanks Bill

Bulk Donations Management

1. Officially donated goods can be inspected and directed to an appropriate volunteer agency or other location for processing, storage, and distribution.
    a. The Genesee County EOC Logistics or Donations Management personnel will receive the initial request for donation. Recording needed information (quantity, shipment method, contact person). Once this information has been gathered Product will be shipped to a central EOC warehouse facility. The Food Bank of Eastern Michigan will maintain an inventory of four Semi-loads for a just in time distribution system. The Food Bank of Eastern Michigan will arrange delivery of product as needed to maintain a consistent flow of product to its distributions sights.
    b. All pre-approved palletized water deliveries should be directed to the:
        Food Bank of Eastern Michigan
        2300 Lapeer Rd
        Flint, MI 48503
        Contact Person: Tina Martinez_

2. Palletized water will be distributed to the following locations

Station #1	i. Fire 310 East 5th St.
Station #3 Luther King Ave	ii. Fire 1525 Martin
Station #5 Road	iii. Fire 3402 western
	iv. Fire

Importance: High

Michelle,

Sorry I missed your call.

We have two trucks coming to supply 4 teams. Each truck should be loaded with 200 cases of water, 200 water test kits, and 200 filters to get them started. Therefore, total for tomorrow's operation, we should plan on 400 of each for the Water Resource Teams.

I'm working on the details on the PUR filters. I'll keep you updated as soon as I know.

Thanks,
Brianna

Subject: RE: Resources for the Teams

It is our understanding that all supplies are going to be delivered to GCCARD and we will all be using the same supply. I believe Richard may have stated his purchase was for our deployment, however, all ordered supplies will be put into distribution for both the PODs and our teams. Does this make sense?

Importance: High

Effective immediately, hours of operation are 8 a.m. to 8 p.m. If there is any conflict in your schedule this week, please let your section chief know, or notify the Logistics Section chief to work on getting you a substitute. The schedule for the week will be posted by the sign-in sheet in the SEOC in case you no longer have the spreadsheet.

Thanks Wendy

Mr. Thomas:

Thank you so much for your generous contribution. This will help us greatly in maintaining adequate supplies of drinking water throughout the city. The best location to deliver the water would be to the Food Bank of Eastern Michigan which is located at 2300 Lapeer Road, Flint, MI. The contact for the facility is Tina and her phone number is [illegible]

It is my understanding that the delivery may take place tomorrow. Please coordinate with Tina for exact delivery details. If you need additional info about Food Bank of Eastern Michigan please contact the president William Kerr. His number is [illegible].

Thanks again!

Ron,

A quick follow up on the daily update email I just sent. 2-1-1 has compiled list of several people without transportation who need help getting filters. If we forward this list to you, can you pass it onto the sheriff's office for follow up? The majority are homebound elderly or disabled.

Any guidance you can provide is most appreciated.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department will send staff to Flint Community Schools' city wide parent meeting at Brownell STEM Academy. Genesee County Health Department representatives will present lead education. The presentation will take place on Wednesday, November 18 at 9:30 am.

- Brownell STEM Academy lead screening was hosted by Flint Community Schools with assistance from McLaren Health Plan and Genesee County Health Department. Twenty seven kids were tested. Test results will be mailed to parents in two weeks.

- During the 3:00 to 6:00 pm clinic, a combination of Pur and Brita water filters and replacement filters were distributed. A total of 60 filters and replacement filters were distributed.

- Genesee County Health Department, Genesee Health Plan, Crim Fitness Foundation, University of Michigan Flint Nursing Program, The MDHHS environmental consultants' ETC, and 211 exhibited at Brownell's lead screening clinic where they educated participants on lead preventative and nutrition.

- Home Depot was at Brownell's clinic answering water filter installation questions.

Genesee County Health Department is working with the CDC to develop phosphate educational materials.

United Way (UW) CEO, Jamie Gaskin and Genesee County Health Department Health Officer, Mark Valacak have been discussing the strategic use of Americore volunteers during this water crisis. Suggested volunteer work includes: distribution of filters, lead education, and assist at health fairs and at church exhibits. Volunteers may be available in February of 2016.

Genesee County Health Department's Nursing Director, Toni LaRocco, continues to develop partnerships with area churches to host blood lead screening clinics.

Genesee County Health Department is working with City of Flint Schools; Eisenhower and Freeman to develop blood lead screening clinics.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department (GCHD) will distribute an additional 100 water filters to the City of Flint for distribution at City of Hall.
- Besides all the water filter distribution occurring at the blood lead screening clinics and offsite exhibits by Genesee County Health Department's staff, the Health Department continues to distribute water filters at its Burton WIC clinic and continues to educate parents on lead in water issues. Distribution at the WIC clinic has been swift and additional inventory, another 100 water filters, will be added to the WIC distribution inventory.
- Genesee County Health Department will distribute a press release that supports Professor Marc Edwards, of Virginia Tech University's announcement that Flint residents do indeed need to continue to use water filters.
- After a through inventory of water filters, Michigan Department of Health and Human Services (MDHHS) will purchase more Pur replacement filters. As suggested by MDHHS staff, GCHD will inventory its supply of replacement filters and give inventory outcome to MDHHS.
- Genesee County Health Department will host blood lead screening clinics at Grace Emmanuel and Bethel United Methodist churches.

- Genesee County Health Department distributed a press release supporting Professor Marc Edwards' announcement to Flint residents to remind them that the water is still unsafe to drink without a faucet filter. Also, attached to the press release was a poster that list water filter distribution locations.

- Michigan Department of Health and Human Services and Genesee County Community Action Resource Department have distributed the following in November: water filters 778, Zero Water Pitchers 63, and replacement filters 924. Total filter distribution as of October 1 is 10,951.

- The MDEQ and the City are coordinating the distribution and analysis of containers (bottles) for water testing. Bottles are available at City Hall and the water plant. Genesee County Health Department does not have bottles for distribution. Customers' name, phone, and address are required to be documented on a form when the water sample is submitted for analysis, not when the bottle is picked up. Analysis is conducted in Lansing at the MDEQ lab.

Subject: RE: Genesee County Health Department EOC 12/7/15

- Mott Children's Health Center distributed 117 PUR filters (that you attach to the faucet, [part of the batch that the United Way purchased and was distributed at U of M Flint).

- Mott Children's Health Center's leadership has put together a lead information packet. The intent of the packet is to distribute to patients. The packet includes information on appropriate filters and resources and how to obtain them. Genesee County Health Department will update Mott Children's Health Center as necessary with new distribution locations.

- As noted by Mott Children's Health Center, most parents of newborns continue to use bottled water to mix with formula.

- Genesee County Health Department continues to distributed water filters at its lead screening clinic in Burton.

- After a complete inventory is taken at all water filter distribution sites of remaining water filter cartridges, The State of Michigan has agreed to purchase additional PUR replacement filters.

- As of December 4, Michigan Department of Health and Human Services has distributed the following:

Water Filters	11,046
Water Pitchers	184
Replacement Cartridges	1,073

- 12 Filters
- 17 Replacement Cartridges
- 2 PUR replacements
- 1 Pitcher

- Between December 11 and December 14, 2015, Genesee County Community Action Resource Department and Department Health Human Services distributed the following:
  - 78 filters
  - 6 pitchers
  - 53 replacement filters

- Sheryl Thompson from Michigan Department Health Human Services will order replacement filters when the inventory level reaches 500. After replacement cartridge order is placed, it takes a few days for delivery.
  - The Zero Water Pitcher replacement filters have been delivered. All sites will begin giving out a pitcher replacement filter with every Zero Water pitcher given out.

Summary October through December 14, 2015

	Received	Distributed	Remaining
Water Filters	15,000	11,232	**3,768**
Water Pitchers	720	229	**491**
Replacement Cartridges	9,000	1,258	**7,742**

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Genesee County Health Department, Clerical Coordinator, Lisa Stickler distributed 50 PUR water filters, 4 replacement PUR filters and 5 Brita replacement filters at Grace Emmanuel church on Saturday, Dec. 12.
- Genesee County Health Department screened over 50 people for lead at Grace Emmanuel church on Saturday, December 12.
- Genesee County Health Department's WIC program distributed water filters at Grace Emmanuel church on Saturday, December 12.

2. PUR – They have reached out to me again (Previously donated 2,000 faucet mount systems). I have directed them to consider donation of additional replacement filters and a financial donation. The financial donation would support shipping costs of more bottled water as well as possible prevention work.

3. ZeroWater – I am again working through some ideas with their CEO. He is very interested in the schools. I am not sure how this will develop.

*As we have shared in the past the distribution system currently has supplies of filter mount systems (PUR & Britta), replacement filters (PUR & Britta), and 8 cup pitchers (ZeroWater). If we get to levels below 500 available units for any system it is my understanding that this will serve as a trigger for us to resource more.

I also want to share that I have about $15,000 left of the more than $275k donated. As I get closer to expending all the funds the UW will continue to evaluate our own internal investment and make some adjustments. Please direct any possible financial investors to support the water fund either by calling me directly or making even small donations on our website. I will also be working with Isaiah Oliver at the Community Foundation around the MI Health Endowment Funds. Both the United Way and the Community Foundation are committed to working together and trying to maintain maximum flexibility as the situation develops.

I will follow-up though the normal Health Department updates moving forward but I just felt it necessary to try to bring everyone up to speed on developing work. If you have any questions for me please let me know. I will be available all through the Holiday period via cell phone and I will only be out of town from Christmas eve through the following Saturday. Please do not hesitate to call me for any reason.

- City of Flint picked up Two Hundred (200) ZeroWater 8-Cup Filter Pitchers from Flint Community Schools 12/14/15 for distribution.

- The Genesee County Health Department has a total of 1,650 Pur water filters for distribution.

- Mott Children's Center will give City of Flint 117 water filters from the first batch of filters distributed at U of M Flint.

- Department of Health and Human Services and GCCARD attended the Health Fair on Saturday, December 12 and distributed the following at Bethel United Methodist Church's health fair.

- If your agency would like an updated list of water distribution sites, please contact Dan at 396-0222 or dfilipovich@feedingamerica.org.

- Agencies can also direct everyone to fbem.org. Use the drop down tab that says FIND HELP. At this point your clients will be asked their zip code and then they will be directed to the nearest pantry that is an agency of the Food Bank.

We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Today, Michigan Department of Health and Human Services (MDHHS) received approval from Department of Environmental Quality (DEQ) to allow the use and public display of the Bath Time Poster that was developed to address individuals' concerns about using the water to bathe their children (see attached). The Genesee County Health Department encourages all agencies to display the bath time poster.

- Hurley Children's Hospital with MSU extension will offer their first lead focused cooking class at the Farmers' Market this Saturday. Lead focused nutrition recipes and resource book will be distributed at the cooking class . Press release promoting the cooking class will go out tomorrow.

- Mott Children's Health Center continues to work with City of Flint to pick up PUR filters.

From Jamie Gaskin
Over the past 48 hours some additional support has started to surface given the National and regional media coverage. These are all developing streams of possible support and generally reflect organizations and business that got connected several months ago during our initial response. These are developing but I wanted to loop in all of you as this develops and also share some basic information:

1. MSP has again surfaced another source of bulk water that is Federal surplus. This water is free as long as we pay for shipping. I have looped in Bill Kerr at the foodbank as his team is really managing the logistics and understands the local demand and the ability of the local distribution system to handle storage etc.. These shipments come at the cost of shipping. This is about ½ the cost of buying the water and shipping ranges from between $1000-$2,000 per semi.

- If you cannot attend the 12/22 water crisis meeting at Genesee County Health Department's library, but would like to participate, please call: 641.715.3580 and use access code: 307286.
- Michigan Department of Health and Human Services' Deputy Director of Field Operations, Sheryl Thompson, is working on obtaining several pallets of bottled water for drinking as well as "cans" of water that can be used for bathing, toileting, and cleaning only. The canned water is perfect for families experiencing large water bills and or possible shut offs.
- Genesee County Health Department distributed 100 PUR water filters to Hurley Children's Hospital for its first lead focused cooking class at the Flint Farmers' Market this past Saturday. The cooking classes were hosted by the MSU extension. Waiting is the plan after all testing? Using the recommendations from DEQ, which includes labor and staff overtime. Super will use recommendations. We don't funding so we are creating the plan.

American Red Cross, Genesee-Lapeer chapter in conjunction with their fire education and prevention program is working with the Genesee County Health Department to develop a community outreach program around lead concerns. The daily water crisis update will not be distributed on December 24 or 25. The next update will be distributed on Monday, December 28.

Happy Holidays to you and yours!

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- If you cannot attend the 12/29 water crisis meeting at Genesee County Health Department's library, but would like to participate, please call:
- Michigan Department Environmental Quality (DEQ) continues to take water samples at Flint Community Schools. DEQ will take water samples from the two Flint high schools, Southwestern Classic Academy and Northwestern High School on December: 28, 29 and 30.

Replacement Cartridges - Brita	1,475	**7,525**
Replacement Cartridges – PUR*	74	**5,632**
Replacement Cartridges - Zero	5	**370**

*Please note that MDHHS did not buy the current PUR filters being distributed. Once these are exhausted if needed DHHS will purchase PUR replacements.

FOR IMMEDIATE RELEASE

GENESEE COUNTY COMMISSIONERS DECLARE EMERGENCY

Flint, MI -- January 4, 2016 – During their first board meeting of the year, Monday morning, Genesee County Commissioners declared a state of emergency in Genesee County. The move a sign that county leaders support Flint Mayor Dr. Karen Weaver and her efforts to get resources and relief to the residents suffering from the ongoing water situation in the city.

Mayor Weaver declared a state of emergency in Flint last month to raise awareness about the severity of the problems surrounding the water situation that continues to effect residents. The problems a result of the man-made disaster caused by the city switching to the Flint River as a water source in 2014.

Following the board's vote today, Genesee County Commission Chairperson, Jaime Curtis said, "This is a state, man-made disaster and we're going to ask the state to fix their disaster. Curtis also said, "Genesee County is the fifth largest county in Michigan and we will not be ignored."

Mayor Weaver hopes the county's show of support will convince the Governor to provide the City of Flint with financial support to help leaders address immediate infrastructure needs. Those needs include more than $45 million to replace every identified lead pipe in the city, reimbursement of the $2 million spent to switch back to the Detroit Water Sewerage Department, $6 million to help with the transfer to the Karegnondi pipeline and additional resources to support the city's Heath Initiative to assist affected adults and children in Flint who have consumed water contaminated with lead.

In an interview with media after the board's emergency declaration Mayor Weaver said, "It's a victory and a step in the right direction." The mayor plans to meet with Governor Snyder in Lansing Thursday of this week to discuss the state's response and next steps.

We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Based on a recent abc12 news segment regarding Flint residents not using, or not knowing where to pick up a water filters prompted the idea of hosting a joint agency press conference. The press conference would cover the following information: where and when water filters can be picked up, dispel misinformation regarding the Detroit water, water filter usage, and nutrition information.

- Attached is a draft list of talking points for water donations developed by the United Way of Genesee County for review.

- If you would like to assist with the development of consistent messaging regarding the water situation, please contact Sean Kammer at or email Kristin Moore at kmoore@cityof flint.com.

- There are still plenty of 8 cup water pitchers for distribution. Please contact: **Anthony M. Sitko** – Director of Shared Services, Flint Community Schools, or tsitko@flintschools.org or Matt Purcell at GCARD, MPurcell@co.genesee.mi.us.

- With regards to water filter distribution, it was suggested by Genesee County Health Department Community Health Director, Tamara Brickey that we as agencies need to go where residents congregate: churches, clubs, senior cents, etc. to distribute water filters.

If you have nothing new to share, please inform Hilda that you have no updates at this time.

- Today, Genesee County Health Department's Community Health Director, Tamara Brickey met with DaVita staff to discuss plans for ongoing water filter distribution. One hundred water filters were also distributed to the DaVita office located at Hurly Medical Center.
- Through Facebook and Twitter, Genesee County Health Department distributed Michigan State University Extension and Hurley Children's Hospital's nutrition booklet. The "Nutrition & Lead" booklet highlights healthful, cost-effective meals that help lessen the harmful effects of lead. I've attached the low-resolution graphic developed by MSU Extension staff. You are encouraged to post the graphic on your social media platforms and website. As instructed by Extension staff, please link the graphic to the "Nutrition & Lead" booklet found on the Extension's website.
- In partnership with Molina HealthCare of Michigan and Flint Community Schools, Genesee County Health Department's Nursing Supervisor Toni LaRocco has assisted with the development of four upcoming lead screening events at the following locations:
    - Flint Community School, Freeman Elementary School: January 12, 2016
    - Flint Community School, Eisenhower School: January 26, 2016
    - Carriage Town Ministries, February 4, 2016
    - Carriage Town Ministries, February 8, 2016

  To help spread the word of the above events, I have attached the event flyers for Freeman Elementary School and Carriage Town Ministries lead screening events. I have also attached a low-resolution graphic for website and social media posting that promotes the February 4, Carriage Town lead screening event . Please help us promote these very important lead screening events by posting the flyer and/or low-resolution ad on your social media platforms, website, or simply print copies of the flyer and distribute to appropriate clients who will benefit from this service.

- Genesee County Health Department's Nursing Supervisor, Toni LaRocco is currently working with Meridian Health Plan to develop future lead screening clinics.

This is an informational update and the Genesee County Health Department will provide these updates on a daily basis after 4 pm. We are asking all partners included in this email to provide any pertinent updates **DAILY** to Hilda McShane by 2:00pm. If you have nothing new to share, please inform Hilda that you have no updates at this time.

The information below is from Sheryl Thompson, Michigan Department of Health and Human Services.

- 92 pallets of water coming out of South Carolina. There are 24 bottles per case. I am estimating there should be between 135,000 – 185,000 bottles of water being shipped. Three semi loads will be delivered on Wednesday (1/13) and two more will be delivered on Friday (1/15). I am working with another state warehouse in South Carolina to see if they are willing to transfer more water to Michigan. They may have between 100-150 more pallets of bottled water. There will also be about 2 million liters of bottled water coming available in the next couple of weeks that may be allocated to the State of Michigan. I will keep you updated as I receive more info on this.

- Beginning tomorrow MDHHS will have teams of 16 staff going out door to door to distribute filters and bottled water alongside the Michigan State Police.

- I am also awaiting another large shipment of Brita filters and Brita, PUR and Zero water replacement filters for the county distribution efforts as well as Zero Water pitchers on this week.

Hi Chris,

Thanks again for returning my call. We are very appreciative of any support Comcast can offer. I've cc'd Jay Eickholt, our Logistics person in Flint at the local EOC. He will be reaching out to you after this email.

I checked on the filters, the integrity of the filters is not lost if left in the truck overnight, in the freezing cold. They still work perfectly fine as long as they are still in their original packaging. And they do come individually wrapped. Also, we are not installing filters for anyone, we are simply passing them out and if asked, providing direction. Our staff provided training to the teams that are going out tomorrow on how to install them, however, each filter comes with directions on how to install them.

Again, Jay will be reaching out to you in the near future. Jay, Chris's phone number is:

I was also told there is an app already created that our GIS staff is sending with the teams tomorrow. I could connect you with them if you are interested?

Thanks again. I cannot express our gratitude for Comcast's assistance.

Sent: Tuesday, January 12, 2016 4:25 PM
To: Eickholt, Jay (MSP)
Subject: Volunteers needed for water resource teams in Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

This email was sent to eickholtj1@michigan.gov using GovDelivery, on behalf of: Michigan State Police · 333 S. Grand Ave · P.O. Box 30634 · Lansing, MI 48933

Subject: RE: Coding for City of Flint Water Contamination incident
Attachments: DCDS Hours Entry by Coding Block.docx

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Geralyn,

I have another client (in addition to Wal Mart) who would like to be helpful in getting some water to Flint. Diageo is interested in bringing up to two semis full of water to the area but I need some logistical help. They would like to make this happen asap. Can you help me coordinate? Thanks Rob.

Shawn,

Could you please set aside 120 of the following: filters, filter replacement cartridges, and water test kits. These would be picked up by the Mass Transit Authority (MTA). I will get the point of contact for the pick-up once I have it.

Also please reserve 400 filters for the canvasing teams for tomorrow.

Thank you

-Jay

Subject: Re: Semi Trucks

Good morning ,

Sorry for the delay responding. There was a glitch at the beginning but we unloaded 18 trucks. Finished about 8pm. I understand the project may move to a different location.
Anything we can do to assist let me know.

Thank you,
Bob

Mr. Scherman,
There were 4 Semi trucks unloaded at the 1st facility. The School Superintendent asked them not to unload any more. We went to the Department of Education, they do not have legal jurisdiction over School Superintendents.
Mark, Michigan State Police, is trying to go to the alternate ware house to see if you can take the other trucks today.

Subject: Comcast Filters

Shawn,

Comcast will be doing in home distribution during service calls within the city of flint and to have them at their payment center. They are requesting 1,000 filters and will stock 10 on a truck. They are open to taking a smaller amount (500) at first. They are able to pick-up from GCCARD. They don't want any water.

I can coordinate with Comcast once the stock is ready if you wish. The contact at Comcast is Chris,

Subject: Comcast Filters

Shawn,

Comcast will be doing in home distribution during service calls within the city of flint and to have them at their payment center. They are requesting 1,000 filters and will stock 10 on a truck. They are open to taking a smaller amount (500) at first. They are able to pick-up from GCCARD. They don't want any water.

I can coordinate with Comcast once the stock is ready if you wish. The contact at Comcast is Chris,

They were ok on waiting until we had enough supply to stock them. Once we have enough in stock where we can send out 1,000 we can contact them for pick-up.

When do they want to do this? How are they tracking it? Do they have our app? How will they report distribution? We need this information for our checks and balances. Water is less important, but filters need to be tracked. Thanks.

Subject: Clio Rd. Warehouse

Any media requests to go see the warehouse, should be directed to the JIC. I've talked to Shanon Banner and indicated that we don't want media there. She indicated that they will do everything in their power to get there unless we talk about it so she encouraged us to do a media preview at some point in the near future, where it is managed, scheduled and planned for. I told her that there is nothing there to see right now, that we only just started moving in and there is only one dock. She would still like to hold some sort of a managed event in the near future when materials start regularly getting moved there. We just aren't up and running at this time.

Subject: *Transition Issues from State to Private Operations*

Wendy,

I had some initial discussions with Tina Martinez at the Food Bank regarding transition issues. The local EOC initially identified the Food Bank as the most probably local entity to take over the long term distribution of water. They currently distribute to 4 mass feeding sites which are called: Salvation Army – Beecher which is on the north side, Greater Flint Outreach which is on the south east side, Foss Avenue which is north, and Christ Enrichment Center which is central Flint.

With the addition of the 5 existing fire stations and the 4 mass feeding sites, Tina thought they could probably cover all of these areas. One question would be if these 9 locations would be adequate to supply the City's needs for water. Another issue would be how often would deliveries be made and how would the water be distributed to residents once the deliveries are made.

In addition, when the local EOC spoke with Bill Kerr the CEO for Food Bank he indicated that they were not interested in delivering filters or replacement cartridges. These may need to be stored and distributed at a larger facility so that daily transportation is not an issue.

Tina would like the SEOC to contact her to discuss if the Food Bank is still being considered to be a main distribution facility and what the time frame would be anticipated for this to occur.

In addition, Tina asked if any recycling plans have been considered to deal with the large influx of plastic bottles that are being generated. She has received several questions for people donating water regarding this issue.

The counties that have students enrolled and we are requesting data for are the following:

1. Livingston
2. Macomb
3. Monroe
4. Oakland
5. Washtenaw
6. Wayne

Data can be sent through a virtual site, that we had discussed: Go to http://www.wetransfer.com and skip the first page to the data upload page. You can send up to 2 gigs of information at once.

If you have any questions regarding the course or for the instructors, please feel free to contact us.

Thank you for your time.

Respectfully,

E. Stefan Coutoulakis

Subject: UPCOMING PER-229-1 ICAMEO COURSE & DATA REQUEST

Sir,

First, I wanted to express my thanks for our conversation this morning. I understand how busy you are and certainly appreciated the time you could afford.

As we discussed, there has been a request to host and deliver the Introduction to CAMEO Course in Farmington Hills, MI beginning on January 19, 2016. As this is a consortium based program, NCBRT (National Center for Biological Research Training, LSU) will be delivering not only the basic course but, the Train-the-Trainer component as well.

In the past, NCBRT has delivered similar programs throughout Michigan with the State Police as the sponsoring entity. Its success has been evident as we were requested to provide additional training.

As you are aware, the CAMEO software suite of programs is primarily a clearinghouse for hazardous material reporting sites (Tier 2) that first responders and planners could utilize to perform activities in order to create, mitigate and improve activities related to these types of facilities and their routes. In addition, CAMEO provides a platform for all disciplines to begin various types of planning and emergency response efforts from an "all-hazards" prospective; adopting the whole community process.

Having specific information relating to the area we are performing the delivery in is paramount. As we already have information regarding off-site consequence facilities (special locations, resources and routes) we are requesting access to the Tier 2 files for your region. This data acquisition would be utilized strictly for the class, as we want to encourage all participants to establish a relationship with local authorities that maintain this data on a regular basis.

In the past we have made similar requests to your predecessor, Susan Parker and have experienced positive feedback and success regarding our efforts. As this is your standing project, we wanted to afford you the respect of making a similar request and adhering to your process of information distribution.

We do not have that info available at the EOC. I think Shawn at ARC at GCCARD would be the contact for that info. We did process around 1500 test kits for delivery and most of those were shipped out along with the ones already at GCCARD (probably around 3000 total went out).

Subject: Teams tomorrow

Importance: High

Okay, I'm getting all the questions for the teams and I know nothing about them. Since I'm logistics on the state side, I should probably know. So, here are a few questions...

1. How many teams?
2. How many volunteers on a team?
3. Where are they reporting to?
4. Who do they report to?
5. Do you have enough transport vehicles?
6. Do you have enough supply vehicles?
7. Do you need all the DOC crews back tomorrow?
    a. Here are all the resources they had today and they are mirroring it tomorrow. (If this is not what is needed, this needs to be stated in the resource request. Nothing is getting updated.)

    Today we had 21 staff and 15 vehicles dedicated (on site) to the response, additionally we have 4 pallet jacks, one refrigerated semi-trailer and three MDOC staff assigned to the SEOC location. Information is as follows:

    (6) Large Box trucks
    (5) 15 passenger vans
    (2) Pick-up trucks
    (2) enclosed trailers
    (1)Handicap Van
    (1)20 passenger Van

8. If you do need them, where are they reporting? I would like 2 for the GCCard Hot shots operation please.
9. If we are expecting 100+ people, I think it's a good idea to have the Penske trucks? Especially to offset the DOC crews, since we are paying them and the Penske are free.

Please advise ASAP!

Per our phone conversation today I'm providing you with the information on the 2 apartment complexes we manage that are still in need of water filters (see below). As you stated we can expect the water filters within the next two business days and we will install them promptly.

River Village
702 Father Dukette Blvd.
340 apartments
Shelly Humbel is the contact and is copied above

Ridgecrest Village
1069 Ridgecrest Dr.
163 apartments
Tonya Morris is the contact and is copied above

Thank you for your assistance in this matter.

Subject: Water Filters for River Village and Ridgecrest Village

Hello Mr. Nolden,

above and the 2 DOC trucks and trailers you requested today. The sheriff department is using some DOC vehicles as well. I did not cancel those requests as they were not my requests. If the sheriff department does not need them anymore, they will need to cancel their request by contacting you.

9. If we are expecting 100+ people, I think it's a good idea to have the Penske trucks? Especially to offset the DOC crews, since we are paying them and the Penske are free.

We are using 8 U haul trucks that are tasked to the Water Response Team mission in addition to the 4 DOC vehicles listed above. If you want to use Penske trucks instead of U Haul trucks, DTMB will need to coordinate that change. However, the Penske trucks should be low level trucks that can be loaded from the ground without a lift gate or fork lift. (Step up/step in height.

Please advise ASAP!

Subject: Teams tomorrow
Importance: High

Okay, I'm getting all the questions for the teams and I know nothing about them. Since I'm logistics on the state side, I should probably know. So, here are a few questions...

1. How many teams? **Kish?**
2. How many volunteers on a team? **Kish?**
3. Where are they reporting to? **Local EOC, 1101 Beach Street, parking at corner of Beach and 8th**
4. Who do they report to? **Kish and his local commander**
5. Do you have enough transport vehicles? **yes**
6. Do you have enough supply vehicles? **Yes**
7. Do you need all the DOC crews back tomorrow? **No, we need 4 short box trucks, DOC calls them Cubes. The resource request has been updated in MiCIMS and this was communicated to DOC. The vehicles they had there today apparently are loaded with product and will need to be unloaded or used tomorrow, so they will be there first thing in the morning and need to be dealt with.**
    a. Here are all the resources they had today and they are mirroring it tomorrow. (If this is not what is needed, this needs to be stated in the resource request. Nothing is getting updated.) **This has been updated, see #7. The below resources that do not fit within #7 may be related to other operations, so I cannot cancel them all. However, I did cancel the passenger vans, handicap van, pickup trucks, and trailers for Water Response Team operations. We left 2 pickup trucks with trailers for "Hot Shot" use**

    Today we had 21 staff and 15 vehicles dedicated (on site) to the response, additionally we have 4 pallet jacks, one refrigerated semi-trailer and three MDOC staff assigned to the SEOC location. Information is as follows:

    (6) Large Box trucks
    (5) 15 passenger vans
    (2) Pick-up trucks
    (2) enclosed trailers
    (1)Handicap Van
    (1)20 passenger Van

8. If you do need them, where are they reporting? **The 4 we have requested should report to the Local EOC.** I would like 2 for the GCCard Hot shots operation please. **Feel free to use any, otherwise unallocated DOC vehicles for your needs. I have cancelled all requests in MiCIMS for all DOC assets other than the 4 vehicles we have requested**

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is . The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call.

Thanks!

Amy

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

On Mon, Dec 21, 2015 at 10:01 AM, Jamie Gaskin <jgaskin@unitedwaygenesee.org> wrote:

Scott:

Thanks for reaching out. The United Way has been purchasing between 3-4 trucks of water each month. The last several trucks have been "free" surplus water from locations in Maryland and I believe we have a connection with water in North Carolina.

Our only cost is shipping. We can ship for a very inexpensive cost from the east coast but the shipping cost pushes up if we transport from south or west.

Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Good Morning Jay, I received the following message to respond to. I found out late last night that I would begin receiving some of these requests. I'm hoping you can provide me some guidance. What has been your process for responding to these requests? Can you send me the full contact information for John Fouts? Also, do call ahead to John to let him know about the potential donation? I'm telecommuting today and will not be in the EOC. Thank you! Janet

Good evening - we have a company that would like to donate a semi truck of boxed water as soon as possible. The contact person is listed below.

Thanks

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Hi Scott –

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call

Thanks!
Amy

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

Subject: *Re: City of Flint - Water Issue*

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

Scott:

Thanks for reaching out. The United Way has been purchasing between 3-4 trucks of water each month. The last several trucks have been "free" surplus water from locations in Maryland and I believe we have a connection with water in North Carolina.

Our only cost is shipping. We can ship for a very inexpensive cost from the east coast but the shipping cost pushes up if we transport from south or west.

Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

The United Way of Genesee County has been picking up the cost for this transportation and any purchasing costs.

Please connect directly with Bill Kerr on the water you have and the availability. I have cced him into this email. Thanks so very much!

Subject: Re: Penske trucks donation/support

We will need drivers to go with these trucks. The trucks should be low entry as well (not normal box trucks with lift gates as the local WRTs very much prefer the low entry).

On Jan 15, 2016, at 8:44 AM, MSP-EOC-MDSP <MSP-EOC-MDSP@michigan.gov> wrote:

Sir,

We are paying for the Uhaul trucks that we are currently using. We can demobilize those units if you can support this effort as you stated. We greatly appreciate Penske's offer to donate trucks to assist in providing relief to the affected citizens and communities in Flint.

Thank you, F/Lt. Johnson

Subject: RE: Penske trucks donation/support

Thank you Mike.

Are there currently any rental units being used in this effort that you are paying for? As we mentioned, we would love to help in this cause and will be willing to donate the trucks for free. I just wanted to make sure you weren't paying for anything that we can provide at no cost.

Thank you,

Steven Edge

Subject: RE: Coding for City of Flint Water Contamination incident

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

3700 Enterprise Dr
Allen Park, MI 48101 USA

Check out our blog for news and event info: Blog.GoPenske.com

1) First site has already been identified (a church).

2) If all goes well (lab tests "pass", local Flint gov't doesn't get heavy handed and force a legal stop between private donations and a church), we can install the first system at that church next week, on Friday, January 22, 2016. We can observe how the community responds to this solution, and then decide to improve the process, scale it, or stop the effort.

We invite Genesee county officials, and Flint officials, to help "aim us", and to partner with us. We offer one alternative among many. It's worth trying. Keep trying your other solutions as well. It's how we do things in Silicon Valley: try several approaches, learn what works where, and apply as appropriate. Stop doing the things that don't yield productive results.

Additional references on the company, on our products, can be supplied. These include California fire chiefs, Maasai tribe chief, a medical/ER doctor, FEMA officials, a manager from International Medical Corp, etc. I don't know if anybody from US AID will go on record for us - yet, but we work with them, too. If you want my FEMA guys to work with your FEMA guys, or your fire chiefs to work with my fire chiefs, or my California or Ohio water testing lab guys to work with your water testing lab guys, we can do that too.

b. Lab will use a sample of Flint tap water, mix in the chemicals to duplicate what is expected to be used to re-oxidize the pipes, and verify the purity of the output water.

c. Of course, after the damage to credibility, many users of this machine might continue to keep it installed for their drinking and cooking water.

Proposed priority of installation (by our private donors): If other purchasers wish to install, they can choose to do this also.

1) The poorest of the poor. Work with churches, community centers.

2) Preschools and elementary schools, where the lead is most harmful.

3) Hospitals, and first responders.

a. There is zero enthusiasm from private donors to pay for water purification machines for public governmental buildings in the region, as you might imagine.

b. There is also zero enthusiasm from private donors to pay for water purification machines for individual homes or apartments.

Scalability/Water Purification Machine Distribution method:

1) Hire Flint veterans to do the install; pay them through an existing 501 c 3 set up to do such work in Michigan.

2) Manager will be a Flint native (friend of the company).

3) We'll use some kind of home/church/community center as a staging area, to physically receive the units, for the veterans to arrive at daily, to be trained, and they get paid at the end of each day, after the recipient signs off on the installation/verification/trained on test procedure (use the test strips, when they change color, replace the filter). Sign off by the recipient is also a liability waiver of future lawsuits for lead poisoning by us. We are trying to help clean up the mess, not be responsible for past mistakes by others.

4) From the Rotary Club in California, we'll also work with the Rotary Club in Flint.

Drinking Water Distribution Method:

1) Similar to what we do for earthquake preparedness in California, identify a suitable community based location as the water source, close enough for people to easily walk to.

2) Have individual people walk to the clean water place, fill up their containers, and carry them back home.

First Installation:

* Flow rate: 0.6 gallon per minute output. Input restrictor used to manage the flow rate through the lead removing substrate.

* Additional purification methods: 0.5 micron mechanical filtration, followed by UV blast at 42k mV/cm**3/sec (2.8x WHO spec). EPA calls our output water "sterilized" suitable for surgical/operating room use.

* Base Price: $1,200/unit.

* Consumable lead filter lifetime/replacement cost: about 2,000 gallons (test strip cost about $0.50/test), @ 0.6 gpm that's a replacement about every 2.3 days - if run continuously, filling water storage tanks.

* So cost for 1M gallons of "sterilized" lead free water, is the $1,200 + 50 replacement filters ($10,000)= about $0.012/gallon or $0.003/liter. Bottled water, purchased at the pallet level, sells for about $0.50/liter. Bottled water cost will be some 170x more than manufacturing purified water out of the water in the municipal water supply right now. Let alone the storage costs, the transportation costs, the distribution costs, the labor costs of the National Guard troops, the additional costs of waste disposal of the trash mountains.

People served/unit: at 0.6gpm, that makes 864 gallons/24 hrs, or 3,283 liters/24 hrs.

* WHO requirements are 2 liters/person/day for drinking water, so each unit is good for some 1,641 people/day.

* WHO requirements for cooking water, washing up water, etc are 10 liters/person/day, so that works out to about 328 people/day/unit. This unit is sized for a community, overkill for one individual home.

* In California earthquake preparedness applications, we actually plan one unit for every 250 people. That means we don't have to monitor/run it 24/7. We also don't know who has stockpiled their own water, who is in living in Town when the emergency strikes, etc. It also means that we have excess capacity/redundancy in the overall system for a city, in case one unit fails, in case one community's source water disappears, etc.

Project Status:

1) Undersink/AC powered version already installed in Toledo, Ohio; used to take the algae out of the Lake Erie toxic bloom.

2) A pair of units for Flint lead removal have been built. These have pressure reducing flow restrictors on the input, to control the output flow rate down to 0.6 gpm off 80PSI municipal water line.

3) Flint water is being collected tomorrow, using EPA methods by a licensed and trained professional engineer, and transported down to a certified lab in Ohio. We should have the formal certified lab test results by middle of next week, for review by any water engineer/public or private person.

a. Lab is also instructed to test/confirm that the chemicals that will be used to recoat the pipes with an insulating layer of oxidation, can themselves be filtered out of the input water, using a fresh $20 filter in this water purifier. So whenever Flint Water Company chooses to put the chemicals in the system to "re-line" the inside of the pipes through the entire distribution system, the only thing each system user will need to do is to change out the filter, one time (takes 1 minute), turn the water on and clean drinking water is again flowing out of the purification unit - until the time that Flint Muni Water says that the "flushing" is complete.

We set up a "Go Fund Me" website, and have donors ready to buy them, so we can install them. We have one pastor at one church in Flint ready to receive the unit. He will use this unit to produce clean drinking water for his community.

I have asked my brother's company to 1) go through a rigorous and formal lab certification process, before any installation, 2) attempt to work with the local people "in charge", don't just go around them. That's why I am reaching out to you, and copying the two principals of the company on this thread. Joe lives near Detroit, and runs engineering. Charles lives near Grand Rapids, and runs manufacturing.

We can bring some Si Valley money + public donations to help the poorest of the poor, with a solution that could be installed broadly within a week. We view this as a similar effort to the private relief efforts we did for earthquake relief in Nepal, and for drought relief (forcing consumption of known contaminated water) in Kenya. In California, for the earthquake preparedness, we work with a public/private model, working through the fire departments, the city/county emergency managers, the city/Town managers, and private home/business owners (i.e. owners of the private water sources).

Please contact me, or forward this email to your person who is looking at solutions besides bottled water. The cost of that much bottled water, and the mountains of discarded bottles it produces, will both be staggering.

Regards,

John Novitsky

Woodside, Ca

The following is a "strawman" plan. It is not a formally committed, agreed to, or a binding commitment. It represents the current thinking by the managers of Merlin Ecosolutions + friends of the company + private donors, as of Friday, January 15, 2016. We invite and welcome the comments of the Flint government officials, and invite them to observe this unique program, intended to offer a very low cost and highly reliable alternative to mass distribution of bottled water. Our thinking is that if it works, and works very well on the first couple of installations, then we scale the solution to communities where appropriate, and stop doing it when it no longer makes sense.

Company name/product info: Merlin Eco Solutions www.merlinecosolutions.com

Rough product description: 120V AC powered water purification system, derived from our portable solar powered unit.

Chris-

I suspect that you are overwhelmed with the Flint water crisis.

I am a Mich State Univ grad (Evans Scholar) living in California/Si Valley. I am in my local Rotary Club; Amy Krug, president of the Flint Rotary Club gave me your contact info.

My brother lives in Detroit, and designed a water purifier that is in use in California (Earthquake preparedness), in Nepal (earthquake relief), and in Kenya (purifying the water for the Maasai out on the Serengetti). The water purification machine is manufactured near Grand Rapids, and has passed the US EPA water quality tests, in addition to state level tests in California, in Michigan, in Oregon and in Minnesota.

Carly,

Attached is the January 15, 2016 quarterly progress report for the work to repair the retention treatment basin in Oakland County that was damaged as a result of the Aug 11, 2014 rain event.

Our contractor has been busy working through December and January and has all of the new actuators installed as well as various electrical repairs completed.

Please let me know if you have any questions.

Subject: DR-4195 Quarterly Report

All:

Our records indicate your jurisdiction currently has an open large project (total cost over $120,000) resulting from presidentially declared disaster, DR-4195. Per the signed grant agreement, your jurisdiction must submit a quarterly progress report for all open large projects. Only one report should be submitted listing all open large projects.

Attached is a copy of the new quarterly progress report. The completed report should be emailed to MSP-EMHSD@michigan.gov **no later than January 15.**

If you have questions on the open projects your jurisdiction should be reporting on, please contact us as soon as possible.

Thank you,

Brianna Briggs

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working overtime for the City of Flint Contamination/Shortage event. Please use Index 28900 with PCA 28670 for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident Good Afternoon:

For any overtime hours spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any non-payroll costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

On Monday, January 11, 2016, Veeser, Chad (DHHS) <VeeserC@michigan.gov> wrote:

Looks fine to me!

David, the ARC are in a big pow-wow, and I am going to shift to a call for Detroit Flood Recovery in a moment.

I have Vicky Schultz as the President/CEO of Catholic Charities for Shiawassee and Genesee Counties (main office: 810-232-9950). Can you confirm w/ someone at the EOC (probably Lt. Roach) if this is correct and who would be the best contact with the Foodbank of Eastern MI? Please let us know. In fact, if she has the contacts for them, GCARD, and the Concerned Pastors, that would be great (just so we can record them)!

Transportation: local bus transport is looking at a system to provide free transport to the stations. Working on how they will identify a customer needing transport for water and filters from someone just looking for a free ride.

Home delivery: Michelle, MSP shared that 211 will get the list of needs to the Sheriff Dept. who is putting a plan in place for delivery.

I just spoke with Kara Ross from the Food Bank. Here is her update on large water donations:

1. Food Bank continuing to take semi-loads but their capacity is 5 to 8 semi-trucks

2. They will have limited hours tomorrow- Saturday, January 16th from 8 - 2p

3. Sunday 1/17th and Monday, 1/18th they will be closed and NOT able to accept donations on these days

4. She shared the Bill Kerr had spoken to the SEOC this morning to work on plans for shifting water to the N. Clio Rd. warehouse

5. She stated that it is their understanding that at this point in time - both the Food Bank and N. Clio Rd. Warehouse are taking large water donations until further notice

> I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856<tel:810.762.0856>. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

That's awesome!!! Thanks Jay. Do you know what the total amount is? We'll have to work out shipping hours at the warehouse. I asked Shawn tonight but haven't gotten an answer yet. Thanks again. This is great!

Subject: Sample kits

Mitch,

We assembled 600 kits last night at the Red Cross and have about 1800 to assemble. Jen asked me to ask you where we are on the plan to assemble at Clio. I also told Jay we have a capacity of 4000 bottles or kits at the Red Cross and asked how we are going to get bottles and kits to and from the Red Cross.

Please contact me if you have questions.

Shawn is sending bottles to Red Cross.

Four cases of bottles from different lab lot code 2510 going to Clio for assembly to keep separate from lab lot code 3270 going to Red Cross. Two partial pallets of door hangers going to Clio also. I am on way to Red Cross.

Please contact me if you have questions.

Subject: Viewing SEOC Info in MI CIMS

Jay,
I saw your entry into the AAR board about not being able to view information and discussed with Operations Section Chief here. Our suggestions is to have each of you log into MI CIMS two separate times, once with your Genesee County position and once with a SEOC position. That way you can at least easily view the information shared within the SEOC.

The easiest way to do this is in two different browsers (IE, Chrome, Firefox). If you only have IE be sure to open the IE browser and go to the File Menu (Top left) and choose the option "New Session". If you don't do this for one of your MI CIMS sessions you will keep getting logged out of the first one.

I'm in the SEOC today if you have any questions.

Hi Jay, can we please arrange delivery to the St. Paul Baptist Church, 2115 W. Coldwater Rd., Flint, contact person Pastor Pettigrew, tx:

100 filters
100 replacement cartridges
100 test bottles
2 pallets of water

Delivery times to the church 12p-5p today. Please advise if possible. Also, Pastor Pettigrew will collect addresses so we can get into our data base and he will be the drop off point for test bottles. I will make arrangements to have them picked up. Any questions please let me know. Thank you! BJ

We have 20 plus cs of kits ready. Can the delivery truck take them to Clio? Space is tight here. ETA?

Also need pallet jack to get pallets off truck.

Please contact me if you have questions.

Subject: needs water

Hi Team,

We received a call from an individual (below) saying she needs water. She has a water filter but was brought 1 jug of water last Thursday and needs more bottled water. She called Wednesday to the Sheriff's office and they said they would be out Thursday. They haven't gotten to her yet and when she called again she was told they are busy and she has a water filter and should be fine until they can get to her.

She would like bottled water. Also, she needs someone to knock hard if they come because she is in bed in the back of the apartment and walks with a cane. If she doesn't come to the door they should leave the water on the porch.

Thank you,

Laura Stoken

Subject: churches

Hi Capt., just since I sent the email ref church requests, I received another. Apparently, Pastor Ellerson is passing my cell number onto others.

- Pastor Collins, Mt. Sinia Missionary Baptist Church, 1215 E. Downing Ave., Flint 48505, tx:t is requesting 40 filters and water for members of his church receiving Flint water.

Can we please deliver the following to Pastor Collins. He was hoping for delivery around 3:00pm today if possible. If not, please let me know.

40 filters
40 replacement cartridges
40 test kits
1 pallet of water
Pastor Collins will collect data and test kits. I will work out collection of those items with him. Thank you, BJ

Hey There,

The below individual is home bound. She said people were in her neighborhood passing out the filters and came to her door but she was to slow to get there in time. She explained it takes at least 3 minutes for her to get up from her chair or bed and to the door.

Would someone be able to drop a filer off but maybe call first so she can be waiting at the door- or call when they arrive so they know she's home and not to leave until she makes it to the door?

Phone:
Address:

Has no filter/water bottles

Thank you,

Laura

To: MSP-EOC-MDEQ; Michael Glasgow
Subject: samples

I visited most of the fire stations this afternoon and will visit Pierson Rd. tomorrow. There were very few samples and most staff were not aware that they could accept samples.

Staff was not aware that **we cannot accept samples unless they are in a state-lab provided bottle**. One Red Cross volunteer asked that something official be drafted and sent to the stations clearly stating, for residents to see, that we cannot accept samples collected in any other container.

One thing that most of the volunteers agreed on is that having GCCARD prepare all of the sample bottles delays their arrival to the stations and that most of the stations have time enough to prep them there. If supplies (bottles, flyers and rubber bands) were all provided and they can assemble them on site. This may not work for every location. I'm told the Pierson Rd. location is the busiest and I have yet to visit them.

It seems clear that a few instructional sheets should be available at each firehouse explaining the basic process and do's and dont's so that no matter who is on duty they have the information available to handle most situations. I would be happy to prepare such sheets and laminate them and have them distributed to each station. Of course Mike or someone with the MSP-EIOC-MDEQ should approve them before distribution. I don't know if input is needed from GCCARD, the Red Cross or National Guard or any other person or organization.

Thanks.

Hi Melanie,

I received word all the kits have been assembled and are ready for distribution as needed. With all the volunteers we kept up very well with the demand to the PODs and teams. I agree a sign stating only samples in provided bottles will be accepting. Feel free to develop and work with Jay Eickholt in the local EOC. If there is a need for instructions, work with Jay as well. I am not sure what type of information you are thinking.... Would additional copies of the sample analysis sheet suffice?

Subject: Water distribution through Islamic Relief of America

Hello Jay,

My name is Erum Mohiuddin, wife of Amer Iqbal. He had contacted you earlier this week regarding distribution of water.
I have come to understand that you are the point of contact for resources donated and coordinating destinations. I would
like to relate what our group is doing and see if there is a way for us to work together.

On Friday (1.22.16), Islamic Relief of America's trucks will bring 21 pallets of water to Flint. The water is set to be delivered
to the Eastern Michigan Food Bank, they will help us off load the pallets and re-load onto our trucks. On Saturday (1.23.16),
we plan to distribute the water. I have contacted Victoria Fryer regarding volunteers and information for distribution areas but,
wanted to know if there was anything I was missing. Obviously, I am a novice at this, I am just helping coordinate the local
efforts in the area, I live in Grand Blanc and plan on bringing volunteers to help with the work. I would like advice and information
from you to maximize our efforts and work with you (if need be) with the distribution.

I am looking forward to hearing from you,
Take care,
Erum

Subject: samples

I visited most of the fire stations this afternoon and will visit Pierson Rd. tomorrow. There were very few samples and most staff were not aware that they could accept samples.

Staff was not aware that we cannot accept samples unless they are in a state-lab provided bottle. One Red Cross volunteer asked that something official be drafted and sent to the stations clearly stating, for residents to see, that we cannot accept samples collected in any other container.

One thing that most of the volunteers agreed on is that having GCCARD prepare all of the sample bottles delays their arrival to the stations and that most of the stations have time enough to prep them there. If supplies (bottles, flyers and rubber bands) were all provided and they can assemble them on site. This may not work for every location. I'm told the Pierson Rd. location is the busiest and I have yet to visit them.

It seems clear that a few instructional sheets should be available at each firehouse explaining the basic process and do's and dont's so that no matter who is on duty they have the information available to handle most situations. I would be happy to prepare such sheets and laminate them and have them distributed to each station. Of course Mike or someone with the MSP-EIOC-MDEQ should approve them before distribution. I don't know if input is needed from GCCARD, the Red Cross or National Guard or any other person or organization.

Thanks.

Jen,

I got a call from the Red Cross about lack of space to store water test kits as they assemble them. They recommended box truck or large enclosed trailer that they could pick up the test kits in and pull from as they need them. The warehouse should be able to pick up the completed kits as they are ready.

There are free Penske trucks available and the SEOC should be able to get one to the site. If they can't we could work out something on this end.

Good Morning Erum, I wanted to reach out and connect with you regarding the water donations and volunteer efforts from your organization. I'm a team member from the Michigan Community Service Commission/DHHS heading up donations for the Flint Water Crisis. Thank you for your organization's thoughtful response and great planning! The Red Cross is the lead organization for coordinating volunteers at this time. I will check in with Victoria Fryer on Monday to see if she is all set for your volunteer efforts.

Please to not hesitate to call or email me at any time, if you have further questions or concerns. Thank you again for your organizations kindness and your planning efforts. Stay warm. Janet

There is a crew of volunteers (4-5) people from Clare County, POC Nicole Haring. They have a trailer with 4.5 pallets of loose cases of water. She is to call me when they leave Clare County. At this time I was informed they could bring this supply of water directly to Clio warehouse. I plan on meeting the crew when they arrive in Genesee County at a staging area. I will then assess if the volunteers should go directly to the VRC if they plan to volunteer, or if their intention is to just off load the water. I will hold off on sending the trailer to any location until I make a visual assessment, and have direction from Logistics. They plan on leaving Clare County MONDAY 1/18/2016 around 11:00 am.

To: MSP-EOC-MDEQ; Eickholt, Jay (MSP)
Subject: Re: samples

Thanks I will be happy to work with Jay.

The information I am thinking is very basic but the purpose would be to avoid confusion and minsinformation about what to tell residents. For example, one Red Cross volunteer admitted to me that he was instructing residents to flush the water before taking the sample. As you know, this is exactly the opposite of what the instructions say. What I am suggesting is a simple, bullet-style list of what is accurate to say when passing out tests or taking them in. Everyone seems to have different ideas about the process which may or may not have come from a trustworthy source.

I am recommending the same for other operations such as water and filter distribution but that's not my area of experience or duties. Merely a suggestion from personal observation.

Thanks!

Hi Melanie,

I received word all the kits have been assembled and are ready for distribution as needed. With all the volunteers we kept up very well with the demand to the PODs and teams. I agree a sign stating only samples in provided bottles will be accepting. Feel free to develop and work with Jay Eickholt in the local EOC. If there is a need for instructions, work with Jay as well. I am not sure what type of information you are thinking.... Would additional copies of the sample analysis sheet suffice?

Fyi:

This is program they are launching and will donate filters. We will give all the filters to the EOC stock pile as they arrive. I expect this to be happening 3 to 4 weeks out. Jist fyi. They will focus on 8 and 23 cup pitchers and replacement cartridges.

Subject: water request

Hi Jay, Mayor Zelenko, City of Burton, has requested 2 pallets of water for her residents receiving city of Flint water. Mayor Zelenko has received filters and replacement filters for all her residents on city water. The Mayor is extremely helpful and is willing to send a truck to the warehouse and pick the water up tomorrow. They just would need it loaded and do not need any help off loading. Is this something we can arrange? If not, can we arrange to have it delivered tomorrow? I advised the Mayor I would call her bac and advise. Thank you. BJ

Shawn and Pam,

Hot shot team is going to pick-up the following materials for delivery tomorrow (1/17/16) at 12:30pm from the warehouse. They are going to be picking up the following:

250 Pur Fliter systems
250 Pur Replacement Filters
150 8-cup Pitchers (or as many in stock)
150 Replacement filters for pitchers

These are for a senior living complex.

-Jay

Shawn and Pam,

Hot shot team is going to pick-up the following materials for delivery tomorrow (1/17/16) at 12:30pm from the warehouse. They are going to be picking up the following:

250 Pur Fliter systems
250 Pur Replacement Filters
150 8-cup Pitchers (or as many in stock)
150 Replacement filters for pitchers

Hi Jay,

Let me know if you are able to attend the SARA workshops (I know we discussed that you may not be able to make one of them).

Also if you are able to attend let me know if you can put a short presentation on emergency planning requirements keeping in mind that the audience will have folks from business and industry as well as LEPCs.

Let me know if you have any questions.

Thanks,

Hello Everyone,

I have the MAERS and SARA training dates and locations set. Similar to last year, we have reduced the amount of laptops that are provided for the MAERS session. Two sites will have limited laptops available (Grand Rapids & Mt. Pleasant will each have 4 DEQ training laptops). Two sites (Troy & Lansing will have 10 and 20 laptops respectively). Here are the specifics for the training.

January 21 (SARA – AM, MAERS – PM)

Sent: Sunday, January 17, 2016 5:58 PM
To: Roach, Billie Jo (MSP)
Subject: POD Trash Assessment

BJ,

This is what's been sent to me from LT Benke.

Station 1 - (2) 8 yard dumpsters filling slowly (should be able to go 2-3 days between emptying)
Station 3 - (1) 4 yard dumpster filling slowly (should be able to go 1 day between emptying)
Station 5 - (1) 4 yard dumpster filling rapidly, producing overflow trash (needs to be emptied daily)
Station 6 - (1) 4 yard dumpster filling slowly (should be able to go 1 day between emptying)
Station 8 - (1) 3 yard dumpster filling slowly (should be able to go 1 day between emptying)

Backhauling trash on the delivery trucks has alleviated the majority of the trash issue. It seems that most stations, as of now, can make it a day or two before the dumpsters they have now need to be emptied. If they can not be emptied every other day I would suggest putting more dumpster at each station.

Thanks,
John

Subject: Closed Water Filter POD at Univ. MI-Flint?

Hi Paul,

The University of Michigan-Flint is requesting 1,000 waters filters which the University would distribute to faculty, staff and students (bearers of UM ID cards only). Can the State provide UM-Flint the filters? The University would handle all other aspects of distribution, including unloading delivery truck(s).

The University would like to distribute the filters on Monday, Jan. 18.

The UM-Flint POC is:

Mike Lane

Director, Environment, Health and Safety

mjlane@umflint.edu

Please let me know if you have additional questions.

Hi Chris,

I spoke to Red Cross SEOC Liaison Paul Spata who advised me to share this request with you. Paul said that the GC EOC is now handling partner requests. I'm following up with you in my role as the UM-Flint Emergency Preparedness Specialist.

UM-Flint is requesting 1,000 water filters to distribute to its faculty, staff and students. The original request was for filter delivery Monday, but that doesn't matter. We'd like to get filters as soon as possible.

Please let me know the status of this request as soon as you can. The University wants to ensure it's doing everything possible to safeguard the members of our campus community.

Thank you,

Linda

Hi Michelle,
Confirming our telephone conversation this afternoon, you will have 500 water filters, replacement cartridges, water test kits and address forms sent to the University of Michigan-Flint. We will distribute these filters only to faculty, staff and students who are Flint residents affected by this crisis.

Pleave have these materials delivered to:
Recreation Center
University of Michigan-Flint
401 Mill Street
Loading Dock located on west/river-side of the building Flint, MI 48502

If you could have the truck driver call me when he arrives on campus, I'll meet him at the Rec Center.

I'll be the primary point-of-contact.
phone: 734.476.6294
email: dinten@umflint.edu

The back-up POC is Mike Lane
phone: 810.919.1709
email: mjlane@umflint.edu

Mike and I will be responsible for returning the completed address forms to the Genesee County EOC.

Michelle, we greatly appreciate the State's and Genesee County's assistance in ensuring that the members of our campus community have potable water as well as your efforts to make this happen.

Paul, since the Genesee County EOC is able to fill the UM-Flint's request, please cancel our request to the SEOC.

With thanks to all,
Linda

Please let me know if you have additional questions.

Subject: 5 radios available for reassignment

Since the Fire Stations are not being staffed by ARC volunteers anymore, that frees up the 5 radios at the stations and they can be reassigned.
Potential reassignments that were suggested here tonight are the truck drivers or incoming CERT teams.
Radios will be ready for pick up at the ARC chapter tomorrow.

MID-YEAR FORUM
NEMA | ALEXANDRIA VA
APRIL 3-7, 2016

Eickholt, Jay (MSP)

From: Briggs, Brianna (MSP)
Sent: Monday, January 18, 2016 8:30 AM
To: Eickholt, Jay (MSP); Pepper, Joel (MSP); Bresler, Amanda (MSP)
Subject: FW: State PA Workshop at NEMA Mid-Year/Please Forward to Your PA Staff

Would any of you be willing or able to attend this for Michigan? If not, I'll see what I can do. It looks like it might only be one night away, but I'm not sure I'm ready for this yet!

Any suggestions to provide? I'm not sure I have anything at this point, but Jay, I'll defer to you to see if you have anything from anything issued while I was gone. I haven't had a good time to review anything.

PS - I've recruited Amanda to be on our PA team! Be nice to her and don't scare her away...please! :)

Subject: State PA Workshop at NEMA Mid-Year/Please Forward to Your PA Staff

State Directors:
There will be a meeting/workshop for state PA staff at the NEMA 2016 Mid-Year Forum at the Hilton Alexandria Mark Center Hotel in Alexandria, VA.
Please forward this email with the link below to your PA staff to help us identify discussion topics for the workshop.
The meeting/workshop will be held on Thursday, April 7, 2016 8:30 am-3 pm. FEMA will be presenting in the morning with the latest updates on the PA re-engineering effort. The afternoon will be for state PA staff only. The first discussion topic will be a review of FEMA's presentation. We'll have time for 2-3 other agenda items before adjourning at 3 pm. This will allow staff to fly out that afternoon or evening.

If you're a state PA staff member, click on the link to take the workshop survey and make your topic suggestions: https://www.surveymonkey.com/r/SuggestedPAWorkshopTopics

More details about the workshop to follow.

Thank you,
Beverly

Subject: Re: Water Filter Tracking Sheet

Good Morning,

Who would I speak with in reference to replacement filters and water. We received the faucet hardware but I'm assuming they will need the replacements also. We didn't get water also, and I was wondering who do I call because the State of Michigan was here at my property on Saturday and requested I contact Resource 211 and when I got in contact with them they stated to call Sheriff Pickell office and there has not been a response from that area. We would need a truck load due to me having transportation to pick up numerous cases of water. we are in need of these things and can you get back with me as soon as possible so I can also respond back to the Michigan State Housing Development.

Subject: Flint Apartments in Need of Filters

Dear Outreach Unit Manager Galbreath:

First and foremost, thank you for speaking with me today when I stopped by your office. I appreciate your quick attention to my inquiry.

Pursuant to our follow up conversation later this afternoon, attached (in excel and or as a pdf) is a listing and status report of the various apartment/housing complexes that utilize Flint municipal water that have a direct connection with the State of Michigan through various financing programs associated with the Michigan State Housing Development Authority (MSHDA).

We have outreached to most of these properties and have identified which ones we believe need additional attention by ways of delivery of filters to affected tenants. As I indicated over the phone, we would like to coordinate a team of dedicated state employees from MSHDA that stand ready to pick up and deliver filters to these properties immediately with your permission.

If at all possible, if you could review this list and let me know if and when our team could pick up the filters and deliver them to these units, it would most helpful. Please know that MSHDA is willing to pay for these filters as well if it means getting access to them quicker. We can pick them up wherever is quickest to acquire them.

Look forward to hearing from you tomorrow. Please contact me directly if you have any questions.

Respectfully,

Brian Mills

HI team,

Please see below a few folks that need water resources:

- People came to her house today 1/18 and left a flyer but no water- needs water. Also, the filter does not fit on her sink so she doesn't know what to do. Says she followed the directions but the only part of her sink that works in the "sprayer" and the filter won't fit on this.
- We may need to get her a pitcher that filters water.

- Needs a water delivery- in back of apartment with a cane- takes about 3 minutes to answer the door- please do not leave until she gets to the door

- Needs water delivery- disabled and unable to leave home- has a filter

Jay,
Here are some instructions for the iPad and the Collector App. These are for the field teams and PODS.

If the iPads are going to the PODS, use the PODS instructions.

Subject: Need assistance

HI team,

Please see below a few folks that need water resources:

- People came to her house today 1/18 and left a flyer but no water- needs water. Also, the filter does not fit on her sink so she doesn't know what to do. Says she followed the directions but the only part of her sink that works in the "sprayer" and the filter won't fit on this.
- We may need to get her a pitcher that filters water.

- Needs a water delivery- in back of apartment with a cane- takes about 3 minutes to answer the door- please do not leave until she gets to the door

- Needs water delivery- disabled and unable to leave home- has a filter

Hi Richard, I'm being asked if the locations such as Housing Commission, Job Corp those on this list can also go to the warehouse for filters and replacement filters.

All were given Brita and now need PUR as its been 3 months.

Previously they were calling Matt Purcell at GCCARD to get what they needed for the residents.

Job Corp called today and is waiting on a response.

Subject: Closed Water Filter POD at Univ. MI-Flint?

Hi Paul,

The University of Michigan-Flint is requesting 1,000 waters filters which the University would distribute to faculty, staff and students (bearers of UM ID cards only). Can the State provide UM-Flint the filters? The University would handle all other aspects of distribution, including unloading delivery truck(s).

The University would like to distribute the filters on Monday, Jan. 18.

The UM-Flint POC is:

Mike Lane

Director, Environment, Health and Safety

mjlane@umflint.edu

Michelle, we greatly appreciate the State's and Genesee County's assistance in ensuring that the members of our campus community have potable water as well as your efforts to make this happen.

Paul, since the Genesee County EOC is able to fill the UM-Flint's request, please cancel our request to the SEOC.

With thanks to all,
Linda

Hi Chris,

I spoke to Red Cross SEOC Liaison Paul Spata who advised me to share this request with you. Paul said that the GC EOC is now handling partner requests. I'm following up with you in my role as the UM-Flint Emergency Preparedness Specialist.

UM-Flint is requesting 1,000 water filters to distribute to its faculty, staff and students. The original request was for filter delivery Monday, but that doesn't matter. We'd like to get filters as soon as possible.

Please let me know the status of this request as soon as you can. The University wants to ensure it's doing everything possible to safeguard the members of our campus community.

Thank you,

Linda

Importance: High

Hi Michelle,
Confirming our telephone conversation this afternoon, you will have 500 water filters, replacement cartridges, water test kits and address forms sent to the University of Michigan-Flint. We will distribute these filters only to faculty, staff and students who are Flint residents affected by this crisis.

Pleave have these materials delivered to:
Recreation Center
University of Michigan-Flint
401 Mill Street
Loading Dock located on west/river-side of the building Flint, MI 48502

If you could have the truck driver call me when he arrives on campus, I'll meet him at the Rec Center.

I'll be the primary point-of-contact.
phone:
email: dinten@umflint.edu

The back-up POC is Mike Lane
phone:
email: mjlane@umflint.edu

Mike and I will be responsible for returning the completed address forms to the Genesee County EOC.

We received a call from Mr. Wilton Bennett Home: 810-232-5312, He is asking about how and where he can go about donating 4-5 semi loads of water. This is more water than what the Food Bank can handle at one time. If they can stagger it they may be able to ship it to their sites.

Please advise at the direction we should move. If Clio Road is not going to accept donated water we should look for other long term storage for local agencies to draw from.

He is there now.

Also, I should've clarified. If GCCARD can still handle water, they can take water. But that should be coordinated with them. Obviously. But all other supplies, need to go to our warehouse for tracking and inventory. We can get them stuff, but just need to track it there first. Gracias.

UM-Flint is requesting 1,000 water filters to distribute to its faculty, staff and students. The original request was for filter delivery Monday, but that doesn't matter. We'd like to get filters as soon as possible.

Please let me know the status of this request as soon as you can. The University wants to ensure it's doing everything possible to safeguard the members of our campus community.

Thank you,

Linda

Confirming our telephone conversation this afternoon, you will have 500 water filters, replacement cartridges, water test kits and address forms sent to the University of Michigan-Flint. We will distribute these filters only to faculty, staff and students who are Flint residents affected by this crisis.

Pleave have these materials delivered to:
Recreation Center
University of Michigan-Flint
401 Mill Street
Loading Dock located on west/river-side of the building Flint, MI 48502

If you could have the truck driver call me when he arrives on campus, I'll meet him at the Rec Center.

I'll be the primary point-of-contact.
phone
email: dinten@umflint.edu

The back-up POC is Mike Lane
phone
email: mjlane@umflint.edu

Mike and I will be responsible for returning the completed address forms to the Genesee County EOC.

Michelle, we greatly appreciate the State's and Genesee County's assistance in ensuring that the members of our campus community have potable water as well as your efforts to make this happen.

Paul, since the Genesee County EOC is able to fill the UM-Flint's request, please cancel our request to the SEOC.

With thanks to all,
Linda

Subject: UM-Flint Brita replacement cartridge request

Hi Michelle,
In October, the UM-Flint provided Brita water filters to international students who live off campus. It's time to replace those filter cartridges.

Consequently, we're requesting 500 Brita water filter replacement cartridges. The delivery information and points-of-contact are the same as those we provided on Sunday (see below).

Please let me know if the State is able to fulfill this request.

Thank you,
Linda

Water Delivery:

Filtered pitcher delivery: can be picked up Station 5

Says she has received 2 different kinds of water filters and neither of the adapters fit her faucet. She said she has called 211 twice and they said that they don't know what to do about it and that they will call someone. Constituent does have bottled water in the meantime. **Due to this, plz deliver 8 cup pitcher to her...thanks!**

Communications

We would like to figure out how to put out a message to allow people to understand the best way to donate. This is tricky, as we do not want people to feel there help (water donations) is being turned away. My Communications Director is in the JIC tomorrow and will begin working on it based on your recommendations.

Your ideas are welcomed and appreciated!

Subject: Re: RFF for 400k water

Hello Everyone,

We wanted to alert you to a challenge - we are getting a lot of donations coming in and more people are telling us they want to send water.

Storage Facilities - Current Space
As a review, the report from the storage facilities is as follows:

1. Warehouse reported being full Tuesday and they could not receive more deliveries

.

2. Cher's delivery arrives at food bank today, as a result they will not have more room until next Tuesday.

3. GCard Warehouse- needs their space for their own needs (not water related) as a result, the water that is there now will need to be moved or distributed in the next day.

Large Donations Increasing
We are getting some large donations from people far and wide - with more coming. A couple of deliveries are arriving tomorrow and we are trying to find them space. We are checking to see if the churches could use a restocking of their supplies.

Delivery Challenges
Some of the deliveries are coming without prior communication or knowledge on our part. We are also beginning to hear from people that they have water collected and they want us to make arrangements to get it picked up. When we get these requests, we are thanking them and gathering their contact information. We are letting them know that we are checking to see what arrangements can be made.

FEMA Deliveries
If we get these deliveries of 8 trucks daily from FEMA, the storage problem will become more of an issue. We know the second wave of door to door deliveries is being planned, but we are not sure if the need will keep up with the deliveries that are coming in.

Supply and Demand
It would be helpful to know what the daily supply and demand numbers have been coming in at. This will allow us to keep in front of the donations that are coming in and determine the space needs.

Storage Plan
A plan may have already been created to address the storage issue - but we wanted to make sure. We would like to identify options for additional storage sites to manage the high volume of water that is being sent.

Title
Organization
Telephone Number
E-mail Address
City, State

Number of lines required on the Telephone Bridge

Number of individuals joining the Skype Meeting from a separate system

Please be advised we are using Skype for Business instead of Microsoft Office Live Meeting for the webinar. Therefore, please follow the Skype for Business guidance included in this invitation. Also, if you have any questions regarding Skype for Business, Suezett Edwards can be contacted by email at suezett.edwards@dot.gov or by phone at 202-366-4863.

1) The organizer must join the webinar before the participant can join. Therefore, the organizer will join the webinar prior to 1:00 PM. Please join the webinar **between 1:00 PM and 1:30 PM by selecting Join Skype Meeting.** If possible, **you should try to join it at least 15 minutes before the start of the webinar.** Therefore, you can verify you have access prior to the start of the webinar.

2) You must select **don't join audio** when asked if you want to join the Meeting Audio. Currently, this feature is not supported. Therefore, you must use the telephone number and code provided for the telephone bridge to access the audio for the meeting. The information for the telephone bridge will be forwarded prior to the January 20, 2016 webinar.

3) Skype for Business Web App is a browser-based meeting client that you use to join Skype for Business meetings. You can't schedule a meeting from Skype for Business Web App, but you can join a meeting that was scheduled using either Microsoft Outlook or Skype for Business Web Scheduler.

TIP -You don't need to download or install any apps to join a meeting with Skype for Business Web App. Just select **Join Skype Meeting** in the email or calendar meeting request you received. If the computer you're using doesn't have Skype for Business installed, a browser window opens and you can join the meeting.

Thank you.

This is an online meeting for Skype for Business, the professional meetings and communications app formerly known as Lync.

Help

Dear Grantees:

This email is a follow-up to the notification regarding the HMEP Application Webinar dates. We are conducting a **free webinar training session** on the application process for the Hazardous Materials Emergency Preparedness (HMEP) grant and the significant changes to the grant that were made in the Fixing America's Surface Transportation (FAST) Act.

Even though the webinar will be recorded, closed-captioned, and placed on the PHMSA website and U.S. DOT YouTube, we encourage the programmatic and financial members of your staff to participate in the webinar.

Please follow the instructions included below to register to participate in the webinar.

Title: **PHMSA HMEP Grant Program Grant Application Development Webinar for States and Territories**

Date: January 20, 2016

Time: 1:30 p.m.-3:30 p.m. Eastern Time

The HMEP Grant Program's application process opens on February 1, 2016, and applications are due no later than May 2, 2016 at 11:59 PM Eastern Time. In this webinar, we will discuss:

- Overview of Program
- PHMSA Grant Schedule
- Changes to the HMEP Grant Program
- Pre-Application Needs Assessment
- Grant Application Guidance
- Budget Process
- Common Mistakes
- Question and Answer Session

If you intend to participate, when you accept the invitation please provide the information requested below for each individual requiring a line on the telephone bridge. If the staff plans to request one line to access the telephone bridge, you should provide the contact information for the individual designated to receive the telephone number and code required to access the audio for the webinar. Also, we need to know the number of individuals joining the Skype Meeting from a separate system. The information must be provided no later 3:00 PM Eastern Time on January 14, 2016 to suezett.edwards@dot.gov.

THE MAXIMUM NUMBER OF PARTICIPANTS FOR SKYPE FOR BUSINESS IS 250; THEREFORE, WE ENCOURAGE YOUR STAFF TO JOIN SKYPE FROM A CENTRALIZED LOCATION.

<Flint Water Response Team Plan for Wednesday 01 20 16_FINAL.pdf>

Message: I received a pitcher filter when they first became available (ZeroWater 8 cup filter) because the faucet type filter will not fit on any of my faucets. I have been to 4 different Water Resource Sites, none of the sites have any replacement filters.
It has been very frustrating going from site to site and having the staff not have any answers about if the replacement filter will even be available.
What is the status on the replacement filters for the ZeroWater pitchers?

Hi Scott -

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856<tel:810.762.0856>. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call (810.241.3864<tel:%28810.241.3864>).

Thanks!
Amy

Subject: City of Flint - Water Issue

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Subject: Re: City of Flint - Water Issue

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

Scott:

Thanks for reaching out. The United Way has been purchasing between 3-4 trucks of water each month. The last several trucks have been "free" surplus water from locations in Maryland and I believe we have a connection with water in North Carolina.

Our only cost is shipping. We can ship for a very inexpensive cost from the east coast but the shipping cost pushes up if we transport from south or west.

Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

The United Way of Genesee County has been picking up the cost for this transportation and any purchasing costs.

Please connect directly with Bill Kerr on the water you have and the availability. I have cced him into this email. Thanks so very much!

Subject: FW: City of Flint - Water Issue

The below message is what I sent to the agency/ group that is coordinating the water shipment. They have organized for free shipping through UPS and the shipments will be staggered over the next few weeks or months. The water is excess water from FEMA that they purchase for hurricane season. Scott is the primary point of contact.

Subject: RE: City of Flint - Water Issue

Good morning Kendal/Steve,
This is partially correct but only if there are no presidentially declared emergency responses. Declarations trump donations. In accordance with FEMA Manual 119-7-1, FEMA advertises perishable commodities for donation 90 days prior to the projected expiration date. However, once there is a declared emergency response those donations cease and those resources are earmarked to support the on-going disasters--the intended purpose for which the water was prepositioned. Please also bear in mind that there is no avenue for FEMA LMD to provide free water to the state. Water that meets the eligibility criteria for donation can only be donated to bonafied registered National Volunteer Agencies Active in Disasters (NVOAD). Bottom line, NO FREE/Donated FEMA water while supporting on-going emergency declaration. I'll call you as a follow-up to provide any additional clarity.

Thanks

Went to 4 fire stations for water test kit- all were out. They all said they had them in the morning but run out by the time he gets out of work
Also wants a blood test

(I called her back and left her a voicemail- it would be nice to have an answer when she calls back or for someone from MSP-Leg call her directly)
Received a flyer from the Governor's office in the mail but she didn't think she had city of Flint Water- now she is very upset
Lives in Hunters Ridge Subdivision

Disabled- 2-1-1 said they would send someone to her house by last Wednesday and still no delivery-
Also needs someone to help her put the filter on her sink because her "hands don't work right"
Needs Water, Needs Filter

Owns 20 rental properties in Flint and has questions about the pipes in his properties and how he can help

Water was shut off to his home because he owes $4,000
Needs water and testing Kit- filter if his water gets turned back on

Thank you,

Subject: Flint Residents Needing Help

Hi Team,

The Governor's office received many voicemails overnight- I called all folks back but these are the folks that have experienced issues when reaching out for help: Please note the two individuals who have had their water shut off.

Has a Kohler sprayer sink so the regular filter won't fit- Doesn't have a pitcher- Needs a filter that goes under the sink that filters the water from there

- Called last week and the sheriff's office last week- they said they would bring her a pitcher but still no one has brought that even
- Susan has many Doctors appointments so someone needs to call her before they come.

- Water was shut off so has no running water - $8000.00 outstanding bill
- Needs water – bottled
- Doesn't have a filter- but also has no running water

GCCARD Warehouse on 1/18/2016 at:

GCCARD
2727 Lippincott
Flint, MI 48507

These can be distributed to the other PODs, if needed, at Local EOC direction. Please address with this individual.

Subject: FW: Closed Water Filter POD at Univ. MI-Flint?

Hi Chris,

I spoke to Red Cross SEOC Liaison Paul Spata who advised me to share this request with you. Paul said that the GC EOC is now handling partner requests. I'm following up with you in my role as the UM-Flint Emergency Preparedness Specialist.

UM-Flint is requesting 1,000 water filters to distribute to its faculty, staff and students. The original request was for filter delivery Monday, but that doesn't matter. We'd like to get filters as soon as possible.

Please let me know the status of this request as soon as you can. The University wants to ensure it's doing everything possible to safeguard the members of our campus community.

Thank you,

Linda

Subject: FW: Closed Water Filter POD at Univ. MI-Flint?
Importance: High

Hi Michelle,
Confirming our telephone conversation this afternoon, you will have 500 water filters, replacement cartridges, water test kits and address forms sent to the University of Michigan-Flint. We will distribute these filters only to faculty, staff and students who are Flint residents affected by this crisis.

Pleave have these materials delivered to:
Recreation Center
University of Michigan-Flint
401 Mill Street
Loading Dock located on west/river-side of the building Flint, MI 48502

If you could have the truck driver call me when he arrives on campus, I'll meet him at the Rec Center.

I'll be the primary point-of-contact.
phone:
email: dinten@umflint.edu

The back-up POC is Mike Lane
phone:
email: mjlane@umflint.edu

Mike and I will be responsible for returning the completed address forms to the Genesee County EOC.

Michelle, we greatly appreciate the State's and Genesee County's assistance in ensuring that the members of our campus community have potable water as well as your efforts to make this happen.

Paul, since the Genesee County EOC is able to fill the UM-Flint's request, please cancel our request to the SEOC.

With thanks to all,
Linda

From: Dintenfass, Linda

In October, the UM-Flint provided Brita water filters to international students who live off campus. It's time to replace those filter cartridges.

Consequently, we're requesting 500 Brita water filter replacement cartridges. The delivery information and points-of-contact are the same as those we provided on Sunday (see below).

Please let me know if the State is able to fulfill this request.

Thank you,
Linda

Hi Michelle,
We received 720 water filters and replacement cartridges mid-day today. We didn't receive any water test kits. I informed Shasta Heintzelman.

Thank you,
Linda

Flint Water Issue Phone call notes (1/15/16)

- Scott Pepperman, Executive Director of NASASP is working with FEMA to allocate 2 million liters of water to the State of Michigan Federal Surplus Program for donation to the city of Flint. Scott is checking with FEMA to see how the water is packaged and its location.
- Flint is sufficiently stocked with bottled water for January. Additional water is needed for February – April.
- Jay Eickholt, Planning Analyst for MSP is coordinating the logistics for flint. He would like the shipment spread out over a few weeks. The Red Cross is managing the warehousing of the water in an 80,000 square foot warehouse. Jay will send out additional info on the status of the warehouse.
- There are currently 5 dispensaries (Pods) for distributing water and they are all currently located at fire stations throughout the city. They are going through about 8 pallets of water a day.
- Carolyn Rambo, Federal Surplus Supervisor will set up delivery with UPS as water comes available from GSA and FEMA. She is checking with the State of South Carolina, as they may have another 170 pallets of bottled water available for donation.
- All future deliveries of water should be sent to 4315 N Clio Rd Flint 48504.
- Joyce VanCoevering, OSS Director has been deploying freight trucks and drivers to Flint. More are available if needed.
- William Kerr, CEO of the Foodbank of Eastern MI currently does not have enough room to store more shipments of water. They may be able to receive more bulk water after all filters are distribute to Flint residents.

Subject: Needs help with Filter

Needs someone to come out and help put the Filter on. Her son lives with her but isn't able to put it on either- They watched the video together but still can't get it on. Her son is mobile and was able to get to the fire station for supplies but she said he is "slower".

She also needs someone to tell her about the water. I explained over the phone that she is able to drink it after it is filtered and bathe. She still asked for the person that comes out to talk to her about it.

Subject: *Hazard Mitigation Education*

Dear Mr. Eikholt,

The Project WET (Water Education for Teachers) Foundation is leading a proposal submission to the NOAA Environmental Literacy Grant competition which has a strong focus on Hazard Mitigation and Climate Resiliency. The proposed grant name is "My Water Address: Using Place-Based Education in the Great Lakes To Create Climate-Related Resilience in Youth." The proposed project will use the concept of "My Water Address" to implement a place-based education program in Michigan using an inquiry-based, hands-on science education curriculum to address climate change in the Great Lakes region. The concept of My Water Address helps teachers and students focus on their unique water location (i.e. watershed) while learning about environmental problem-solving and stewardship.

The mission of the nonprofit Project WET Foundation is to reach children, parents, teachers and community members of the world with water education that promotes awareness of water and empowers community action to solve complex water issues. Project WET is the global leader in water education with more than 30 years of experience in interactive, inquiry-based teaching in water education.

We would like to include Michigan hazard plans in the "My Water Address" curriculum to teach students about hazard mitigation as it relates to water and extreme weather. We are hoping someone(s) from the MCCRECC would be willing to act as reviewers of the curriculum, if funded, and offer a letter of support for this proposed program in the state of Michigan. They could also be involved with the workshops to educate teachers.

For your information the program would be implemented through Project WET's Michigan partner at Grad Valley State University. (http://www.projectwet.org/where-we-are/partners/grand-valley-state-university-annis-water-resources-institute). Please let me know if this is something that interests you. I am happy to discuss at any time. The proposal is Due Feb. 8th.

Kind Regards,

Julia Beck

Executive Director Elsenheimer is in Lansing today with a team of staff in work clothes. Considering MSHDA's experience with housing matters, we have a building/maintenance construction staff crew that stands ready to be on the ground today to help our tenants install filters at these properties.

If we're able to get these filters today, we have a fleet of vehicles to transport them to these apartment complexes and begin installing.

If for any reason, you don't think attaining filters is possible today, please let me know so we can make our team aware and let them know when they might be available.

Brian.

Subject: Flint Apartments in Need of Filters

Dear Outreach Unit Manager Galbreath:

First and foremost, thank you for speaking with me today when I stopped by your office. I appreciate your quick attention to my inquiry.

Pursuant to our follow up conversation later this afternoon, attached (in excel and or as a pdf) is a listing and status report of the various apartment/housing complexes that utilize Flint municipal water that have a direct connection with the State of Michigan through various financing programs associated with the Michigan State Housing Development Authority (MSHDA).

We have outreached to most of these properties and have identified which ones we believe need additional attention by ways of delivery of filters to affected tenants. As I indicated over the phone, we would like to coordinate a team of dedicated state employees from MSHDA that stand ready to pick up and deliver filters to these properties immediately with your permission.

If at all possible, if you could review this list and let me know if and when our team could pick up the filters and deliver them to these units, it would most helpful. Please know that MSHDA is willing to pay for these filters as well if it means getting access to them quicker. We can pick them up wherever is quickest to acquire them.

Look forward to hearing from you tomorrow. Please contact me directly if you have any questions.

Respectfully,

Brian Mills

Eickholt, Jay (MSP)

Subject: FW: Flint Apartments in Need of Filters

Wendy, per our conversation this morning, attached is a copy of the updated spreadsheet of the filter distribution that MSHDA engaged in Saturday with our notes on each location. This information was given to Mr. Jay Eickholt this weekend.

Should you have any questions or comments, please don't hesitate to contact me.

Please know, as MSHDA offered previously, as highlighted below, MSHDA is more than willing to pay for any costs associated with these filters and or pay for acquiring more.

We have already set aside in escrow some $250,000 for any and all expenses related to costs associated with getting water, filters, and other necessities to tenants. Let us know if you would like a check today to purchase more.

Thank you,

Brian.

Subject: NEED ANSWER BY 1630--Request to change MDARD Sample Collection Staging Area

Jay

Any problem with this?

Request a location change to our staging area. The Genesee County EOC was initially selected as MDARDs staging location, unfortunately they don't have a means to secure our supplies. I would like to request the Flint Water plant as our staging location. It's located at 4500 N Dort Hwy, 48505 (810) 787-6538. Since this is already designated as our water sample drop off site this location would be the best location.

Flint Water Issue Phone call notes (1/15/16)

- Scott Pepperman, Executive Director of NASASP is working with FEMA to allocate 2 million liters of water to the State of Michigan Federal Surplus Program for donation to the city of Flint. Scott is checking with FEMA to see how the water is packaged and its location.

- Flint is sufficiently stocked with bottled water for January. Additional water is needed for February – April.

- Jay Eickholt, Planning Analyst for MSP is coordinating the logistics for flint. He would like the shipment spread out over a few weeks. The Red Cross is managing the warehousing of the water in an 80,000 square foot warehouse. Jay will send out additional info on the status of the warehouse.

- There are currently 5 dispensaries (Pods) for distributing water and they are all currently located at fire stations throughout the city. They are going through about 8 pallets of water a day.

- Carolyn Rambo, Federal Surplus Supervisor will set up delivery with UPS as water comes available from GSA and FEMA. She is checking with the State of South Carolina, as they may have another 170 pallets of bottled water available for donation.

- All future deliveries of water should be sent to 4315 N Clio Rd Flint 48504.

>
> Request a location change to our staging area. The Genesee County EOC was initially selected as MDARDs staging location, unfortunately they don't have a means to secure our supplies. I would like to request the Flint Water plant as our staging location. It's located at 4500 N Dort Hwy, 48505 (810) 787-6538. Since this is already designated as our water sample drop off site this location would be the best location.

Per SEOC OPS and Insp. Bolger,

The apartment complex for door-to-door distribution is River Village Townhomes, 702 FATHER DUKETTE BLVD., Flint.

They were "delivered" 340 filters last Saturday but there is a lot of confusion on where they went.

MSP advised they will send a team door to door to distribute.

Subject: RE: Needs water/ filter

Water and filter delivered. I even installed filter but they wished removal after it was installed. They both felt due to their age it would be a hindrance. I removed the filter for them and asked if they wanted a water testing kit. They didn't want to test their water as they have always bought water and never drank it. They didn't wish to get free water, and were going to continue to purchase it. They thanked me for the help.

- Water was shut off so has no running water - $8000.00 outstanding bill
- Needs water – bottled
- Doesn't have a filter- but also has no running water

Flint Resident
Went to 4 fire stations for water test kit- all were out. They all said they had them in the morning but run out by the time he gets out of work
Also wants a blood test

(I called her back and left her a voicemail- it would be nice to have an answer when she calls back or for someone from MSP-Leg call her directly)
Received a flyer from the Governor's office in the mail but she didn't think she had city of Flint Water- now she is very upset
Lives in Hunters Ridge Subdivision

Disabled- 2-1-1 said they would send someone to her house by last Wednesday and still no delivery-
Also needs someone to help her put the filter on her sink because her "hands don't work right"
Needs Water, Needs Filter

Owns 20 rental properties in Flint and has questions about the pipes in his properties and how he can help

Water was shut off to his home because he owes $4,000
Needs water and testing Kit- filter if his water gets turned back on

Thank you,

Laura Stoken

Subject: Flint Residents Needing Help

Hi Team,

The Governor's office received many voicemails overnight- I called all folks back but these are the folks that have experienced issues when reaching out for help: Please note the two individuals who have had their water shut off.

Has a Kohler sprayer sink so the regular filter won't fit- Doesn't have a pitcher- Needs a filter that goes under the sink that filters the water from there

- Called last week and the sheriff's office last week- they said they would bring her a pitcher but still no one has brought that even
- Susan has many Doctors appointments so someone needs to call her before they come.

Filter doesn't fit their faucet. When they go to the fire station to get water- they are only allowed 1 case but that is assuming they have a filter. Also, are water pitchers not available anymore? This individual had a pitcher but cannot get a replacement cartridge for it from the fire stations.

Disabled can't leave home- Needs water, filter, and testing kit

Disabled, needs water, filter, testing kit
She mentioned that she is afraid of police officers—so if help is sent it shouldn't be from and authority figure.

Subject: Flint Residents Needing Help

Hi Team,

The Governor's office received many voicemails overnight- I called all folks back but these are the folks that have experienced issues when reaching out for help:

Please note the comment in red regarding 2-1-1....

Galaxy Apartments/ Stevenson Apartments

Flint, MI 48504
Disabled & Needs water/ filter
Says no one has come to her building and it is mostly filled with elderly and disabled folks. She says they have all been calling 2-1-1 and they "put them on the list" but no one has come out at all.

Many abandoned houses on this block- volunteers went down all surrounding streets but didn't come down their street There are 2 old ladies on the street as well and only 7 houses that are not abandoned. Street needs water/ filter delivery. Most people on this street are old/ disabled and unable to leave their home.

Got a brand new furnace 2 years ago and it went out yesterday. She had the furnace company come out and they won't fix it because they say it is corroded due to the water. She now has no heat in her home and can't afford to fix her furnace.

Subject: Ennis Center for Children

Good Evening,

The State of Michigan is requiring all foster homes to have documented proof that water filters are installed in every home inside the city of Flint. As a foster care and adoption agency, Ennis Center for Children would like to make it as easy as possible for all foster families to have access to water filters and their replacement cartridges. Ennis Center would like to apply to be a distribution site for these items, specifically. In addition to providing easy access for foster families who are regularly in our building, we are located steps from the main terminal of MTA, allowing easy access to many other families who may need assistance.

If you have any questions regarding this request, please do not hesitate to contact me using the information listed below.

Laura,

Water billing and shutoff questions should be directed to the city. I know of no help that we can offer him (Tori, if you do, please weigh in). Google provided me with the number this gentleman should call to have his water restored.

If that doesn't work, he may want to contact the mayor's office ((810) 766-7346) or his city council representative.

He could also try his state representative or senator for solutions.

Water has been shut off in for a year because he owes $3800- they transferred the water bill to his taxes on his home. He stopped paying because he couldn't drink it- now they are going to take his home.

Subject: State of Michigan - Penske Donations for Flint

Hello Rob,

I received an email that you would like some clarification on the Penske Trucks that have been donated to the Flint Water Response Team effort. I am in the Recovery Unit and have submitted some of the initial requests for trucks. I show that we have received a total of 11 box/cube trucks which we coordinated through the Local EOC (Jay Eickholt). Below is the breakdown of the dates we received each truck.

Penske Trucks	16ft	8	1/15 - 1/16
Penske Trucks	16ft	3	1/18/2016

Please let me know if this does not line up with what your records show and we can talk.

Thank you,

Galaxy Apartments/ Stevenson Apartments

Disabled & Needs water/ filter
Says no one has come to her building and it is mostly filled with elderly and disabled folks. She says they have all been calling 2-1-1 and they "put them on the list" but no one has come out at all.

Many abandoned houses on this block- volunteers went down all surrounding streets but didn't come down their street (2700 Block Concord Street). There are 2 old ladies on the street as well and only 7 houses that are not abandoned. Street needs water/ filter delivery. Most people on this street are old/ disabled and unable to leave their home.

Got a brand new furnace 2 years ago and it went out yesterday. She had the furnace company come out and they won't fix it because they say it is corroded due to the water. She now has no heat in her home and can't afford to fix her furnace.

Filter doesn't fit their faucet. When they go to the fire station to get water- they are only allowed 1 case but that is assuming they have a filter. Also, are water pitchers not available anymore? This individual had a pitcher but cannot get a replacement cartridge for it from the fire stations.

Disabled can't leave home- Needs water, filter, and testing kit

Disabled, needs water, filter, testing kit
She mentioned that she is afraid of police officers—so if help is sent it shouldn't be from and authority figure.

To Donations management and Warehouse management
We will work to put out some type of public messaging on this issue for donations outside of our span of control.
In the meantime, you all must ensure that we received no recalled lots of Niagara Water.
See the corporate statement below:
"Niagara bottled water being sold and distributed in Flint, MI and throughout the country is safe to drink. Niagara issued a voluntary recall of spring water produced at our two (2) Pennsylvania plants from **June 10-18th, 2015**. As of **September 7, 2015** Niagara found no contamination of any kind in their finished products or in the spring water that was delivered to their bottling facility. For additional information, please visit http://www.niagarawater.com/consumer-notice/ or contact Niagara's Consumer Affairs Department at (888) 943-4894."

Niagara Spring Bottled Water Voluntary Recall - Niagara ...

www.niagarawater.com

Niagara voluntary recall of spring water produced at two *Pennsylvania plants from June 10-18th, 2015 purified drinking* water is unaffected

Captain,

Just an FYI- this does not apply to us. Per DTMB, we got our water from Wisconsin; this applies to water from Pennsylvania. DTMB is confirming, comparing our lot numbers with the ones listed.

On Niagara's website, they do not show Michigan as an impacted state.

Hi Janet,

We're currently overloaded, especially with regular (almost daily) donations coming in from ArtVan. If we could get some help moving the water out to other locations, we'd be happy to continue accepting donations.
One problem we're running into is that somehow word is being spread that we're accepting semi-trailers. WE ARE NOT! We don't have the capacity or ability or anything to unload them.

Thanks,

Hi Team,

If someone owns a business in flint- can they go to the fire station and get water/ water filters for their business?

If they own a home and a business- what is the protocol if they want resources for both locations?

Has anyone worked with the Chamber in Genesee County? Just had someone say that 2-1-1 referred them to the Chamber. They happened to be good friends with the President and the President was "out of the loop".

Subject: RE: water pitchers- Fire Station #8 out

The resident should call 211.

Business are not supposed to get water, as far as I know. It's for residents, but we can't stop businesses from sending someone to pick up a case.

JIC, correct me if I'm wrong.

Subject: water pitchers- Fire Station #8 out

Hey There,

I have a resident looking for a pitcher for his home as the filter does not fit the tap. He went to fire station #8 and they were out.

Also, per the below conversation, has a location been identified for businesses to pick up water?

Thank you,

Laura

Carol,

I have a representative from the Chambers of Commerce in the Local EOC, however not today.

The Chamber is extremely in the loop and I'm hoping to have a representative from the Chamber in the JIC as well.

They are working on identifying a location where we can drop off water that restaurants can access.

Please let everyone asking that I am in constant contact with the Chambers, have met with multiple members, and am working with them to get whatever they need.

We are set.

It would be difficult to say that they now have to incur that cost if they previously used the tap.....

Shanon and my understanding is that businesses won't be turned away for resources. But you saw the earlier email that we're really encouraging people to take only one case of water per day. So they shouldn't expect that the water resource sites are going to become their source for customer water – but we realize staffers need water.

Does that make sense? Anyone else, please weigh in if you believe we should answer differently.

Subject: Businesses- chamber?
Importance: High

Hi Team,

If someone owns a business in flint- can they go to the fire station and get water/ water filters for their business?

If they own a home and a business- what is the protocol if they want resources for both locations?

Has anyone worked with the Chamber in Genesee County? Just had someone say that 2-1-1 referred them to the Chamber. They happened to be good friends with the President and the President was "out of the loop".

Hi Chrissy,

I am in the EOC with Janet and we have a solution to help remove some of the loose cases of water from your facility and transport them. Mobile Medical Response (MMR) will be sending a truck and volunteers to load the water. I will send them with your contact information so they can be in touch once they arrive on site.

Jay

Hi Janet,

We're currently overloaded, especially with regular (almost daily) donations coming in from ArtVan. If we could get some help moving the water out to other locations, we'd be happy to continue accepting donations.
One problem we're running into is that somehow word is being spread that we're accepting semi-trailers. WE ARE NOT! We don't have the capacity or ability or anything to unload them.

Thanks,

Thank you Mary. I will defer to MSP and I am looping them into this email.

MSP Team: MSHDA contacted 437 single family household in Flint yesterday that have a MSHDA financed mortgages to determine if they needed filters. Below is a list of 24 households that didn't have filters (pay no attention to the color differential) that would like them.

I wanted to share this list with your team before proceeding any further in order to get direction on how to best proceed. Your team was most helpful last Friday in getting the additional filters out to our two larger rental units and if you can do the same here, we would be most appreciative. If not, we are happy to deliver.

Brian.

Subject: RE: Single Family filter needs

Thank you Mary. I will defer to MSP and I am looping them into this email.

MSP Team: MSHDA contacted 437 single family household in Flint yesterday that have a MSHDA financed mortgages to determine if they needed filters. Below is a list of 24 households that didn't have filters (pay no attention to the color differential) that would like them.

I wanted to share this list with your team before proceeding any further in order to get direction on how to best proceed. Your team was most helpful last Friday in getting the additional filters out to our two larger rental units and if you can do the same here, we would be most appreciative. If not, we are happy to deliver.

Brian.

Quick thought on the hotshot form for water resources delivery. We've been receiving a number of requests from homebound residents for pick up of water for testing. Can we add this need to the hotshot form? So far it's only been a handful of requests.

Thanks,

Subject: Assistance Needed per GISApp Comments

Hi Jay,

Below is info taken from the comments section of the data collected today:

- Needs help with water filter installation
  - Wants a test kit
  - Wants more water
  - Woman has Cancer and needs Spring Water (can't drink purified)
  - Has Brita filter needs a Pur

I was previously sending these to Michelle but Logistics advised I should send them to you.

Thank you,

Carly

Subject: Water Distribution/Pick Ups

Jamie,

At last week's community meeting at Red Cross, you had mentioned coordinating some pickups from our Center for Hope for distribution to the Fire Stations, etc. Do you know if there is any progress being made on that front? We desperately need to move some water out of our gym so that our construction/renovation can continue as scheduled!

Thanks,

Chrissy Cooper

I asked the warehouse for a status on this.

The sheet you sent is that just the homes that already have filters and the open spots are those that will be getting filters once they arrive?

Thanks,

Attached is tracking sheet for Eagle Ridge Square. We have 36 homes without filters at this time. Also, someone came out on last Friday 22nd at about 4:45pm and my maintenance had already left for the day so I was told someone would be back today to make delivery. Will you please confirm that another delivery attempt will be made during business hours Monday - Friday 8am - 4:30pm. Thank you

Hello Rob,

We are working on demobilizing the Penske trucks that you donated because most are no longer needed. I am hoping you can clarify a few things for me to assist in the return since we also received donated Penskes from Steven Edge.

What location are you out of? Warren or Plymouth or someplace else?
Are there certain vehicle id's that need to be returned to you?

Any information you can provide would be most appreciated.

Thanks in advance!

Hello Rob,

I received an email that you would like some clarification on the Penske Trucks that have been donated to the Flint Water Response Team effort. I am in the Recovery Unit and have submitted some of the initial requests for trucks. I show that we have received a total of 11 box/cube trucks which we coordinated through the Local EOC (Jay Eickholt). Below is the breakdown of the dates we received each truck.

Penske Trucks	16ft	8	1/15 - 1/16
Penske Trucks	16ft	3	1/18/2016

Please let me know if this does not line up with what your records show and we can talk.

Thank you,

Hi Jay,

I'm following up on the voicemail I left you. Dave Gutierrez pointed me to you. One of our guys managed to lose keys to one of the state vans we were lent this weekend. I'm trying to track down the person in charge of the fleet so we can get the keys replaced and get the van returned.

If you can point me in the right direction, I'd appreciate it.

Thank you,
Ryan Schmudlach

Attachments: Guidelines for Water Filter Donations.docx

Attached is a prettier-looking document about water filter donations. I was unsure about these two options so I've left them off for now until someone can give better information about them (specifically, the model number)

Manufacturer	Replacement Cartridge #	
Zero Technologies	ZF-201	water pitcher only
Brita Products Co.	FR-200	facet mount only

Once everyone on this email/others at EOC has approved the document, please send it back and I will have the JIC approve it. As noted, I'm understanding that this is not for public releasing, but for giving to specific donors who have already been vetted.

Subject: RE: Filter Donations

Thanks Janet. So the end product would be a flyer that MCSC could send to people looking to donate filters to inform them about their options? I think that is a great idea.

Here the procedure for accepting filter donations that we established with SEOC Logistics:

Guidelines for receiving donations of filters through local EOC
1. Will only accept filters that have been included in the list of "NSF Approved Filters and Replacements for Donation."
2. Will only accept filters in sealed boxes/packaging.
3. Will receive filters at overflow warehouses established for donations.
4. Will distribute filters with water donations to community organizations.

If this goes through the JIC, please make sure that it won't end up being an official press release (considering how hesitant SEOC Logistics was to allow us to accept filter donations in the first place, and the trouble that we are having with identifying potential warehouse space for donations).

Subject: Re: Donations

All,

Bottled water is flowing into the city in abundance and serves the purpose for drinking and cooking. This project is looking to provide a solution to basic showering needs for the citizens, in an effort to eliminate the concern of skin irritations etc.

Please understand that there is absolutely NO reciprocity sought from the company looking to install these systems. They are not only looking to donate the systems but also costs associated with the installation. The concern is simply, if an agency is identified to have the system installed at their business, offering showering facilities to the public, will said agency now have the concern of paying a substantial increase in their water bill. The objective is to avoid creating another problem with their solution. Based on the latest statement from AG Schuette, water charge is currently being discussed to give relief for those under the Flint water system, therefore is there a system in place, or can discussions be added to ensure relief efforts of this nature create no additional hardship to agencies offering their facilities as a relief site?

Thank you for taking the time to assist with the planning process of this significant project.

Respectfully,
Pamela Coleman

Janet

If products are not something we are able to currently use, I am working with our Recovery Unit to make a list of those businesses that have come to us with products/possible solutions. Maybe we will be able to use them in the future. This determination will need to be made at a later date. We need to clarify if they are in fact donations or businesses wanting to be paid for their services. This information probably needs more clarification.

Ms. Hunter,

I have been contacted by an agency who is looking to install reverse osmosis systems, in locations yet to be identified, that are willing to allow the public to use their facilities for showering. However, there is a concern for water billing for the facility that is chosen to receive the systems.

If you are able to give me any guidance or direction on a project such as this one, I would be most appreciative.

Thanks

Subject: Fwd: The Drinking Water Disaster in Flint MI
Attachments: Seychelle Capabilities Summary 1-20-16.pdf; ATT00001.htm

Jay:

Just to let you know that the package was delivered and signed for by somebody by the name of Smith, probably in your mail room.

Please confirm that you got the package.

Be sure and wet out the filter In each bottle. The simplest way to do this is to fill a bottle and squeeze it into the sink with the straw open on the cap. You may see some residue from wetting the filter. Do this a couple of times then you're ready to try the water that's creating all the issues.

I will call you tomorrow after you've had a chance to do that and review some of the materials that were sent in the package as well as look at the email I sent with the capabilities summary sheet attached.

If you have any questions today, don't hesitate to give me a call.

Regards,

Jim

> Dear Jay:
>
> I enjoyed talking with you today about the possibilities with the Seychelle Advanced Filter Bottle which takes out all of the contaminants in drinking water. Seychelle has just been

approved by FEMA and we are in the process with GSA as a potential supplier for disaster relief with other government agencies with a superior water filtration system in a bottle that takes all of the contaminants out on the EPA list for drinking water.

I would like to introduce you to Seychelle Water Filtration Products as we have been in business since 1998 with 17 years of experience. We are a fully licensed and insured **Small Business** serving all of the United States as well as overseas. We are a company working in the field of portable water filtration bottles with breakthrough technology that takes all of the contamination out of drinking water, not just lead that is on the EPA list noted on our website and as stated in the capabilities statement with a link to the website. What you don't know is that there are usually more contaminants in the water than municipalities realize. We have sold over 7.5 million filters products to-date in a variety of containers; but primarily bottles.

This is unmatched by anyone in the business as they only take out primarily chlorine, taste and odor (CTO) and a few other contaminants, This is the primary reason people purchase bottled water (don't like their tap water) which is a single use bottle that ends up in a land fill. All Seychelle products are Biodegradable, BPA free, are non-toxic and do not leach as bottle water plastic (PET) does. Our plastic bottles are LDPE.

We have developed lasting relationships with numerous qualified businesses which include customers and vendors. This includes having an outstanding reputation with city and state agencies. Since we are a publicly traded (OTCQB/SYEV) company, this includes the SEC since we are required to file quarterly reports. Importantly we are approved by FEMA and in the process of being approved by GSA to make this contact with you.

We would sincerely appreciate working with you on your current drinking water disaster as well as your future ventures and look forward to your association with us.

In this regard, We are sending under separate cover, 2 bottles for you to try with the contaminated drinking water that Flint MI residents are having to deal with now. Included in the bottle shipment that you should receive on Monday, will be some recent research on the viability of our proprietary filter technology prepared by our President, Carl Palmer. Be sure to follow the directions with the bottles as the filters in the bottles are shipped dry and you have to get them wet to be able to use them. Each bottle is equal to 750 1/2 liters of bottle water which makes the product very economical compared to bottled water.

I will call you next Tuesday to make sure you received the two bottles and research on Monday. Hopefully you will have had a chance to test them during this time of need. Please view our attached government targeted capability statement as well.

Regards,

Jim Place
Seychelle

George,

The American Water Company has offered expertise and resources in resolving the Flint emergency. As Matt states, American Water is a privately owned entity that owns and/or operates over 300 water systems, including some municipal systems as large and larger than Flint.

From my personal interactions with this company and their staff at conferences and workshops, they do have significant expertise and probably have resources that are relatively mobile. If you and the response team for Flint think they could provide any assistance, Matt is offering their services.

Subject: Assistance from American Water

Richard -

I wanted to reach out on behalf of American Water and offer our expertise and resources as MDEQ works with Flint. As you know, with over 300 drinking water systems, American Water has vast experience with treating waters of various source qualities and has also performed research specifically on lead in drinking water. Please let me know if we can be of assistance.

Thanks
Matt

Please see the email below. Are we not taking donations of canned water? If so, when was this implemented? I know we were not giving any more out until the lab analyzed the samples of the canned water which were all 'not detected' results for lead and copper but was not aware we would not provide them to the public or receive additional donations of the product after the testing was completed.

Jen I am writing this email to you because we were preparing to ship to your Flint, MI city 4 more full truckloads this week (212,000 of 12oz cannedwater4kids aluminum cans).

Our Joan Roehre, contacted the same person whose name is Jay at Genesee Emergency Operations phone our first 2 truckloads we shipped and we were told that the State mandated and is not accepting any more canned water because of too many false/positive test results. Our Joan Roehre was told to call 517-324-2328.

Do you have any information confirming this directive and if you do is it our cans that are the problem or someone else's.

We weren't aware or told that there were additional issues.

We are a very lean e-charity with limited resources (Mostly Volunteers) and we spent the last week investing our time and limited precious resources to get this water shipped to your Flint, MI.
In fact we had an independent owner truck driver who volunteered his services for free to get this water to your city.

We do need your help and direction Jen because I have put everything on hold today and this is costing our supplier and transportation people lost time and business.

Thank you very much for your understanding and help..

Greg

Hello Mr. Stromberg,

The citizens received a Total Dissolved Solids Meter with a ZeroWater pitcher: https://www.zerowater.com/10c-pitcher

I am working with Doug at ZeroWater (to address the concerns and provide accurate information to the citizens regarding the capabilities of the meter. The citizens misinterpreted the elevated levels on the meter, presuming it meant there was elevated levels of lead in the metered water. These citizens have been informed the difference of the TDS meter and a laboratory analysis for lead and copper. I will be requesting Doug to also call the citizens to reiterate this. The citizens lack trust in any water they are provided and have been using the supplied TDS meters to test any bottled or canned water they have received from the city.

Feel free to give me a call if you would like to discuss. I will keep you informed as to any messaging developed to address the concerns.

Thank you,

Kathy one of my team members asked is it possible for you to send us one of the testers that are being used in the home. Also, can you tell us who gave your citizens these testers and who is the manufacturer? We have contacts with University of Wisconsin Milwaukee labs and state certified testing. We would like them to re-test our water in cans that is from the same batch sent to your citizens and to test the accuracy of the tester being used.

Thank you very much.

Greg

Jay,

We have city section maps with parcel information that tells us what parcels have/don't have filters. Would you prefer we send these daily to the local EOC (map room?) for them to determine priorities? Or would you like us to send them directly to ARC based on priorities determined here? I think that the local input would be important in this process.

Thanks,
Brianna

Hi Michelle,

Thanks for the info. Judy informed me that you called regarding the Your Ride clients that still need filter. We'll be glad to do the initial delivery and then hold off as requested.

For the 2-1-1, we'll get the passengers to the distribution centers located along the designated fixed routes. The passengers just need to let the driver know that is their intention and we will not collect the fares and will just log the count of passengers riding for the water supplies.

MTA added the 5 requested Water distribution sites as stops along the following fixed routes: Fenton, ML King, Franklin, Dupont and South Saginaw.

We are ready and willing to help – please don't hesitate to ask for assistance as needed.

Thanks again,

Edward G Burger

Hello Chris
White Horse

Just touching base for you to have dinner/beverages for 25 on Sunday the 14th for the warehouse just like last week.

If you need anything I will be off Friday and Saturday but I have backup people in place
Diane Laban
Joyce McCarthy

I will be in on Sunday morning.

Thanks much

4315 N. Clio Road

To: MSP-SEOCPIO
Subject: Dinner Change

Quick request: Could you get with the food unit and ask that we scale back the JIC dinner to feed eight individuals? We will need half to be meatless. (That can include fish.)

It's Lent and several folks are on Friday dietary restrictions.

--Ron

Subject: FOOD UNIT SCHEDULE - S DRIVE

Joyce and Michelle,

IMPORTANT: I had been updating the FOOD SCHEDULE so it makes more sense and have now placed it on the **S: DRIVE** so we can all access it at any time.
Joyce -- I incorporated your changes but may not have done so accurately, so please double check.
Michelle -- Please add your food information and check your days off as well.

This schedule is now located at: S: ADMIN / 1_FOOD UNIT Schedule_Flint WC *(I put a "1" first so it would show up at very top of ADMIN location)*

Sorry for the inconvenience. I will review it one more time in the morning and then (Joyce) can print in color for our meeting. THANKS!

Hi Michelle,
Wraps are made with flour tortillas, so I can't have those either. I've been working with this for several years with my 3 girls too. We don't expect other people to try and figure it out. It's so goofy! Anyway, I really appreciate you looking out for me!

Side note: Stephanie Vallier in Mackinac is likely related☺ Hubby's family is from the U.P.

Hi Connie
I will try to keep you in mind when ordering. Unfortunately tomorrow I have already ordered Goulash soup that has noodles in it I believe which is probably wheat based. Although I do have a salad planned so that should help.
Thanks
Michelle

Hi ladies,
I brought tuna today to add to the salad. This is such a crazy list and poses some interesting ordering at restaurants. I feel so much better, so the benefits certainly out-weigh missing out on the really good stuff. Thanks again for all of your help.

I can have meat, fruits & vegetables that don't include:
-dairy (cheese, some dressings & sauces)
-wheat/gluten (bread, tortillas, croutons, breading, baked goods, most soups, some sauces)
-egg (mayo, some dressings)

Let me know if you have any questions.

Hi Connie,
I'm going to pass this information on to **Michelle Gilsdorf,** another EMHSD secretary who has been doing a great job ordering most all our food. She and Joyce are already aware you'll be periodically in the SEOC, so we'll probably always be prepared for you. Hopefully you can have some of the items delivered today from Saites. The roast beef has been transferred to our staff kitchen as leftovers today, but I can bring you some slices if you'd like ... just let me know.

Thanks, Diane

Subject: dietary restrictions

Good morning Diane,

I will be at the SEOC on Thurs 2/4 and Fri 2/5 for lunches. I really appreciate you watching out for me! This is a little late for today. For your notes-

I can have meat, fruits & vegetables that don't include:
-dairy (cheese, some dressings & sauces)
-wheat (bread, tortillas, croutons, breading, baked goods, some sauces)
-egg (mayo, some dressings)

The list is a bit restrictive. I'm also a big fan of leftovers. Rumor has it, there is roast beef ☺ in the fridge.

Thanks,
Connie

Subject: Meals at the new warehouse
Attachments: Kroger Warehouse Plan.docx

Ladies,

Please begin ordering lunch and dinner for the new warehouse staff as well....

We are requesting meals for approximately 17 personnel assigned to the Secondary Warehouse located at 2629 W. Pierson Rd. Meals will be provided to State Employees only, 7 days a week beginning January 6, 2016.

Thank you,
Wendy

State Emergency Operations Center
Logistics Section
517-284-3893 or 517-284-3892

Kroger Warehouse Plan
(Warehouse #2)

Mission

- Overflow for donated and un-palletized water from Clio Warehouse, Food Bank, etc.
- After expiration dates and recall notices have been verified, palletize and re-stock PODs.

Staffing

- DOC Manager
- DOC Supervisor for work crew
- 6 man work crew – DOC
- Adventists willing to assist with the warehouse. Tom Weber is coordinating with Mike from DOC on arranging having them work with current DOC warehouse managers.

Days and Hours of Operation (staggered with Food Bank)

- Fridays – 1 pm –6 pm (open to receive shipments)
- Saturdays – 12 pm - 6 pm (open to receive shipments)
- Mondays – 1 pm –6 pm (open to receive shipments)

Food Bank Hours of Operation

- Saturdays – 9 am – 3 pm
- Sundays – 9 am – 3 pm
- Mondays – 9 am – 4:30 pm
- Tuesdays – 9 am – 4:30 pm
- Fridays – 9 am – 4:30 pm

Intent

This warehouse is only for receiving and not for distribution, therefore will only be open during surges identified from the Food Bank's experience.

This site could turn into a POD as well and hours would be extended. With a large parking lot for citizens to safely park and walk in the front door to acquire filters, cartridges, and water. Also, a recycling center will be located in the parking lot.

Subject: Meals at warehouse 2 (Old Kroger)

Change in plans, please cancel meals at warehouse #2 for tomorrow. The operations hours for that warehouse is Friday, Saturday and Monday. Originally DOC was going to staff it 7 days a week, but due to the low traffic and cost, we are looking at only staffing it those 3 days which means we'll only need meals there for those 3 days. I've cc'd Cindy who is working at Logistics so she can check with Mike Farmer, DOC, and he can confirm whether we can cancel them for Tues-Thurs as well. Thanks ladies. Sorry for the back and forth!

How many people did you order meals for at warehouse 2? If DOC decides to cancel I'll let him know what we have and see if someone can meet them there and take the meals to the other site.

As I mentioned to you earlier, we will have to pay the vendor since we didn't give 48 hour cancelation notice. If you do decide to cancel meals to the warehouse #2, where would you like to have these meals delivered to instead (if possible).

Joyce

Subject:	Entry to SEOC

The "Governor's access door will now be locked around the clock on the weekend. It will remain open from 7:30-5:00 on Monday-Friday for contractor access, during which time Capitol Security will be available to monitor.

As soon as the main entrance into the SEOC hallway is completed and available, the Governor's access door will be *continuously locked; entry will be obtained only with a DTMB access card.*
Should there be a need for additional persons to gain entry, we should place security staff at that main entrance.

Thanks all!

Operations Section Chief, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

Subject: snacks from Gordons

Did you by chance go to Gordons this week and get snacks?
They need to get supplies for Flint.
I guess Janette Doll ordered on the account before and had corrections pick it up, but if we have to go she might as well give us the order and we grab it all.

> Change in plans, please cancel meals at warehouse #2 for tomorrow. The operations hours for that warehouse is Friday, Saturday and Monday. Originally DOC was going to staff it 7 days a week, but due to the low traffic and cost, we are looking at only staffing it those 3 days which means we'll only need meals there for those 3 days. I've cc'd Cindy who is working at Logistics so she can check with Mike Farmer, DOC, and he can confirm whether we can cancel them for Tues-Thurs as well. Thanks ladies. Sorry for the back and forth!

STATE OF MICHIGAN
DEPARTMENT OF TREASURY
LANSING

RICK SNYDER
GOVERNOR

ANDY DILLON
STATE TREASURER

Michigan Sales or Use Tax Single Purchase Certificate of Exemption Sales to the State of Michigan

Issued under authority of Section 4h of the General Sales Tax Act, MCL 205.54h

The State of Michigan is exempt from sales and use taxes imposed on its purchases of tangible personal property, or use tax imposed on its purchases of certain services taxed under the Use Tax Act (MCL 205.93a), being telecommunications, rooms or lodging, laundering or cleaning of textiles, and transmission and distribution of electricity.

NOTE: A vendor or contractor who provides a service of constructing, altering, repairing or improving real estate for the State of Michigan shall pay sales or use tax on the cost of materials affixed to the real estate in performance of those services. Tax is due on the cost of materials affixed to real estate regardless of whether the materials are purchased or owned by others, including the State of Michigan itself. Specific limited exemptions exist for non-profit hospitals, church sanctuaries, non-profit housing qualifying under Section 15a of 1966 PA 346 (MCL 125.1415a), etc.

The purchaser may claim a tax exemption at the time of purchase by providing the seller with this signed statement that the purchaser represents a governmental entity.

Purchaser's Certification

I, the undersigned purchaser, certify that the tangible personal property being purchased is not for resale, is paid for with government funds, and is used in connection with the operation of the governmental entity named below.

Name of State of Michigan Department, Institution or Agency Michigan State Police Emergency Management & Homeland Security Division	
Federal Employer Identification Number 38-6000134	State Sales Tax Number
Name of Authorized Representative (Print or Type) PENNY BURGER	
Signature of Authorized Representative

Hello Ms. Mccarthy,

Here are the folios that you were looking for. I was looking through these folios and it looks like these were all billed to different parts of Michigan State Police. Is there a certain spot you would like these folios sent?

Subject: Portable Bin

J-

Good morning. Any chance that you have or could order a plastic storage bin where hanging file folders can be placed. We are starting to pile up some PIO documents in here and I would like a bin to place on the desk here to keep them in.

Here is a link to one that I am referring to:

http://www.officedepot.com/a/products/656328/Office-Depot-Brand-Stackable-File-Tote/?cm_mmc=PLA-_-Google-_-Filing_Storage-_-656328-VQ6-90249813253-VQ16-c-VQ17-pla-VQ18-online-VQ19-656328-VQ20-18283950120-VQ21-&gclid=CNbisMnq78oCFYsCaQodEBwMOg

Subject: URGENT - Records Request

Importance: High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records *related to Flint water, please forward this message to those members.*

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Subject: FOOD UNIT - VENDOR Tracking Sheet
Attachments: VENDOR_Northern MI Storms_Joyce_Michelle.docx

Hi Michelle (cc: Joyce),
Per your request, attached is the current VENDOR tracking sheet so you can fill in your activity. FYI - If you notice a yellow folder in my in-box, it's probably the three pending invoices with Jackie's signatures. Feel free to take these and process. Also, on my counter is a folder for you containing copies of pending "sign in" sheets that need to go with the invoices received up through 1/24. After that date, you will need to make two copies of each of these daily sheets to attach to the meal invoices you and Joyce are covering.
I'll get copies of all invoices you have stamped and processed for me once we get settled at our new location (just so I'll have a complete record on my end).

Looks like the pop supply for the next four days is good. Hopefully the water will come in soon. If you have too many "treats," free to make a tray and put it on the counter area next to my office. People eat anything that is put there.

Thanks again for everything! I'll check in sometime next week. Will try to keep my phone on me at all times.

Subject: RE: FOOD UNIT - VENDOR Tracking Sheet

Oooh yummy. FYI - Jersey Giant didn't show for lunch today, so we had "emergency pizzas" and leftovers (they liked beans and potato salad and some boxed lunches). Just wanted you to know if case you see three pizza boxes in refrig. Got case of water from Pizza House too so that helped.

McCarthy, Joyce (MSP)

From: Laban, Diane (MSP)
Sent: Sunday, January 24, 2016 8:26 PM
To: Gilsdorf, Michelle (MSP); McCarthy, Joyce (MSP)
Subject: FOOD UNIT - Miscellaneous

Michelle / Joyce,
Our flatbed cart did get taken to the new location, so Pam found a smaller one for us to use for a week. She asked me to leave it in the kitchen instead of near the elevator.
That's where it is. Tried to give away as much food as possible, but there is everything push everywhere. Do what you want with it. Put out sign next to my office for people to take the food.
Thanks

Subject: Office supplies for warehouse

Hi Jay,

Can you see what you can round up for supplies for the warehouse and let me know if you can't find everything they are looking for:

Ink pens
Stapler
Staples
Clear tape (scotch w/dispenser)
Toilet tissue
Paper towel
Hand soap
Post-it notes
Clipboard
Staple remover
Sharpies medium
Legal pads
Binder clips (small & medium)
Paper clips

Thanks,
Kristi

Subject: Use of EMHSTC Vehicles for Flint Response

Hi Carol,

I just want it noted that the four trucks/suburbans borrowed for the Flint Response were returned with a lot of junk (boxes, garbage, etc.) in the back of them. In fact we even found a box of 4 Brita filters that should be returned to Flint. If you know of any division staff going to Flint next week we could ensure the filters get in their hands for a return. Also our lift gate on the Ford is acting up now so Ron is going to work on that.

I think a take away from this is when things are borrowed for an event like this there needs to be an official check in and a check out process so there are no surprises like this. I am wondering if all of the donated Penskes that were borrowed had some kind of checkout from the event before they were returned. It just seems to be an area of improvement to keep in mind for future events. Thanks!

Subject: schedule for the weekend

I am available for most the weekend.
I would prefer however to have one night free to see my family possibly Saturday night.
My kids don't usually get up until noon so working at night eliminates seeing them at all.
Diane let me know what works for you? I could work Saturday day and you could work the night.
I would like to go to church which I can do either Saturday evening or Sunday morning.

So let me know which one works for you as I know you guys also attend church.
Thanks

Subject: RE: food vendors for that area

Well, here's what I know, which isn't much:

1. Panera Bread does . Call to ask about their hours for Sunday catering.
2. Grand Traverse Pie Company does ' Call to ask about their hours for Sunday catering.
3. I think Saites Brothers Catering . oes (they're in Potterville). Saites Brothers might even do Pizza for you, but I'm not sure, and I don't know whether they do Sunday catering.
4. Cottage Inn Pizza – Lansing (West)—I don't know if they do direct billing, but their number is ' .. so you'll need to call and ask them about the direct billing. **Their Sunday hours are: 10:30 AM – 1:00 AM.**
5. It seems to me Jet's Pizza does; their number in West Lansing is Their **hours of operation on Sunday: Noon – 10:00 PM.**

Hope this helps a little.

Not sure if you had a chance to work on this. I did edit it somewhat but I messed up your formatting a little so I just selected a template one.
If you don't want to use it, it's no biggie. I was just trying to figure it out.
I am working on Saites now.

To: Gilsdorf, Michelle (MSP); McCarthy, Joyce (MSP)
Subject: FOOD UNIT_Meals & Schedule Update
Attachments: FOOD UNIT_Meals & Schedule_2.2.16.docx

Michelle and Joyce,
Attached is new FOOD UNIT schedule with added columns. Please feel free to fill in missing information. I can't remember. Let's use this sheet to update as we go along and pass back and forth. We'll bring it to our periodic meetings, as it now has a "schedule" column. I do like to meet the vendor in person, if it's their first time coming here, as I usually do Food Unit for exercise and drills throughout the year and that helps me. Both new vendors tomorrow (Grand Traverse Pie downtown and Fireside Grill) will be calling me as they are pulling up to the building, so I'll let both of you know.

MICHELLE: Please note I have **PIES** coming for lunch tomorrow (in case you were planning on ordering pies for any upcoming meals). I do not have any waters or pops coming for either deliveries though. We may need to go to Gordons for fruit and snacks anyway. Also, I know I have outstanding food invoices - will try to get those to you soon.

Hope my big FOOD UNIT binder will show up. I want to completely redo it and add all this new information we are obtaining.

Thanks, D-

So why did you take my name out of the days we decided in the meeting? I was working some week days so you could work the weekend this week and get your stuff taken care of?

Subject: RE: Food Unit

I have a white binder on my desk of all the vendors I have used out there. Currently I just ask Blackstone's to come up with a menu for the week and they just run with it. We are exclusive now. Yahoo. Would be nice to meet the manager Spencer one day since we are now at that level of the relationship.
lol

Today only. We sometimes experience a surge of VIPs and need to accommodate. Dinner will be back to normal.

I got Ron's email and voice mail and upped the amount to 20 and texted him back. Sorry about that he caught me driving to Collins.
I am including this contact info to Joyce and Diane in case someone can't get in touch with me again. My contact out there for their food is the Spencer, the manager at Blackstone's his # is 810-610-2415. I have been strictly ordering from him and he has covered the 25 at the warehouse and 15 at the JIC weekdays for lunch and dinner and also 25 at warehouse for weekends.

Ladies,

I'm not sure who is working on this...

Can you please let me know who is handling? Thanks.

Hello,

Could you please have the Food Unit boost our lunch count to 20? I'm having a hard time getting through to Michelle Gilsdorf.

Thanks,

Ron

To: Laban, Diane (MSP)
Cc: Gilsdorf, Michelle (MSP); McCarthy, Joyce (MSP)
Subject: RE: dietary restrictions

Hi ladies,
I brought tuna today to add to the salad. This is such a crazy list and poses some interesting ordering at restaurants. I feel so much better, so the benefits certainly out-weigh missing out on the really good stuff. Thanks again for all of your help.

I can have meat, fruits & vegetables that don't include:
-dairy (cheese, some dressings & sauces)
-wheat/gluten (bread, tortillas, croutons, breading, baked goods, most soups, some sauces)
-egg (mayo, some dressings)

Let me know if you have any questions.

Subject: RE: dietary restrictions

Hi Connie,
I'm going to pass this information on to **Michelle Gilsdorf,** another EMHSD secretary who has been doing a great job ordering most all our food. She and Joyce are already aware you'll be periodically in the SEOC, so we'll probably always be prepared for you. Hopefully you can have some of the items delivered today from Saites. The roast beef has been transferred to our staff kitchen as leftovers today, but I can bring you some slices if you'd like ... just let me know.

Thanks, Diane

Subject: dietary restrictions

Good morning Diane,

I will be at the SEOC on Thurs 2/4 and Fri 2/5 for lunches. I really appreciate you watching out for me! This is a little late for today. For your notes-

I can have meat, fruits & vegetables that don't include:
-dairy (cheese, some dressings & sauces)

-wheat (bread, tortillas, croutons, breading, baked goods, some sauces)
-egg (mayo, some dressings)

The list is a bit restrictive. I'm also a big fan of leftovers. Rumor has it, there is roast beef ☺ in the fridge.

Thanks,
Connie

Subject: Conference call with our legislative and congressional liaisons/ EMHSD-Flint water

Hey Dwayne,

Who can help set up the below request?

Captain Kelenske is requesting a conference call(s) with legislative and congressional officials reference updating them on the progress being made to address Flint City's water issue (by the SEOC). He would like separate conference calls with each group. Would it be possible to set them up for tomorrow afternoon (Friday, the 8th)?

Let me know asap please.

Thanks and hope all is well,

Gabe

Subject: SEOC Schedule for Jan. 11-15
Importance: High

Good afternoon,

If you are receiving this email, it is because you have been assigned to work in the SEOC this week for the Flint Water Emergency. Attached is the staff assignment list. Please find your name and report to your assignment at 8 a.m. tomorrow (1/11) morning. The hours are 8 a.m. to 5 p.m. Lunch will be provided.

My cell number is

Thank you,

Wendy

Hi Joyce,

What you need to do is get a stamp from one of the other secretaries and write in not only your Index and PCA, but also the following:

Vendor ID:

Mail Code: 000

Commodity Code:

Your Index

Your PCA

Hope this helps.

Renée

Joyce—

Attached are two receipts that were signed and faxed here; one signed by Jodie Frese for $488.95 worth of water, and another signed by Sean Dennison (?) for $537.12 worth of water. I looked up Sean Dennison in Outlook and found that he is with DTMB, so my question is did he have permission to use this account also?

In any case, what needs to be done is for Jodie or whomever to obtain one of the other secretaries' stamps and write in their appropriate information:

From: Downs, Nancy (MSP)
Sent: Wednesday, January 13, 2016 9:04 AM
To: MSP-EMHSD-Division
Subject: RE: Coding for City of Flint Water Contamination incident
Attachments: DCDS Hours Entry by Coding Block.docx

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

From: Burger, Penelope (MSP)

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Importance: High

Hello Amy,

I did not hear back from you confirming the delivery time change and the additional catering requests?

Also, due to being tasked with a different position, I will no longer be the point of contact for the food delivery each night. Please contact Diane Laban at and she will direct you the point of contact each night to coordinate delivery and set-up.

For the invoicing, please send the invoice to Diane Laban (LabanD@michigan.gov) .

Thank you again for all your time and effort and let's not forget your great food and service!!!

Thank you for the phone call.

Yes, you may leave your dishes and pick them up the following night; however, it is easier for you, you could bring disposables.

If possible, could delivery time be bumped to 5 p.m. nightly? Serve time is 5:30 p.m.

Also, can we add:

- Saturday, January 16, Oriental Stir Fry-Chicken
- Sunday, January 17, Homemade Meatloaf

The State Emergency Operation Center, which is activated (where the food is being delivered to) due to the Flint Water issue and we are in need of food during the activation.
I thought of you immediately!

Please let me know as soon as possible on the added days.

Thank you,
Pam

Subject: Catering order
Importance: High

Good morning, Amy,

I would like to confirm food counts and delivery address for our catering orders.

Food counts: 45 for each night
Delivery time: 5:30 p.m.
Address: 4000 Collins Road, Lansing, MI (This is a secure building, before 5 p.m., there is a guard that will allow access through the gate. After 5 p.m., driver must call access number to be let in)

- Wednesday, January 13, Baked Potato Bar
- Thursday, January 14, Taco Bar-Beef

I would also like to add Friday night if possible (same counts, address, and delivery time)?

- Friday, January 15, Chicken Cordon Blue

I look forward to working with your company again.

If you have any questions, please contact me.

FYI
Hi Diane and Joyce
Ron Leix from the JIC contact 125 E Union St Flint, has asked me the official way he should be contacting us.
this should be the email we communicate through for them.
Michelle Kuzera is the contact at the local EOC address 1101 Beach St Flint
I told him the plan you had come up with here. With Diane being the main and Joyce and I are backing her up.

This is logistics

The same with Flint but I am the main and you guys can back me up.
I don't foresee me being gone for any reason but if I get hit by a bus or semi I have a book just like you Diane with vendors I have been using.

White Horse Tavern doing the big lunch of pasta for both. 172 people
Working on Jimmy John's possibly for dinner tonight have been 15 at local EOC Flint and 6 at JIC?
I am signed up for Panera tomorrow box lunches for 180 until I get a different count.
I have Red Cross signed up to bring them coffee and supplies today and tomorrow for lunch.
They finally got water delivered to them so they are set.
That's as far as I got.
Thanks
Michelle

I don't foresee me being gone for any reason but if I get hit by a bus or semi I have a book just like you Diane with vendors I have been using.

White Horse Tavern doing the big lunch of pasta for both. 172 people
Working on Jimmy John's possibly for dinner tonight have been 15 at local EOC Flint and 6 at JIC?
I am signed up for Panera tomorrow box lunches for 180 until I get a different count.
I have Red Cross signed up to bring them coffee and supplies today and tomorrow for lunch.
They finally got water delivered to them so they are set.
That's as far as I got.
Thanks
Michelle

Subject: RE: food unit

Thanks for all the info. Just now saw your emails, so didn't know you had sent this info. when we talked in the kitchen. Joyce in the SEOC tomorrow, but we may need to meet tomorrow briefly to figure out a schedule through the 31st. I'm still working on the weekend schedule we had discussed. Will get with you gals when finished.

FYI
Hi Diane and Joyce
Ron Leix from the JIC contact 125 E Union St Flint, has asked me the official way he should be contacting us.
this should be the email we communicate through for them.
Michelle Kuzera is the contact at the local EOC address 1101 Beach St Flint
I told him the plan you had come up with here. With Diane being the main and Joyce and I are backing her up.

This is logistics
MSP-seoclgc MSP-seoclgc@michigan.gov

The same with Flint but I am the main and you guys can back me up.
I don't foresee me being gone for any reason but if I get hit by a bus or semi I have a book just like you Diane with vendors I have been using.

Good Morning,

Attached are the guidelines for entering your time in DCDS by coding block for those of you that are working **overtime** for the City of Flint Contamination/Shortage event. Please use **Index 28900 with PCA 28670** for overtime worked for this event. Do not use these codes for your regular hours.

Please contact one of the division timekeepers if you need additional guidance in entering the special codes for recording your overtime worked on this special event. Division timekeepers are Michelle Gilsdorf, Richard Sheaffer, and Nancy Downs.

Thank you,
Nancy

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Subject: FOOD UNIT Schedule (1/16 - 1/31)
Attachments: FOOD UNIT_Schedule.docx

Michelle and Joyce,
Attached is a blank schedule through the end of the month that I thought the three of us could sit down and confirm/fill in. **Can we meet in Terrace Room around 3 today?**

I shaded in yellow the times that are not good for me, but then again, they might not be for either of you too so I'm flexible. Note: The week of the Jan 25 (M-F only) I will be out at the GOB. My plan is to have all the lunches and dinners ordered so all you need to do is meet the delivery people, set up, clean up, etc. Of course, there is also the all-day coffee making, cooler and snack replenishing, and emptying waste baskets and bottle cans, etc.

Let me know what you think. Thanks

Logistics Chief,
Please note that **Joyce, Michelle G. and I** have met regarding FOOD UNIT / SUPPLIES UNIT coverage from **Saturday, 1/16 through Sunday, 1/24.** I will send you a copy of that schedule by the end of the day tomorrow (Saturday). Until then, please note the following:

- I will be leaving at 4:30 pm today and will not be in again until tomorrow (1/16) at 2:00 PM.
- Michelle is scheduled for this evening and tomorrow morning so she is in charge of both **dinner tonight** and **lunch tomorrow**, as well as coffee duties.
- Lunches and dinners have been ordered through Sunday, 1/17 ONLY.
- I will place food orders for next week starting tomorrow. **NOTE: Unless instructed otherwise, I will be ordering both LUNCH and DINNERS for the week of 1/18 – 1/24 for approximately 45 people.**

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

Hello Amy's Catering

There was no response from anyone regarding picking up the food trays from last night. I packaged all the stuff up and rinsed some of it off or dumped it down the drain. Some trays still have broccoli and rice in them.

I left my cell number with the driver last night to give to the person who was working this morning. I also called this morning at 9 am and left a message on your voicemail. We would appreciate it if someone would come back the in the morning on next day and clean up; as we need to prepare for the next meal.

Action: I would appreciate it if someone from Amy's would come get them so they don't start smelling.

The chicken cordon blue was wonderful and people were very happy and grateful with the selection especially the vegetables. However, the top two trays of chicken were cold and the cheese inside was not even melted. I put them in the oven to get them warm, which was a little bit of a task as we are not set up for that. I was just wondering if there should have been two chafing fuels instead of one underneath the trays to help keep them warm?

Thank you for your service and partnering with us to help the people in Flint.

Hi
I just wanted to let you know that the schedule for food is incorrect.
Diane is to be the main point of contact is something on the food order needs changed as she is in charge of all food ordering/schedule etc.
Michelle is the main point of contact for Flint food.
The names that I had given Penny is who is on duty at Collins to set up during that shift. etc.
We made our shifts 7:30 or so-2pm and then 2-whatever.
Today I am on until 2 or so then Diane is coming in to take the afternoon shift.
Tomorrow is ok
1/18 Monday is Michelle am/Diane pm
1/19 Tuesday is Diane am/ Joyce pm
1/20 Diane all day
1/21 Joyce am/Michelle pm
1/22 Diane all day
1/23 Joyce am/Michelle pm

Thanks
Michelle

Subject: SEOC Staffing through 1/31/16

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

Michelle:

I received your message regarding our supplies. They will be picked up when we deliver tonight's meal. A message was left in regard to this information.

If you would like tonight's meal picked up before tomorrow's delivery, it will need to be picked up this evening.

Please advise pickup times with the delivery driver at 5:00.

In regards to yesterday's meal - all of the chicken was cooked for the same amount of time / temperature. It should not have needed additional cooking. I apologize that you were not satisfied. I will address this issue with my staff.

Should you have additional questions or concerns feel free to respond

Amy @ Amys Catering.

> There was no response from anyone regarding picking up the food trays from last night. I packaged all the stuff up and rinsed some of it off or dumped it down the drain. Some trays still have broccoli and rice in them.
>
> I left my cell number with the driver last night to give to the person who was working this morning. I also called this morning at 9 am and left a message on your voicemail. We would appreciate it if someone would come back the in the morning on next day and clean up; as we need to prepare for the next meal.
>
> **Action:** I would appreciate it if someone from Amy's would come get them so they don't start smelling.
>
> The chicken cordon blue was wonderful and people were very happy and grateful with the selection especially the vegetables. However, the top two trays of chicken were cold and the cheese inside was not even melted. I put them in the oven to get them warm, which was a little bit of a task as we are not

set up for that. I was just wondering if there should have been two chafing fuels instead of one underneath the trays to help keep them warm?

Thank you for your service and partnering with us to help the people in Flint.

Importance: High

Are we having fun yet?! YIKES
Okay Ladies. Here's some information for your shared duties on Sunday, January 17 and other FYI's:

First off, Amy's Catering had been coming every morning to pick up their catering trays thus making our tables clean for the boxed lunches. They did not come this morning (Saturday) and poor Michelle had to clean and move everything to a cart. In talking to Pam about food information in a 1/13 email that I didn't recall seeing, I went back and discovered she had cc:d me on a 1/13 email between her and Amy's Catering that was in a long string of interactions, and I only read the top one. Ugh! This is what she had told Amy's Catering: ***"Yes, you may leave your dishes and pick them up the following night; however, if it is easier for you, you could bring disposables. If possible, could delivery time be bumped to 5 p.m. nightly? Serve time is 5:30 p.m."*** I am not sure why they came back every day at 8:30 am for me. So, tonight I did the same thing Michelle did and put all the trays on our cart. You will both see them during your shift tomorrow. They will pick them up on Sunday night when they deliver the meatloaf.

On to the rest .....

- **Attached** is the FOOD UNIT schedule through 1/24 that we discussed. We can make changes next Tuesday.
- **Attached** is the Vendor sheet I use to keep track of everything.
- We have new coffee thermos. Looks like it holds a little more.
- I stocked the Comm. Room with some more legal pads and pens (as everything was already packed)
- I have placed orders from OfficeMax for water, so hopefully it will come soon.
- We could **use more ice from Gordons for the coolers**, but I think we'll survive without it if nobody wants to make the trip..
- Pam informed me that she is a Logistics lead under the various Logistics Chiefs. As such, make sure we cc: her anytime we email the Logistics Chiefs. She told me in person I was to order **lunch and dinner through Monday night only** (*which I have done*). We should get word on the new schedule from Captain soon. (Apparently 30 FEMA people are arriving because of declaration. They will likely be housed in the Presentation Room and meals on their own – not sure)
- On **Sunday, January 17,** (Joyce) lunch is coming from **PANERA** at **11 am** (50 boxes and some salads and cases of pop and water). They will invoice me so you should have no receipt. Food cards are on my counter.
- On **Sunday, January 17** (Michelle) dinner is coming from **Amy's Catering** ☺ . Should be meatloaf, etc. Sorry you'll have to pack up the trays. Since we're done with them after this date, not sure when they'll come to get them.
- On **Monday, January 18**, (Michelle) lunch is coming from **PENN STATION** at **11 am.** I gave them your **cell phone** for any problems. I placed the order with Casey (male), but Ron is the manager. They will be sending **43 boxed lunches and 7 salads each with chips and cookies, but I also order a separate cookie tray** (little cookies that everyone loves the best). They **are not** bringing any pop or water as I am hoping we will have enough for now that comes from Panera's. Food cards are on my counter. **Just put receipt on my chair.**
- Dinner on Monday is a potato bar from McAllister's, but I will be here for that delivery.
- Both of you should feel free to go down to the corner of the SEOC where Jaclyn sits and ask them to assist you with the **MAIN GATE** situation. Matt McCormick was on the computer in that area whereby he could see the

main gate and buzz people in. I asked him to call my cell when Amy's Catering came. Turns out, I was up at the desk so I did it anyway, but nice to know we have that capability.

Sorry this is so lengthy. Please feel free to call me tomorrow with any issues. Thanks so much! (Nice Job today Michelle – you did a lot!)

FYI:

- Attached is a FOOD UNIT staff schedule we created just so you are aware of who is on duty everyday. We realize hours of operation may change after Monday.
- **Lunch and dinners for 45 have been ordered through Monday, January 18**.
- I will not order any more lunches or dinners after the January 18 until I receive word from someone in the **Logistics** realm.
- Our plan is to have a bagel/muffin tray first thing **Tuesday morning, January 19, in honor of Captain's birthday.** I will keep you posted.
- I have ordered more legal pads and pens (9 volt batteries coming for the microphone) and they are stocked in the Comm. Room. Please let me know if you need other supplies.

Thank you ... Diane

Subject: Food/Supplies

Diane,

Here is the food count for the remainder today through Sunday.

Please order enough lunches and dinner for 45 people (if this number changes I will let you know). I know we have dinner set up for Wednesday and Thursday of this week. We still need to figure out dinner for the other evenings.

Also are you in need of supplies? If so can you please send me an email.

Thanks

I have asked Michelle to accommodate 10 more for lunch and dinner on Monday the 18th. We now have 13 FEMA staffers on-site that we will be including in our meals. We believe we are okay at the 50, but I'd rather have a little extra than not enough. More FEMA staff may be arriving tomorrow, so this is just so we can plan ahead and ensure everyone that is here working on this event has a meal.

Thanks

Subject: SEOC Staffing through 1/31/16

Good evening,

Attached is the list of staff assigned to work in the SEOC through 1/31/16. The hours are 8 a.m. to 8 p.m. Lunch and dinner will be provided. As always, business casual attire is appropriate. No jeans for EMHSD staff.

For Fiscal, your names are not on this schedule but I know it has been worked out within the section for the appropriate staff to cover.

Thanks,

Penny

State Emergency Operations Center
Logistics Section Chief

Hi Amy,
We are receiving dinner from a different vendor **tonight** (1/20) and **Thursday** (1/21) and **Friday** (1/22). However, we will likely need your services again for Saturday and Sunday dinners (1/23 & 24). I am awaiting word from our Logistics Chief and will notify you as soon as I know.

FYI - Catering items from last night were picked up around 8:30 a.m. this morning.

Thanks so much,
Diane

Per Carol's email to me below (and a conversation I just had with Tonya at my desk), I will order **lunches and dinners** through the **end of the day on MONDAY, JANUARY 25**. It would be helpful if one of you could order for the remainder of next week, that way you know the conversation and have control of things since you will be here for the deliveries, etc..

Let's make sure we have one of our little meetings on Friday to discuss this ...

Thanks, Diane

Subject: FEMA Food

Penny, Diane and Joyce
Captain had stopped by Diane's desk and wanted FEMA billed separate. Linda Pollack the lawyer from FEMA stopped over quickly to talk about food. Linda had asked me why I was asking, and I told her it was because she had inquired. She's going to talk to her people but as it stands now we couldn't find a way to have them pay as each person is responsible either via cash or charge to pay for their own meals.
Invoicing 10 people would not work for them. They are allowed to each individually accept a gift of up to $50 so we are wiping the past as leftover food or a gift.

Going forward If you could send her a list of vendors we order from and if you know a schedule when you order of the vendors that would be helpful.
They are on their own and if they want to call a vendor that you happen to be ordering from and have something delivered upstairs to them then they can do that. They have no way of paying a vendor for 10 people since they each pay on their own card or paying us.

For today she will let me know. I told her what we would do since we have already ordered is if our people get done eating usually around 1 we can tell them they have left over food and they can help themselves.
If you have any other ideas that would be great.
Thanks
Michelle

Subject: RE: FEMA Food

Thanks Michelle. I may be reading this incorrectly, but here are my comments for clarity ..

1. Food for today has already been ordered for **60 people** which include them and I cannot change that at this short of notice. I will have them eat with us today **for the last time.**
2. After today, they **should not be privy to our leftover food**. After 2 pm everyday (per Oralya's email) all leftovers should be for SEOC or EMHSD staff only (I can anticipate what will occur if we open leftovers up for them).
3. I have been stocking pop, water and juices for them every day. Should that be discontinued?
4. Important: I can give FEMA a list of vendors, but I know the vendors will require a **credit card payment via phone** from them before the order is placed and delivery is made. The vendors I use are set up to invoice us because they are in MAIN and trust our process. That won't be the case for FEMA. They will also expect a tip and/or have a delivery fee.
5. Since we use caterers for the evening, not sure what FEMA will do for dinners.

I think I need more direction. Until then, I'll do the following:

1. Call our scheduled vendors and have them reduce the number of **lunches/dinners for this day forward to 45**.
2. Put together a **vendor list with phone numbers for FEMA**
3. Give FEMA my **daily schedule of vendors** (but that changes and sometimes I order the night before for Pizzas, etc. so it's a balancing act.) Also, don't want to confuse our vendors.
4.

Thanks

SEOC Staffing-

I just spoke to Shanon Banner. She advised me that I was to report to the state SEOC in Lansing on Monday at 8am. I am to shadow the current PIO rep working in the SEOC on Monday until 4pm

I will then be assigned on my own in the SEOC to work the 8am-8pm (or until everything is done) shifts Tuesday - Friday. She advised at the end of next week we would look at my involvement for future staffing

If anything is incorrect in my understanding of this please let me know

Thank you

K

Morning,

Starting on Monday would be good. If F/Lt. Sweeney can staff that desk Monday - Friday, that would be very helpful. I am tentatively planning to put one of my staff members on the PIO desk this weekend, as I would like to scale back the JIC and run it from the SEOC this weekend. No final decision has been made on this yet. I plan to get a final decision by COB today.

Thanks,

Shanon

Shannon,

When do you want F/Lt. Sweeney to start? We currently have three people (rotating in that position) from EMHSD and we would like to free up two of them to go back to normal duties. The one that stays would be getting trained in that role by Kevin.

Please advise.

Thanks,

Gabe

Subject: Food for FEMA

Okay . . . here is the final on this so we can stop beating it to death. I just asked Captain what was said to FEMA. They know we can't provide meals for them. Nancy – since you are the one who knows what you can and can't do as far as invoicing, please take the lead. Ask FEMA what they want to do – eat with us and get a bill or be on their own. We can give them ideas of where to order food if they want. One or the other – no in-between.

Captain told them that today's food orders were already in place and couldn't be changed, so they should plan on having dinner. That's it. Whatever is decided is done.

Thanks!! :)

Subject: RE: FOOD UNIT - Meals
Attachments: FOOD UNIT_Schedule.docx

Diane
There is lots of left over hot dogs and some bread sticks from Howell Tomato Soup place that Sam's wife and son brought in. Left the aluminum pan in case we want to put hot dogs in the oven to heat up one day?
Also can you please email that vendor list? Sorry I can't see that you sent that or not and I was going to fill in the menu and vendor for the week. I already ordered from Nancy at Saites for next week every day but Tuesday Dinner which we will order the Meatloaf again as it was a big hit.
We left Friday open at the new SEOC and have an idea that Joyce is checking into for that day.
I can stop at Gordon Foods tomorrow after church if you text me a list after 10.
I know you need ice, water, fruit, maybe some pop. If you don't have enough water for tomorrow let me know and I will bring you some up?
I did not order any drinks for next week.
Good Luck next week let us know if you need anything? My husband drives right by there for work I can always send something with him to drop off.
See Ya

Subject: FOOD UNIT - Meals

Per Carol's email to me below (and a conversation I just had with Tonya at my desk), I will order **lunches and dinners** through the **end of the day on MONDAY, JANUARY 25**. It would be helpful if one of you could order for the remainder of next week, that way you know the conversation and have control of things since you will be here for the deliveries, etc..

Let's make sure we have one of our little meetings on Friday to discuss this ...

Thanks, Diane

MEDIA MONITORING REPORT

10/26/2015

Issues:

- No issues to report.

Summary:

- Michigan's emergency manager law, already highly controversial because it was rejected by voters in 2012 but reinstated by Republican lawmakers less than six weeks later, is under fresh scrutiny in light of the lead contamination of Flint's drinking water.
- State Sen. Jim Ananich wrote a guest column for MLive in regards to asking the EPA and Auditor General for a formal investigation into the Flint water crisis.
- Unhealthy levels of lead may be in the drinking water of Michigan's urban public schools beyond Flint as a result of gaps in federal testing requirements that leave those facilities unprotected.
- Since 2006, the state police agency has been using cellphone tracking services originally intended to fight terrorism, but used in common practice to solve everyday crimes, The Detroit News reports.
- The Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) is offering elementary schools in Lapeer County and across the state an opportunity to enroll their fifth-graders in the Student Tools for Emergency Planning program.
- Kent County and West Michigan cities are asking for $230 million from the federal government to prepare for and withstand natural disasters like the Grand River's historic flooding in 2013.
- Thousands were evacuated from luxury beach resorts and impoverished hamlets long before the powerful Category 5 Hurricane Patricia touched down Friday evening near Cuixmala in southwestern Mexico.
- The Michigan Department of Technology, Management and Budget says Gov. Rick Snyder is hosting the fourth North American International Cyber Summit starting Monday morning at downtown Detroit's Cobo Center.
- Clayton Township Police Chief Scott Pavlik isn't sure what might happen to his department after Jan. 1 if a 1.9-mill, six-year tax proposal isn't passed in the Nov. 3 election.
- National Weather Service forecast updates.
- TV clips: Flashpoint: Gov. Snyder talks water crisis, Michigan roads; State: test all kids for lead; MSP using phone tracking devices.

Analysis:

- Media coverage is neutral.

- Continued coverage on the Flint water issues.
- Detroit Free Press wrote an article on if the emergency manager law is to blame for the Flint water crisis.
- State Sen. Jim Ananich wrote a guest column for MLive about requesting an investigation into the Flint water situation from the EPA and Auditor General and not only relying on Gov. Snyder's task force.

FLINT WATER

Is emergency manager law to blame for Flint water crisis?

Detroit Free Press, October 25, 2015

LANSING — Michigan's emergency manager law, already highly controversial because it was rejected by voters in 2012 but reinstated by Republican lawmakers less than six weeks later, is under fresh scrutiny in light of the lead contamination of Flint's drinking water.

Flint was under the control of a state-appointed emergency manager when it began drawing water from the Flint River as a cost-saving measure last year. Tests show the corrosive nature of the river water caused lead in the pipes that deliver it to homes and other structures to leach into the drinking water, causing it to exceed federal limits for lead — which can cause permanent brain damage in children.

Let's find a clean water solution for Michigan

Detroit News, October 25, 2015

It was great to see the Michigan Legislature come together and put politics aside as they voted unanimously in finding a resolution to the Flint drinking water crisis. However, this single incident also exposed a major flaw in a system that should ensure that all residents of Michigan have access to clean drinking water, not water that is treated from polluted rivers and is brought to them through aging, deteriorating pipes.

We have witnessed how difficult it has been for our state leaders to legislate changes in the way we fund roads. It is going to be even more difficult to bring about positive legislation to update our aging underground drinking water systems and failing sewer systems. We all take for granted that our water supply and sewage disposal systems are in fine working condition, and yet significant troubles lurk just below the surface in many, if not most, communities across the state. The delay in road funding has blemished the image of the state that put the world on wheels. A continued delay in proper funding for our underground infrastructure will also be an embarrassing black eye for the Great Lakes State, whose greatest natural resource is the water in our lakes, rivers and streams.

Legislature, feds should take on Flint water investigation

MLive, October 25, 2015

Switching to the Detroit Water and Sewerage Department isn't the final solution for Flint — it's the first step on a long road to recovery.
